Coffee Market.

NEW YORK, Dec. 22—COFFEE—Market for futures opened steady at a decline of 5629 points under active liquidation, promoted by the lack of responses in the Brazilian markets to the recent gains in speculative circles, indifferent European cables and moderately full receipts. Trading was very active. Importers appeared to be buying on the initial decline and shortly before midday three or four brokers with important Wall street connections entered the ring and bid in a sensational manner with prices goig up in jumps to about the previous high point, or a net advance of some 16629 points on sales of the active months. Shortly after midday this aggressive support was withdrawn and the market again sagged off to very near last night's point, was railied again in the later trading by a renewal of Wall street buying and was finally steady, net unchanged to 19 points higher. sold unevenly, the same as usual, and trading on that kind was not particularly active, but prices were steady on the average. Buyers took hold of the cow stuff quite freely and the market could probably best be described by calling it steady to strong. All the buyers seemed to want a few, and the light receipts forced them to pay strong prices for the kinds they all wanted. The less desirable grades, though, did not show a great deal of change. Practically everything was sold at an early hour. Bulls, veal calves and stags sold without a great deal of trouble at generally steady prices.
