WORKMEN SETTLE THEIR DIFFERENCES

Mrs. Lena Little Brought to the Penitentiary to Commence Serving Life Sentence for Killing Husband.

(From a Staff Correspondent.) LINCOLN, Jan. 10.-(Special.)-A letter mailed today by Governor Mickey to Annie Cotton of Silver Creek, Neb., will tear down an air castle that has recently been erected in that community, with the family of Frank Parker as the foundation. Annie Cotton got the idea somewhere and velt on race suicide, had offered a reward of \$1,000 to any parents who numbered among their offspring eight children under the age of 18 years. When she got full possession of the idea Annie Cotton looked up the Parker family and told them of their good luck. She then wrote to Governor Mickey for authentic information on the subject. In answer, Secretary Allen today wrote that no such reward had been offered, and that this most deserving family would have to subsist without a financial reward from the state, The letter of Annie Cotton fol-

SILVER CREEK, Neb., Jan. 8.—Governor Mickey—Dear Sir; You will think this a funny letter, but we have heard there was a reward offered by the governor of \$1,000 for a family of children of eight under the age of 18. We have a family of eight children in our town under the age of 18 years, and sell living and healthy, and if there is anything to it it would come in good play for them. They are Frank Parker's, Sliver Creek, Neb. I have sent you a list of their names and ages so if there is anything of it I knew you would know, so I have written for them. Will you please let me know? We first heard of it, so they wanted me to write to you. They are all Mickey men. Address

A. O. U. W. Differences Settled. The exclusive announcement in this col umn several weeks ago that the grand lodge A. O. U. W. had settled its differences with the superior lodge was confirmed today in a statement made by the grand officers. The differences at one time threatened the withdrawal of the Nebraska lodge from the superior body, but at a meeting held here some weeks ago between the officers of the two lodges the matter was satisfactorily adjusted. The Ne braska lodge objected to paying the per capita tax demanded by the superior lodge and its contention was granted by the superior lodge. Inasmuch as some papers have, during the last few days printed sensational stories concerning the affair and announcing it was not settled, this statement was signed and issued by the

Mrs. Lillie in Penitentiary. Mrs. Lens M. Lillie of David City, convicted of the murder of her husband to secure his life insurance, it was charged, was brought to Lincoln today to enter on a life term at the penitentiary. The Lillie family was one of the most promiment at David City, and the trial of Mrs Lillie, consuming several weeks, furnished many sensations. The evidence on which she was convicted was circumstantial, her story being that her husband was shot by a burgiar as he lay sleeping.

CATARRH OF THE STOMACH

A Pleasant, Simple, but Safe and Effectual Cure for It.

Catarrh of the stomach has long beer considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of games, causing pressure on the heart and lungs and difficult breathing. headaches, fickle appetite, hervousness

and a general played out, languid feeling There is often a foul taste in the mouth coated tongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucuous surfaces of the stentach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have loved. disappeared.

According to Dr. Harlanson, the safest and best treatment is to use after each meal a tablet, composed of Diastase, Ameptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow

their regular use after meals. Mr. R. S. Workman, Chicago, Ill., writes "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, this producing catarch of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest ofgmen after using only one box of Stuart's Dyspepsia Tablets I cannot find appropriate words to express my good feeling. I have found flesh, appe-

tite and sound rest from their use." Stuaft's Dyspepsia Tablets in the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heart burn and bloating

IDENTITY OF DEAD MAN A MYSTERY Efforts to Locate His Companion Unsuccessful.

FREMONT, Neb., Jan. 10.- (Special.)-There have been no developments today of any importance in regard to the Ames case. The identity of the man found dead there last Friday is still undisclosed. This morning several funk dealers from Omaha came up here and saw the body, but all said it was no one they ever saw before. Efforts are being made to locate the man seen with the dead man by Simon Bordy and Nathan Benson west of Ames the day of the occurrence, but without success. This section of the country is pretty well covered by junk peddlers living here and in Omaha, and It is thought that some of them are likely to come across the smooth-faced young man about 24 years old, dark complexioned and medium height, who it is believed can throw more light on the mystery than anyone else, and any junk dealer answering that description, driving a bay horse to an ordinary junk wagon, is likely to have an opportunity, if a stranger, to give an explanation. Both Eliks and Benson are very positive in their identity of the body at the indertakers as that of the older of the two men they saw together. Bordy is out in the country gathering junk and may not be here for several days.

A perplexing feature of the case is the finding by the undertaker of straw chaff on his underclothing and on his pants, coat and even inside of his mittens. There was no chaff about the place where the bullet entered or passed out of his head. It looks very much as though the man met his death at the place where his body was found. If the shot was fired while a train was passing it might not have been heard by persons in the depot, though that building is not more than thirty or forty feet away. The passageway where the body was found runs east and west and the door opening into it faces the south, so that it is possible that he was shot by a man who was laying for him in the passageway and The facts which indicate suicide are that a revolver with one shot fired from it was in his hand and that there was nothing about him to show his identity. The question whether he was murdered or took his own life cannot be definitely decided until the young man driving the bay horse to a junk wagon is found.

