GRAIN AND PRODUCE MARKET

Wheat Visible More Than Forty Million, Contrary to Expectations.

DECREASE BEGINS THIS MONTH OR NEXT

Bradstreet's Bullish-Cors Are Plenty Now While Dull Period is on for Corn Shipments-Corn and Oats Plat.

OMAHA, Jan. 4, 1865.

The visible wheat supply has reached 40,613,000 bushels, which is a point a few months ago thought impossible for this crop. There was so much talk of the outting down of the amount. The increase in the visible is not likely to continue long, for the greatest visible of last year was reached early in February. Last year, moreover, the southwestern receipts continued liberal throughout the winter, while in 1894 they have been light for some time. The visible is 2,15,000 bushels more than last year. Of this increase 1,866,000 is in Canada. The maximum of the visible last year was 40,612,000, which was reached January 22, and is 7,000 below the present visible.

H. V. Jones is credited by several Chicago papers with saying the most important thing in the immediate wheat situation is what the trade is going to think when the visible begins to decrease weekly, as it is bound to do in January or by February 1. He is quoted as saying Minneapolis has a liberal stock at present, but the country has less than usual. He scoffs at the idea that the northwest has 50,000,000 or 60,000,000 bushels of wheat yet in the country. He finds this contrary to the conditions. He says the elevator receipts are small and the stocks of country elevators are small lower in fact than has been the case at this time of the year for several years. The northwestern visible is not much greater than in 1903 and the increase is due to the higher prices which have brought out the grain.

Bradstreet is bullish. He finds an locase east of the Rockies of \$22,000 bushels and a decrease in Europe and affoat of 3,200,000, making a world's decrease of 2,551,000. The decrease for the same week lest year was only \$1,000. For the world's visible supply Bradstreet figures a December decrease of 2,500,000, while for last year it was an increase of 10,000,000. Minneapolis received \$4,000 bushels of wheat and shipped 310,000: Duluth received 113 cars for three days and 70 cars of this were No. 4 or worse. The Ohio January report gives the crop condition as 72 against 75 for last month and 77 for last year. Drouth is the trouble.

The car famine is over for the present. The roads were rushed in getting the corn to the seaboard for delivery for December cargoes, but now they see a dull time ahead for several weeks. Cars are offered in increasing numbers to shippers, who do not want them just now. Two weeks of

cargoes, but now they see a cult time shead for several weeks. Cars are offered in increasing numbers to shippers, who do not want them just now. Two weeks of duliness have been passed. Bradstreet figures an increase of corn of 2.787,000. The market is depressed by dribbling liquidation. The commission houses are selling a little. The continued large receipts, the large shipments from Argentina and elsewhere and the high quality of the corn coming all tend to lower the market. Valentine was selling some corn, amount not known, this morning.

Oats opened easier than the Tuesday close. They are affected by the duliness in corn and will probably continue to be so. The decrease in the visible has had no effect on the market. There seems to be no outside trade. Bradstreet figures a decrease of 630,000.

firm, owing to satisfactory traffic returns. firm, owing to satisfactory traffic returns, but closed easier. Americans were steady, the movements being at about parity and baroly tregular, although stocks were mainly firm. The Northern Securities decision was ignored. Bultimore & Ohio was one of the firmest stocks, having been bought for confinental account. Prices closed weaker. The Mackay companies shares were introduced on the Stock exchange today. Grand Truink advanced sharply on the traffic returns, being nearly double the amount expected. Japanese were strong. Imperial Japanese government 6s of 1904 were quoted at 57%.

PARIS, Jan. t.—Trading on the Bourse today opened with a firm tone, the talk of eventual pence in the far east favorably influencing the market. Subsequently there was gradual depression and at the close an undecisive tone prevailed. Imperial Russian is were quoted at 90.79 and Russian bonds of 1904 at 500.

BERLIN, Jan. t.—Prices on the Bourse today were unchanged throughout.

degree that it was felt yesterday. The rate of the gold outgo was of sentimental influence in the stock market. It was intimated that gold was likely to be shipped from San Francisco on account of deposits at the New York sub-treasury. The only occasion that can call for shipments to Japan at this time would be on account of New York sub-treasury. The only occasion that can call for shipments to Japan at this time would be on account of New York sub-treasury. The Japanese loan. It is interesting to recall that at the time of the last Russian loan it was alleged that its flotation was facilitated by reason of disbursements in the world's markets of drafts on deposits on European banks of the proceeds of the former Japanese loan. The calling home by Japan of its foreign deposits Railroad net earnings reported for November showed good increases, the important instances being Pennsylvania, St. Paul and Lehigh Valley. The reactionary tendency in the market prevailed and the closing was weak.

