Old Town Buildings Badly Smashed by Shells, but Damage to New Town Said to Be Slight.

HEADQUARTERS THIRTY MILES FROM PORT ARTHUR. The Japanese army, which entered the city yesterday, is now in the public square. The army was composed of one regiment from each brigade.

The procession, which was five miles long, was held in the afternoon. The old town buildings were badly smashed by shells, but in the new town the damage was slight.

Proposals for the surrender of Port Arthur were first made December 23 at a council of war. General Stoessel was in favor of surrender, but some of his general officers were bitterly opposed to it.

The first news they had of the surrender was January 1, after General Stoessel had communicated with the Japanese.

The scenes following the surrender were disgraceful. Russian soldiers filled the streets and refused to obey their officers.

Memorial services were held today in honor of the spirits of the Japanese dead upon the plain north of the village of Shushi, a short distance from Port Arthur.

Fate of Martin Measure Depends on Working of Kinkaid Bill.

Senator Gamble Seeks to Ascertain the Amount Due the Sioux for Land Taken by the Government.

(From a Staff Correspondent.) WASHINGTON, Jan. 16.—(Special Telegram.)—The successful working out of the so-called Kinkaid bill giving homesteaders 60 acres of land in the west section of Nebraska will be a factor with the house committee on public lands in determining whether the Martin bill, now before it, giving 80 acres in a large section of South Dakota, should be passed today.

Senator Gamble has been having hearings on this measure, as well as similar ones introduced for Montana and Colorado. Senators Gamble and Kittredge and Congressman Burke of the South Dakota delegation were before the committee today.

Gibson, also were placed under bond charged with violation of the election laws in issuing illegal national certificates in connection with the indictment against Judge Gibson the grand jury made a special report requesting that the matter be referred to the federal authorities.

Chicago grainmen who are trying to secure more favorable rates from eastern roads in the hope of recovering a fair share of the export trade have received another blow. They learned today that the Missouri Pacific had put in another so-called "midnight tariff" from Omaha to Chicago on 1,400 cars at 12 cents per 100 pounds.

As the export rate from Chicago to the Atlantic ports is 15 cents, the impossibility of drawing any corn from the west through Chicago is apparent.

A few days ago at a meeting of representatives of the grain-carrying roads the Missouri Pacific representative stated that although that road had put in "midnight tariffs" on 1,000,000 bushels of grain to the gulf at a reduced rate it would not do so again. Now, however, the information comes from Washington that the Missouri Pacific had violated that promise, and has filed tariffs on special 500s to the amount of over 1,500,000 bushels in addition to the original 1,000,000 bushels.

MRS. DUKE LEAVES NEW YORK. Warrant for Her Arrest is on Its Way from Texas—Will Resist Extradition.

NEW YORK, Jan. 16.—After Mrs. Duke had suddenly disappeared to Union Square hotel in this city today, a woman, who said she was Mrs. Duke, called that hotel by telephone and notified the management that she had left New York city. SCORES OF MINERS ENTOMBED. Fire in Coal Mine at Decatur, Ill., May Result in Many Deaths—Two Bodies Recovered.

DECATUR, Ill., Jan. 16.—Emil Knorr, Augustus Kasuech and Charles Leachinsky, miners, are known to be dead and a score or more of other miners are entombed by fire and smoke in a 500-foot coal mine. Rescuing parties have gone into the mine, but have been unable to do anything on account of the dense smoke. The fire broke out this afternoon in the mule stable. Firemen were called and they took a line of hose down the shaft 500 feet, but were unable to stop the flames. The mine was an escapement shaft and to this most of the miners hastened. More than a score were cut off by the flames and held prisoners. They may be dead. Big crowds surrounded the mouth of the shaft amid intense excitement, but the on-lookers were helpless to aid the miners.

STRAUGLES FOR THE TOGAS

Past Campaigns in Nebraska for Position of United States Senator.

ELECTIONS FROM THAYER'S TIME TILL NOW

Some Exciting Contests that Have Marked the Political History of the Antelope State Are Now Recalled.

