District Attorney Jerome Announces that He Will Not Consent to Her Release on Bond.

NEW YORK, Dec. 31.-When Nan Patterson was informed today that District Attorney Jerome had said he would not accept ball for her pending a new trial charge of the murder of Caesar Young, she is reported by her lawyer and

I cannot understand why, when peo-ple offer ball for me as high as \$5,000 Mr. Jerome insists on persecuting me by keep-ing me in prison. What object would I have in running away and where would I go. My future lies in New York, where have in running away and where would I go. My future lies in New York, where I expect to live and work and help to support my parents who have sacrificed what money they have saved for the costs of my trial and the few necessities which I feel that I have to have, but the prison authorities do not furnish free. I spent all of my own money since I was locked up and am obliged to look to my father for the small outlays absolutely necessary here. Rest assured, however, that I shall pay him back in good time.

Doctors Frequently Mistaken. "I suffered untold agony with piles for three years. Two doctors told me nothing but an operation would cure me. I tried different remedies, but nothing did me any good until I used Pyramid Pile Cure. I bought six fifty-cent boxes at the frug store, and now I can do my work and go out, where before I spent most of my time lying down. I thank God for giving the discoverer the knowledge to make such a cure. I recommend it to all my friends, and if I ever have piles again will certainly use this remarkable remedy. You can use this in any way you, wish to make known the wonderful merit of Pyramid Pile Cure." Mrs. Wm. Mucky, 81 Marshall Street, Elizabeth, N. J.

The experience of this lady is that of thousands of others who have been assured that nothing short of an operation would rid them of this distressing complaint. On the face of it, it appears as if too many surgeons operate in order that they may keep their hand in, and lose no portion of their skill; then, again, too many surgeons are anxious to experiment (like the cientific man in Mark Twain's pathetic story of the dog and her little puppy), and do not have proper regard for a patient's physical welfare or condition.

We advise every sufferer to think twice before submitting to an operation for piles, and suggest that those interested write to the Pyramid Drug Co., Marshall, Mich. for their little book on the causes and cure of piles, which is sent free for the Shakhe and near the railroad bridge, the not completely successful in financing a 5

A cry of "fire," as a volume of The Sevastopol, which was exposed to the enemy's fire in the night time on the night of December 8, without being towed, left the harbor with only 11 instead of its complement of 600 souls. When it went out it had its nets down, but was struck twice by the enemy's torpeoces and was beached irreparably damaged. General Stoessel highly praised the officers and crew of the stage and told them that there was not the slightest danger of the fire reaching the theater. "There is not the slightest cause for alarm," cried the manager, "keep your seats, or if you wish you may go outside and assure yourselves that the theater is not on fire."

His words for a time had little effect or the terrified audience, for, with a rush, a majority of the playgoers left their seats and hurried to the exits and fire escapes. In their efforts to reach the street many of them were bruised and cut by falling over each other. Statement by Hermann.

Congressman Binger Hermann, who will leave for Washington tomorrow morning.

Issued the following statement tonight:

The indictment returned against me is the result of the busest conspiracy. I came here upon the advice and urgent suggestion of my friends two weeks ago, as I had been informed by them that efforts were being made to implicate me and Senator Mischell in Oregon land frauds which have been under investigation and trial, and which frauds it was rumored I had knowingly sided and advanced during my service as commissioner of the general land office. I knew I was free from any wrong-doing.

Inspections were made as to the land entries. They had passed the approval of the local land offices. They had been under careful scrutiny of the land commissioner, whose testimony in the late trials in the city was that he had found the evidence satisfactory. I had no acquaintance with the lands, no intimacy with those benefited no interest in the transaction, no desire to become interested. I have been a resident of Oregon since my boyhood and have been trusted with many transactions affecting the public interest and with my fellow men, and in all of them all my single endeavor has been to discharge my duty and preserve my honor. Mistakes may have been imposed upon, but I am not conscious of having done anything wrong.

Hitchcock Talks of Indictments. WASHINGTON, Dec. 31 .- The news of the indictment of Senator Mitcheil and Representative Hermann for conspiracy to defraud the government of public lands had been fully expected for some time by those officials having to do with the case, and it therefore came as no surprise. Secretary Hitchcock frankly stated that he had looked for the indictment at any time while Attorney General Moody, who acted in conjunction with the Interior department in bringing about the several indictments, declined to make any comment on the result of the grand jury's investigation, although it is believed here that he, too, was prepared for no other decision than

The announcement of the removal was made by Attorney General Moody as he left the White House after a conference with the president. He declined to say what charges, if any, had been made against Hull, but added that for the good of the service it was believed best to dispense with him, particularly in connection with the land fraud cases in Oregon.

Earlier in the day Senator Fulton of Oregon had a talk with the president concerning land fraud cases which have been instituted by the government in Oregon but whether this conference had any relation to the removal of the district attorney could not be learned.

Mr. Hall was endorsed for reappointment by Senator Mitchell and Representative Hermann of Oregon, both of whom recently went to Portland, where they appeared before the grand jury in connection with that body's consideration of the cases growing out of the public land frauds. The president took no action on this recommendation. The conduct of the district attorney's office at Portland has been inquired into by the government representatives and reports on the facts adduced have been transmited here. The reports allege that there has been obstruction of justice; that certain prominent men have been shielded, and that attempts have been made to prevent certain parties giving evidence
