(From a Staff Correspondent.) DES MOINES, Dec. 15,-(Special.)-A movement to reform lows laws and avoid what appears to be not only an invitation o perjury, but a situation compelling perjury in some cases, was started at the with her. Mrs. Roberts and the officers conference of the superintendents of state institutions, as the result of statements made by persons who are in a position to know what is being done. Superintendent Fitzgerald of the Girls' Industrial School called aftention to the fact that the state of Iowa has made no provision for the care and custody of girls over 16 years of age. If they are bad the only thing to do is to let them run until they have committed some crime for which they a matter of fact it is known that as a result of this system many girls are sent to the State Industrial School who are ever age and in order that they may be sent there and receive the discipline and instruction which they need their parents ommit perjury. Miss Lundback, state nome finding agent, corroborated this, and raised a protest against a system which makes perjury necessary that justice may be done young persons of the state. An effort will be made to revive the project for a state reformatory for young women, where those who are too old to be sent to the industrial schools may be committed. It was explained that because of this system in Iowa a great many girls are sent to institutions outside of the state, and especialy for the Good Shepherd Home in Omaha and similar institutions.

Dog Case in Court. The sheep killing propensities of a yellow cur came to the attention of the judges of the supreme court today and they sent the case back for a jury to decide. Johannes Anderson of Buena Vista county sued Theodore Halvorsen for damages done by the latter's dog. There is no doubt the sheep were killed and the defendant's dog was seen at it, but the defendant claimed that there was another dog seen there also and it was not shown which one did the killing or how the job was divided. On this Judge Quarton dismissed the case. The supreme court reversed the case on an error in refusing to have admitted testimony to show that the defendant killed his dog and remarked that he "would kill no more sheep." The court also points out that since this case the law has been changed as to the joint liability of the dogs engaged in sheep killing, and that at the time of this incident each dog is re-
