Asks Damages from Central American Republic and Charges it with Infringing Upon Territory of Pasama.

MOBILE, Ala., Jan. 14-The American Banana company, through H. L. McConnell of Mobile, has asked the State department at Washington to intervene in its Forward.G. Williard, Capt. J. Clarke behalf on account of alleged interference by the Costa Rican government with the fruit company's planting, railroad building and other operations in the territory now belonging to Panama, but at one time under the jurisdiction of Costa Rica, and has asked for damages in the sum of \$2,210,000. The matter is now before the State department in Washington. The trouble dates back to the summer of 1905,

when the Costa Rican government, it is alleged, slightly interfered with the surveying of the company's railroad route. but when the United States government at that time instructed its minister to Costa Rica to use his good offices to prevent any further interference, Costa Rica, t is understood, having denied interference and disclaimed right of jurisdiction. subject to the rendering of the Loubet award on September 11, 1900. in recent years, research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Suphide) and sold in drug sloves under the name of Suart's Calcium Wafers. They are small chocolate coated pellots and contain the active medicinal principle of sulphur in a highly concentrated, effective form.

Few people are aware of the value of this form of suphur in restoring and maintaining bodly vigor and health; sulphur acts directly on the liver, and excretory organs and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they dosed us with sulphur and molasurs every spring and fall, but the crudity and impurity of ordinary flowers of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparation of sulphur of which Stuart's Calcium Wafers is undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles and cure constipution and purify the blood in a way that often corprises patient and physician alike.

Dr. R. M. Wlikins while experimenting with sulphur remedies soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when r sulting from constipation or malaria, have been surprised at the results obtained from Stuart's Calcium Wafers. In patients suffering from boils and pimples and even deep-seated carbuncies, I havs repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafers is a proprietary article, and sold by druggists, and for that reason taboosd by many physicians, yet I know of nothing so safe and reliable for constipation, liver and kidney troubles and especially in all forms of skin divesses as this remedy."

At any rate people who are tired of pills, cathartics and so-called blood "purifiers." alli find Stuart's Caloium Wafers, a far mater, more palatable and effective preparation.

CATARRH Gentlemen :-- I wrote you some time I contracted Catarrh and suffered terago, giving you an account of my suffer-ings with an awful case of Catarrh. I that I had lost my hearing, sense of taste, had all the symptoms that accompany as well as being nearly blind. I tried varithis disease, such as mucus dropping in ous medicines and specialists, spending a the throat, a constant desire to hawk large sum of money with them, but with and spit, feeling of dryness in the throat, no perceptible results, so I abandoned all cougii and spitting upon rising in the other remedies and doctors and began

morning, scabs, forming in the nose, which required much ef-fort to blow out; sometimes causing the nose to bleed and bottle, when much to my joy I found myself a well man. All leaving me with a sick headacht. I had thus suffered for five my senses were fully recovered, and after fifteen years I am President Roosevelt to take part in another conference at The Hague in the interest o As soon as I heard from you, I commenced to take happy to relate that I have never had the slightest return of peace.' > If winter is to be dreaded for its snows, icy, cutting winds and damp, unpleasant weather, it is more to be dreaded because it brings with it the most annoying and disgusting of diseases-Catarrh. The changed condition of the weather brings on "bad colds" which irritate the inner skin and tissues, and they secrete an unhealthy matter that is absorbed by the blood and scattered all through the system in its circulation, and at the first sign of winter the patient begins to "hawk and spit." All the mncous membranes and tissues of the body are affected by this disease, and the filthy, poisonous matter finds its way to every part of the body, making the sufferer dull and half sick all the time. The head and eyes have blinding aches, the stomach bloats, the hearing is often affected, and
