ONE THOUSAND MADE A MILLION. Mr. Vanderbilt Tells an Interesting Story of Fabulous Profits in Stocks.

NEW YORK, Dec. 10.—A novel booklet is creating a sensation in financial circles here and Wall street is deeply interested in it, particularly as it is being circulated by W. G. Vanderbilt. He tells how he made a million dollars by investing a thousand and the story is intensely interesting.

Mr. Vanderbilt was interviewed at his offices in No. 109 William street, New York, and stated that he was pleased that his booklet had been so well received. He said: "I met so many people who were groping in the dark about financial matters, I decided to publish some of the things I have learned about business and send it out as a tribute to my personal friends. But, dear me, my friends told everybody about it and my mail is flooded with requests for the booklet. Therefore, I have decided that I can do nothing better for my fellowman than to send a copy of it to any one who will write to me at No. 109 William street."

"Do you intend to distribute these free?" "Certainly," he responded, "because I know no one will be interested in the matter except those who have saved enough money and want to know how to make their savings earn more than simple interest in the bank. I am doing the best service for those who need it most, and that is the real essence of true philanthropy. I would like to have applicants for this book write me fully and I will be pleased to send any one a copy."

At least a score of bankers and financial men, who were interviewed subsequently, all agreed that Mr. Vanderbilt's book should be in everybody's hands who desired to improve their condition financially.

What Sulphur Does

For the Human Body in Health and Disease. The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and mind you, this old-fashioned remedy was not without merit.

The best was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years, research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Wafer. They are small chocolate coated pills and contain the active medicinal principle of sulphur in a highly concentrated, effective form.

Few people are aware of the value of this form of sulphur in restoring and maintaining body vigor and health; sulphur acts directly on the liver, and excretory organs and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they dosed us with sulphur and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparation of sulphur of which Stuart's Calcium Wafer is undoubtedly the best, and most widely used.

They are the natural antidote for liver and kidney troubles and constipation and purify the blood in that often surprising manner which Stuart's Calcium Wafer. Dr. R. M. Wilkins while experimenting with sulphur remedies soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria, I have been surprised at the results obtained from Stuart's Calcium Wafer. In patients suffering from boils and pimples and even deep-seated carbuncles, I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafer is a proprietary article, and sold by druggists, and for that reason known by many physicians, yet I know of nothing as reliable and effective for liver and kidney troubles and especially in all forms of skin disease as this remedy."

At any rate people who are tired of pills, cathartics and so-called blood "purifiers," will find Stuart's Calcium Wafer, a far more palatable and effective preparation.

NEW YORK, Dec. 10.—The feature of today's developments in the financial transactions of Mrs. Cassie L. Chadwick was the disclosure that she had in her possession directly and indirectly alleged securities to the amount of nearly \$140,000.

These all bear the name of Andrew Carnegie, and are as follows: Note held by Citizens' National bank of Oberlin, \$20,000, note admitted to exist by President Beckwith, \$20,000, note held by Iri Reynolds, \$30,000; certificate of trusteeship for securities, held by Reynolds, \$20,000. Total, \$120,000.

With this backing Mrs. Chadwick was enabled to obtain large loans during the last two or three years, most of which were repaid; however, the only financial institution that has so far as is known been compelled to close on account of the woman's dealings has been the Citizens' National bank of Oberlin, the president of which, which are now in the indictment and under trial on the charge of misapplication of national bank funds.

The inducements offered the Oberlin bank officials were stated today to have been the promise of Mrs. Chadwick to Messrs. Beckwith and Spear that their bank was to be made the trustee of Mrs. Chadwick's \$500,000 estate and that the bankers were called to receive a yearly salary of \$10,000 for their services. An additional bonus of \$40,000 was promised the bank when the loans were repaid.

H. Eaton, pastor of the Euclid Avenue Baptist church, through whose brother's law firm in Boston Mrs. Chadwick first met Banker Newton of Brookline, has refused to make any reply in the minutes connection with the case. Dr. Eaton's family has continued to his bed and inaccessible to interviewers.