The Jewish people of this city are much interested in the case and this morning notified Undertaker Dengler that their organization wanted to take charge of the remains and give him a burial according to their rites in case he was not claimed by his friends.

Beatrice Y. M. C. A. Report. BEATRICE, Neb., Jan. 10,-(Special.)-The annual meeting of the Young Men's Christian association was held last evening in the Methodist Episcopal church for the hearing of reports and filling vacancies in office. ' Dr. McCleery, chairman of the building committee, stated that everything was now in shape to begin building operations with the opening of spring, and the arrangements are such that the plant is to be self-sustaining. The treasurer, J. H. Von Steen, reported the total cash received to be \$11,506.74, of which \$10,200 was received on pledges. Uncollected pledges amount to \$2,300. The association holds deeds to property, aside from the association building given by William Wolfe, amounting to \$600 and notes amounting to \$450. The total amount of cash on hand is \$4,268.74. In the five directors serving three years there were two vacancies, C. S. Black and Henry Fishbach resigning. Harry Sackett and Maynard Spink were elected to these vacancies. The utmost good feeling prevailed at the meeting. The pastors of the different churches were present and addressed the meeting, all expressing themselves as greatly pleased with the outlook for the success of the Young Men's Chris-

PAWNER CITY, Neb., Jan. 10.-(Special. -News has reached here that scarlet fever is raging in Summerfield, a town of about son population, just across the Kansas line, eighteen miles southwest of here. It is said that seventeen families were quarantined last Saturday and on Sunday. Dr. John Matchett, one of the local practicing physicians, died from the fever, having been ill a few days. The disease is not confined o the town, but is generally prevalent in the country for two or three miles around Summerfield. A rigid quarantine has been established by the county physician of Marshall county, Kansas, who resides, at Marysville, and who was soon on the ground when he learned of the work of the disease. It seems that the knowledge of the existence of several cases had recently been suppressed and thus the disease has become generally spread.

Last Thursday the Board of County Com missioners met and established a county board of health. On account of the prevalence of contagious diseases in this vicinity for some time the commissioners decided it was necessary to provide a system for stamping out the peats. The Board of Health as established conflists of a registered physician practicing in the county, as chairman; the county clerk as secretary, and the three commissioners. Dr. A. B. Anderson was appointed as chairman, and a meeting was held, at which a set of rules and regulations governing quarantine, etc., was presented and adopted. EXTRA SESSION COMING SOON

President Insists that Prempt Action Be Taken on Tariff Revisies.

ASKS COMMITTEE TO PREPARE A BILL

He Will Call a Special Meeting of Congress as Soon as It is Rendy-Time Has Come for Examination of Schedules.

WASHINGTON, Jan. 10.-President Roosevelt favors the earliest possible action looking to a revision by congress of the tariff. He so informed the scnators and representatives who were in conference with him at the White House last Saturday and he has made plain his position to others since that conference. He will call the Fifty-ninth congress into extraordinary session as soon as the committees have indicated that they are prepared to submit a tarfff measure for passage. One of those present at the conference on Saturday said today, in view of the many conflicting stories published regarding the meeting, that the president informed them that while he did not believe in any sweep ng-revision of the tariff, and would abide absolutely by the judgment of the two louses of congress in a matter that re lated so particularly to them, yet he did think the time had come when the schedules should be theroughly examined and there should be a readjustment as to certain of them. The president added that his own view was that the special session should take place at the earliest date as which the committees of the two houses could come to an agreement as to a bill. If they took this view, he said, he would himself be ready to call the extraordinary ses sion at whatever time the members of the two committees and especially the house committee on ways and means, should inform him they would be ready with their report. If congress should act on the tarift mestion in accordance with the president's desire it was made perfectly plain today

House Investigates Political Work. The house committee on reform in the project in Washington. civil service today authorized a favorable report on the resolution introduced by Representative Hearst, calling on the president for "all reports, documents, papers and orders showing the executive action relating to political activity by letter carriers mentioned in his last annual message and the grounds therefor;" also directing the house all facts bearing upon the dismissal of James C. Keller, Frank Cunningham, Warren Tumber and H. W. Aldrich and the grounds for said dismissal.

Mr. Hearst was heard by the committee He thought the president's executive order prohibiting political activity was, "arbi trary and restrictive." It abridges not only the conduct of carriers, but also the conduct of members of congress. Personally, he liked to talk with the carriers from his district and in his opinion the successful congressman was the one who met their demands properly.

He called attention to that portion of the president's message referring to labor unions, conceding the right to organize, but stating that "individual rights must be protected." Mr. Hearst believed a desire on the part of a letter carrier for an increase in salary was an individual right and ought to be protected.
