When the sewer proposition goes through t is hoped that steps will be taken to given some relief to the people traveling over Twenty-fourth atreel. This pavemen is in a very bad condition and an accident is looked for every day on account of the deep holes in the pavement.

There was some talk awhile ago abou getting out another petition to circulate among Twenty-fourth street property owners asking for a new pavement. A little talk among some of the property owners showed that such a petition would not be onsidered and the matter was dropped. The city cannot spend money to repaye the street, even if the general fund was full to overflowing. What repairs are made city authorities to bring about changes in must come out of the street repair fund. These repairs, when made, consist of the throwing of broken stones into the holes. holes are then as deep as ever.