Bonds were easy. Total sales, par value, \$4,25,000. United States bonds were unchanged on call.

Wool Market.

BOSTON, Jan. 4.—WOOL—A firm tone characterizes the wool market, while there is a fair amount of buying considering the small stock of wool available. The trade consists almost entirely of lots for piecing out larger purchases previously made. That high values are to be maintained on both wool and wool goods seems assured, as all the available supply in sight has been bought at high prices. Territory wools are firm and pulled grades steady. Foreign wools run the same, Quotations: Territory—Idaho, fine. 1854918c; heavy fine. 18611c; fine medium. 185418c; heavy fine. 18611c; fine medium. 185418c; heavy fine. 18618c; heavy fine. 18618c; ine medium. 175418c; heavy fine. 18618c; fine medium. 175418c. medium. 175518c; ine dium. 175518c; ine medium. 175518c; heavy fine. 18618c; fine medium. 175418c. medium. 18618c; fine medium. 18618c; medium. 23924c. NEW ORLEANS, Jan. 4—SUGAR—Firm; open, kettle. 35.694ac; open kettle centrifugal, 4745ac; centrifugal whites, 4 15-1635c; yellows, 44-544 13-165; seconds, 38-674-5-16c. MOLASSES—Quiet; open kettle, 15-725c, centrifugal, 7915c. Syrup, steady, 23-625c.

LONDON. Jan. t.—Money was in small demand and supplies were over-abundant in the market today. Discounts were steader, being affected by the French demand for bar gold and the outflow to South America. Operators on the Stock exchange became apathetic after a cheerful and moderately settive opening. Consult were easier on the fresh issue of Irish land loan stock. Home rails were steady; No. 7 Rio, 83c. September, stendy; No. 7 Rio, 83c.

CATTLE—There was ant ther very moderate run of cattle in signt this morning and that was particularly the case at this point. Packers all seemed to be anxious for supplies, and as a result buyers were out in good season and stronger prices were paid for everything at all desirable.

About the usual proportion of the receipts consisted of corn-led steets, but the quality, with the exception of a few bunches, was only fair. Anything at all desirable sold readily enough at a little stronger prices and some sales tooked in extreme cases to be as much as 5610c higher. As a general thing, however, the market could the stronger than the described by calling it strong and fairly active.

HOGS-Receipts of hogs were not at all excessive this morning and with a good local demand the market here improved a little. At the opening of the market, ruling prices were fully 3% higher, with trading quite active. The bulk of the early sales went at \$4.65 and \$4.71%, with prime loads mostly at \$4.50 and a ton at \$4.55. After packers had their more urgent orders filled trading became less active, with the feeling weaker. At the extreme close practically all of the early edvance was lost, the late sales being largely at \$4.45 and \$4.25, with the choicest loads at \$4.45. In spite of the weak close most everything was disposed of in fairly good season.

SHEEP—There was a fair run of sheep and lambs here this morning, but the demand was sufficient to hold prices just about steady. Trading was active on the more desirable grades, particularly in the case of lambs. Common kinds of both sheep and lambs were not very brisk, but still right close to steady prices were paid. A good clearance of the better grades was made in good season, but it was a little late before the commoner kinds were all disposed of. As high as \$6.50 and \$5.50 was paid for lambs against a top late yesterday of \$5.80, which was paid for some very prime lambs. There is nothing new in feeders, as very few are offered, and those that do arrive sell at just about steady prices. few are offered, and those that do arrive sell at just about steady prices.

Cotton Market. NEW YORK, Jan. 4.—COTTON—Spot closed quiet, 25 points higher; middling up-lands, 7.35c; middling gult, 7.50c; sales. NEW ORLEANS, Jan. 4-COTTON-

less be described by calling it strong and fairly active.

Cow buyers were out in the yards earlier this morning than they have been for some time past. They all seemed to have liberal orders and with the small number of sales there was considerable competition and the market ruled active with prices strong to as much as a dime higher. The choicer grades of course showed the most improvement. A good clearance was made at a reasonably early hour.

There was not enough change in the prices paid for bulls, veal calves and stags to be worthy of mention.

Very few stockers and feeders arrived this morning and there were also otly a few warmed-up cattle of the right kind for feeders, so that speculators did not find much to operate on. Anything at all desirable in the way of stockers or feeders could safely be quoted steady to strong and active. Common cattle of course were not so brisk but still even those soid at good steady prices. Representative sales:
