

BENNETT AND ROYCE SLATED

Two Present Incumbents of State Positions to Hold Over.

GOVERNOR CALLS TIME ON PRIZE FIGHT

John N. Westberg Looking Up His Chances for Chief Clerk of the House, but Meets Little Encouragement.

(From a Staff Correspondent.) LINCOLN, Dec. 10.—(Special.)—George D. Bennett will be reappointed secretary of the State Board of Equalization and Ed Royce will hold on to his place as secretary of the State Banking board. Neither of these appointments has been officially made, but there is no doubt that they will be announced in due time. A majority of the members of the State Board of Equalization have expressed their preference for Mr. Bennett, believing that he deserves another term, because it was due largely to his work and his understanding of the law. That the board got along as well as it did in starting out under the new order of things, the salary attached to this office is \$1,000 a year, and as the responsibilities are a great deal more and the work a great deal heavier than that of a deputy. It is very probable an effort will be made to get the next legislature to increase the salary.

State Institutions Report. Nearly, if not all of the state institutions have made their biennial reports to the governor, but they are not accessible to the public, as has been the custom, for the reason that in the office of the governor it is thought a candidate for chief clerk of the house should be in complete possession of the reports of former bienniums and then the entire list reports in a complete table be published.

Governor Calls the Fight. Those sport loving Omaha people who contemplate going to Homer to see Clarence English and Dave Andrews of South Omaha take a few moments to inform the would-be contender with the state authorities first. Governor Mickey heard that such a fight was in course of arrangement and this morning he notified the sheriff of Dakota county that he must not allow the fair name of Nebraska to be stained with such an exhibition. The sheriff promised he wouldn't.

Consult on Tax Case. Governor Mickey and Attorney General Proul, Deputy Norris Brown and Assistant W. B. Rose were in consultation this morning over a plan to oppose the railroads in their suit to prevent the collection of taxes. The conference was held in the informal discussion and no definite plan will be adopted by the attorney general until after his consultation with the county attorneys next Wednesday.

Westberg After Clerkship. Friends of John N. Westberg, at one time comptroller of the city of Omaha, have been doing a little missionary work here in his interest as a candidate for chief clerk of the house of representatives, but it is believed with indifferent success. A member of the Omaha delegation announced yesterday evening, when he heard of the movement in Westberg's favor, that the former city comptroller could secure the support of his home delegation and that consequently he would not be a formidable candidate in opposition to John Wall. Mr. Westberg is known to the Lancaster delegation as the man who helped secure the passage of the Omaha charter which provided for a chief clerk of the house of representatives, but it is believed with indifferent success. A member of the Omaha delegation announced yesterday evening, when he heard of the movement in Westberg's favor, that the former city comptroller could secure the support of his home delegation and that consequently he would not be a formidable candidate in opposition to John Wall. Mr. Westberg is known to the Lancaster delegation as the man who helped secure the passage of the Omaha charter which provided for a chief clerk of the house of representatives, but it is believed with indifferent success.

BEET SUGAR FACTORY MOVES

Plant is Taken from Norfolk to Where Land is Cheaper. WILL LOCATE AT LAMAR, COLORADO. Nebraska Farmers Find Other Crops Which Pay Better and Require Less Labor to Produce.

The contractors have had the best weather possible for doing their work and every thing has been done within the time specified in the contract. There are twenty-six lights, which will give ample light for all occasions. Quite a number of business houses have already put in the gas and others will do so as soon as the work can be done and the same is true of the residences.
Colored Lad Puts Employer's Name to Checks and Goes to Pen. CHADRON, Neb., Dec. 10.—(Special.)—In district court, before Judge Westover, Guy Moore, a colored boy aged 19, pleaded guilty to forgery and was sentenced to one year in the penitentiary at hard labor, Sundays excepted, and to pay a fine of \$10 and costs of prosecution. The boy had been working for Robert Hood in his lumber yard and being quite an expert in handwriting, had copied the signature of Mr. Hood until the resemblance was very close. Moore then forged the name of Robert Hood to three checks on the First National bank of Chadron for \$30, \$20 and \$15. Sunday evening Mr. Brokaw cashed the \$15.00 check in his saloon in the presence of the night watchman, who happened to know that Moore had not been working in the lumber yard for several days and that his circumstances were not such that he would be holding any such check. A minute examination followed and the deputy sheriff soon had Moore in custody.

