The treatment of many thousands of those chronic weaknesses and distress ing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast ex-perionce in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies. Dr. Pierce's Favorite Prescription is

the outgrowth, or result, of this great and valuable experience. Thousands of testimonials received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be a superior remedy for the relief and cure of suffering women. Is is not recommended as a "cure-all," but as a most perfect specific for wom-
