SEQUEL OF SUPREME COURT BECISION

Pinintiffs Assert Their Business Ha-Been Damaged and Property Depreclated by the Closing In of the Streets.

As a sequel to the supreme court re fusing the motor company a rehearing in what is known as the Manawa fence case the company has been made defendant in three damage suits begun in the district court yesterday by owners of property at Manaws: The parties seeking damages are H. Beck, James S. Chrisman and George Robards and Mrs. Emma Ballou De Pret. They were the plaintiffs in the original suit brought to compet the motor company to open up certain public streets in Manawa which it had fenced and enclosed in its resort. Their claims for damages are based on the grounds that the closing of the public streets in question had deprecinted the value of their property.

W. H. Beck asks \$5,000 damages, Chrisman and Robards in their joint suit demand \$10,000, while Mrs. Emma Ballou DePret. for herself and the heirs of her deceased husband, W. H. Ballou, claims \$2,000, W H. Ballou fled since the original suit against the motor company was begun and his widow married again.

tate of Daniel Clancy, deceased, brought suit against the Mason City & Fort Dodge railroad for \$15,000 damages, the death of Clancy, who received fatal injuries October 27, 1903, while working as a brakeman at McClelland. At the last term of court the sult brought by Bessle Harris against the Great Western railroad for Clancy's death was taken from the jury, it being shown that the line at the time of Clancy's death was being operated by the Mason City & Fort Dodge road and that the Great Western had not taken it over. Following the dismi sal of the former suit C. A. Tibbits of this city was appointed administrator for the purpose of bringing another suit.

J. Marion Stevens, who with Fire Chief Nicholson, was thrown from the latter's buggy while driving to a fire on the night of October 17 last, through running into a mound of dirt left on South First street by the Gas company, has brought suit for \$1,000 against the Citizens' Gas and Elec-

Needless Expense. Attorney Frank Shinn of Carson appeared pefore the Board of County Supervisors at its session yesterday and raised objections to certain methods pursued by Fleener & Schleicher, the firm of tax ferrets now working under contract in Pottawattamie county. Mr. Shinn complained that restlents in the east end of the county had been served with notices requiring them to ome to Council Bluffs to be examined as concealed from taxation. In a number f cases, Mr. Shinn stated, these parties had been to considerable expense paying railroad fare and employing an attorney, ot to mention loss of time, and the inrestigation had shown that they did not owe the taxes as claimed by the tax ferrets. Attorney Shinn said he believed the board should look into the matter and see to it that the tax ferrets be more careful in the future and not put persons to needless expense. The supervisors listened patiently the Carson attorney, but decided it was sutside of their province to interfere in the matter.

The auditor was instructed to advertise for blds from physicians for the pauper practice in Kane, Garner and Lewis townships and at the poor farm. This action of the board is in direct opposition to the resolution adopted at the recent annual meeting of the Pottawattamie County Medical soclety decrying the custom of competitive bids for such work. In connection with the same matter the board decided that in case t any paupers in the county, except in Garner, Kane and Lewis townships, and those at the poor farm, needing medical attendance the township authorities will be required to immediately notify the supervisor in the district of such case.

The auditor was also instructed to advertise for bids for the county bridge work. The contract at present held by the Canton Bridge company will expire April 1, 1905. The claim of \$200 of Attorney F. A. Turner of Avoca for defending Lewis Smith, a negro charged with murder, was compro mised for \$100, thus making \$180 in all that e received for such services. The board adjourned until the regular

Civic Federation Fermed to Look After Municipal Taxation.

SHERWIN TO BE NEXT CHIEF JUSTICE

Pardon Secretary is Looking Into the Petition of George Burrier, the Clinton Burglar, Who Wants a Pardon.

(From a Staff Correspondent.) DES MOINES, Dec. 23,-(Special.)-A newly organized Des Moines Civic league has started out to raise a fund with which to take a hand in city politics and to keep watch on municipal affairs. The league has a number of substantial business men at its head, with L E. Tone as president and J. L. Carey as treasurer. An appeal was issued today for funds to carry on the work. It is proposed that an agent employed to keep watch on municipal affairs and to keep the people informed as to what is being done with the funds city debt and the city tax levies. In a court, statement prepared by the officers the following summary is made as to the pres ent condition of the city finances:

ent condition of the city finances:

Greater Des Moines in 1890 (the year of annexation) had no indebtedness, each municipality entering into the consolidation assuming its own indebtedness under the provisions of the consolidation act. Inside of six years the city had accumulated in outstanding warrants a floating debt of \$455,000—an average of \$75,000 each year-of which \$395,000 were funded into bonds of 1896, 1897 and 1898, and have already cost in interest \$115,400.

All this indebtedness has been accumulated because of allowing current expenses to exceed current revenues. The system which has produced this result is generally filegal and certainly unbusiness-like.

like,
Des Moines' levy for municipal purposes gradually increased until it reached, in 1903, 37.8 mills. The taxable value in 1896, under the method of assessment then in force, was \$16.455.280, and in 1960 it was \$15.644,000, showing an increase of over force, was \$16,475,280, and in 1963 it was \$15,644,000, showing an increase of over 75 per cent in the levy with a shrinkage of but about 5 per cent in the taxable value of all property assessed.

During the last ave years, with a tax levy aggregating over 36 mills, the current expenses for city purposes have exceeded the income in an annual amount aggregating about \$200,000, which is paid by the levying of a judgment fund tax, ranging from 2 to 3½ mills annually.

New+Chief Justice. It has been decided that John C. Sherwin of Mason City will be the chief justice of Iowa next year, commencing with the January term on the 10th of the month. Sherwin is the member of the court who would have become chief justice under the law before the adoption of the biennial amendment. The judge whose term next expires is made the chief justice under the Iowa law, but since the adoption of the biennial amendment the terms of Judges Sherwin and Weaver will expire at the same time. The judges, however, have decided that they shall continue to rotate the chief justiceship for the present on the old plan. The next term of court begins -January 10 and the subsequent periods of the term will commence February 7, March 7 and April 4.

Looking Into Burrier Case. Garrett, pardon secretary for the state at the present time, returned today from Clinton, where he spent some time investigating the case of George Burrier, who is applying to the governor for executive elemency. It appears that his appeal is more strongly backed than is usual and that he finds very little opposition at Clinton to the parele, Governor Cummins has never taken the matter up, as yet and will not do so for some time. Burrie is serving time for robberies at Clinton and he bases his claim to clemency on the ground that he turned state's evidence and has assisted the state greatly.

Head of Horticultural Department. The Board of Trustees of the State college at Ames has closed with Prof. S. A. He succeeds Prof. Price, who went to the Ohio Agricultural college to become dean. It is planned to do a great deal of extra work n Iowa the next few years in the effort to develop new fruits.

Insurance Companies at Law. A new and interesting point is involved in a suit commenced here by the Atlas Insurance company, an English corporation. against the Atlas Insurance company of Des Moines, to restrain the latter from doing business under that name. English company has an American agency and lays claim to a copyright on the name The Des Moines company is an old one and has been doing business for a number of years, but has lately prepared to greatly increase its capital. The question of the business has not before been usied.