THE VALUE OF CHARCOAL

Few People Know How Useful It is in Preserving Health and Beauty. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose. Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the poisons and impurities always present in the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic. It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison or rather in the form of large, pleasant odors of catarrh. All druggists sell charcoal in one form or another, but probably the best charcoal, and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form, tasting lozenges, of the charcoal being mixed with honey. The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

STANTON Thief is Captured

The man who is believed to have stolen a team of horses from the farm of Henry Mathes one half mile east of this place last Monday night is now an inmate of the county jail, having been captured and brought back by Sheriff King Wednesday night. The capture was made twenty miles west and eight miles north of Randolph. The prisoner refuses to talk. He is fairly well dressed and not a bad appearing man, compared with men of his class. The county attorney is out of town, but is expected home tonight and the preliminary hearing will be held tomorrow. Mr. Mathes has just returned with his team, which is considerably sore-d on the hard drive given it by the thief.

Inspects Rural Routes

OAKLAND, Neb., Dec. 10.—(Special.)—Harland, a rural route inspector, has been in this city the last week looking over the rural routes in this vicinity and also the unassigned territory. An effort is being made to organize a complete rural delivery system in Burt county and the inspector has made this place his starting point. Of course some little time will be required to drive over all the routes in the county and readjust them so that every patron is served, but it is hoped the complete delivery will be in operation by spring.

Gas Light at Oakland

OAKLAND, Neb., Dec. 10.—(Special.)—The new gas lights were turned on for the first time last night and proved very satisfactory. The street lights on Main street were the only ones lighted, as the burners for the others had not arrived.

News of Nebraska

GENEVA, Dec. 10.—The Masons held a reception and banquet last night, with a good program.
PLATTSMOUTH, Dec. 10.—A grand district Sunday school rally will be held in the Methodist Episcopal church in this city next Tuesday.
BEATRICE, Dec. 10.—The new two-story brick block of the Queen City Cigar company is enclosed and it will be ready for occupancy about the first of the year.
WEST POINT, Dec. 10.—Cannin Zacob has been installed as assistant at the new depot, taking the place of Edward Heine, who has been promoted to a better position at the Winsor depot.
PAWNEE CITY, Dec. 10.—The women of the Free Library association will open a bazaar on Saturday in the lot of the association. Almost every family in the city has contributed articles for the bazaar.
BEATRICE, Dec. 10.—Miss Lett, Bivens, living in South Beatrice, suffered a painful accident yesterday by running the line of a pitfall into her foot. She is confined to her home as a result of the accident.
PAPELLION, Dec. 10.—While on a hunting expedition near Springfield George Bartle, a young hunter, was accidentally shot by John Dooley. Bartle received the contents of a shotgun at close range, but was not severely injured.
BEATRICE, Dec. 10.—Chicken thieves have been playing their vacation in the vicinity of Barnston the last few days.
PAWNEE CITY, Dec. 10.—A farmer living three miles east of Barnston, reports the loss of \$20 worth of poultry in one night.
FAIRBURY, Dec. 10.—John Kesterson has sold one of his farms near the city, comprising 50 acres, for the sum of \$2,500. The purchaser was James Hughes, one of the best stock feeders in the county, who will fit it up for a stock ranch.
BEATRICE, Dec. 10.—The sophomore class of the Beatrice High school met yesterday and elected the following officers for the coming year: James Ayers, president; Clara Bartlett, secretary; William Atwater, treasurer.
PAPELLION, Dec. 10.—Typhoid fever has become quite prevalent in and about Papillon. Several cases are reported in different parts of the county. The family of Bart Johnson of Portal have been quarantined on account of the appearance of scarlet fever.
SCHUYLER, Dec. 10.—About 150 men are employed during the present good weather at moving trucks in the Union Pacific yards. There are groups of Italians, Russians and Greeks, together with a cosmopolitan complement of numerous other nationalities.
PLATTSMOUTH, Dec. 10.—Julius Peppercorn of this city receives a trial order from Boleslaw Horodynski of Warsaw, Poland, for 100 pure Havana cigars man-

Hunters Shoot Each Other

Three Men Are Badly Hurt in a Series of Accidents. SCHUYLER, Neb., Dec. 10.—(Special.)—Shooting accidents have been frequent here of late. Several weeks since Melvin Gray had his head shot full of shot by Victor Smanlat while a party was engaged in shooting blue rocks on a Sunday afternoon at the Gray ranch. It leaked out during the week that last Sunday white R. A. Gray and Joseph Smanlat, brothers of the principals in the other accidents, were hunting. Smanlat, while some seventy-five yards from Gray and not knowing his exact location, fired, and several of the shot struck Gray in the face, one of them striking through an eyelid and into the ball with sufficient severity to necessitate his being taken to an Omaha hospital for treatment. Report is that the eye is not likely to be lost. Arthur Sprulock and Claude Hurley were hunting rabbits and a shot from Hurley's gun glanced from some hard object and struck Sprulock just under one of his eyes, not quite penetrating to the ball, but making a very dangerous wound.

PAWNEE CITY, Dec. 10.—(Special.)—Last evening a mass meeting of interested persons was held in the Presbyterian church for the purpose of organizing an association with the view of providing

PAPELLION, Dec. 10.—(Special.)—The program given yesterday afternoon by the Woman's club was in the current topics department, Miss Katharine Howe leader. The general subject of the afternoon, "Our Next Neighbor, Canada," was treated in two papers, Mrs. R. Davis giving the first and Mrs. Emma Davis the second. The club had as guests Rev. Edwin Boo, the new pastor of the Congregational church, who recently came here from David City, and Colonel W. H. Edgar of this city, both of whom added much to the program and whose excellent musical numbers were rendered during the meeting.

Absolutely Free A Dollar Kidney Cure

To any Kidney sufferer who has not tried my remedy I offer a full dollar's worth free. Not a mere sample—but a regular dollar bottle—standard size and shape. There is nothing to pay, either now or later. I ask no deposit—no promise. You take no risk. The dollar bottle is free—because mine is no ordinary remedy, and I feel sure of its results that I can afford to make this offer. In the first place, my remedy does not treat kidneys themselves. Such treatment is wrong. For the kidneys are not to blame for their weakness or irregularities. They have no power—no self-control. They are operated and actuated by a tiny strand of nerve, which alone is responsible for their condition. If the nerve is weak, the kidneys are weak and diseased. If the kidney nerve goes wrong, you know it by the inevitable result—kidney trouble. This tender nerve is only one of a great system of nerves; this system controls not only the kidneys, but the heart and the liver and the stomach. For the kidneys are not to blame for their weakness or irregularities. They have no power—no self-control. They are operated and actuated by a tiny strand of nerve, which alone is responsible for their condition. If the nerve is weak, the kidneys are weak and diseased. They are operated and actuated by a tiny strand of nerve, which alone is responsible for their condition. If the nerve is weak, the kidneys are weak and diseased. If the kidney nerve goes wrong, you know it by the inevitable result—kidney trouble. This tender nerve is only one of a great system of nerves; this system controls not only the kidneys, but the heart and the liver and the stomach. For the kidneys are not to blame for their weakness or irregularities. They have no power—no self-control. They are operated and actuated by a tiny strand of nerve, which alone is responsible for their condition. If the nerve is weak, the kidneys are weak and diseased. If the kidney nerve goes wrong, you know it by the inevitable result—kidney trouble.