(From a Staff Correspondent.) LINCOLN, Neb., Jan. 16.—(Special.)—The two houses of the legislature will tomorrow ballot separately for United States senator and in joint session Wednesday the result will be announced and the choice of a successor to Senator Dietrich proclaimed.

The present senatorial contest, if it can be called a contest, is in many respects peculiar in the history of Nebraska politics. Nebraska has gone through senatorial elections at regular intervals since its admission into the union and in most cases the competition has produced an interesting and exciting struggle.

A great part of the story is an old-timer's tale, a review of these senatorial fights of the past in connection with the senatorial election of today will recall some memorable events in our political history.

The first senatorial battle in Nebraska occurred in 1857, while the capital was still at Omaha. The principal competitors were: Alvin Saunders, who had been territorial governor for six years; Algernon S. Paddock, territorial secretary; General John M. Thayer and Chaplain Thomas W. Tipton. The contest was a sharp and decisive. Thayer and Tipton were chosen. They drew straws for their respective terms, Thayer securing the longer, four-year term, and Tipton the short or two-year term.

First Sharp Contest. At the end of the term in 1861 Mr. Tipton was re-elected for full term of six years after a most exciting canvass. His chief competitor, David Butler, then governor, came within two votes of carrying the caucus nomination.

FIRE IN PACKING PLANT

Storage House of Schwarzhild & Sulzberger Burning—Firemen Overcome by Fumes.

CHICAGO, Jan. 16.—Despite the United efforts of the greater portion of the fire department of Chicago, the fire which broke out last night in the storage department of the Schwarzhild & Sulzberger company's packing plant at the stock yards is still burning tonight. During the day thirty-three firemen and helpers were overcome by smoke, heat and ammonia gas. All of the men were rescued, however, and none will die from the effects of the gas. The loss to the packing company on the building and beef stored in the place, which has been damaged by smoke, is estimated at \$200,000.

Although smoke continues to pour out of the burning building in clouds, no sign of a blaze has been seen by the firemen since the first alarm Sunday night. Since that time firemen from forty companies have been called to assist in subduing the fire.

Chief Fire Marshal Clampton declared tonight that the fire was the worst he has ever tried to subdue, because of the difficulty in finding the blaze. There are no windows giving access to the burning building, which is packed tight between the walls of the building to afford a frigid atmosphere for the storage rooms. The firemen worked on the walls all day, opening holes, but in each instance where they were made, the firemen were compelled to run for their lives on account of the rush of smoke and gas which poured out of the opening. Thirty companies of firemen worked incessantly, trying to get leads of hose into the sawdust which filled the compartments between the walls to prevent the flames from reaching the great, soaked floors in the other parts of the building. Very little progress was made, however, and tonight Chief Clampton said that he could not tell when the fire would be stopped, but that it present it seemed that it would continue several days.

At midnight tonight, thirty-two hours after the fire had been discovered, the firemen caught the first glimpse of the flames that they have been fighting so long. The fire, as yet beyond control, filled the interior of the structure, and the adjacent building, the fire refinery, separated by a supposedly fireproof wall, is in immediate danger. As soon as the flames were discovered extra engines were hurried to the scene, and at 11 o'clock a secret ballot took place to elect the first ballot, in which event members pledged to him will feel free to cast their votes for another candidate. Up to the arrival of General Cowin, who in another senatorial contest came within a hair's breadth of winning the toga, "another" candidate was not in sight. But General Cowin denies being a candidate or even a dark horse. Mingling among the legislators in the hotel lobbies tonight, the distinguished Omaha lawyer would laugh if asked the question. Then the story goes that if the South Platte county really could not stand for a North Platte man, Senator and former Speaker Mockett of Lancaster might be thrown in the breach. Whether or not the proposition is subject of some discussion, inasmuch as both Wilson and McClay were aligned with the Rouse-Wilson-Perry sponsorship combine as against Douglas, the candidate supported by the champions of Mr. Burkett, and he, McClay, was one of the active members in presenting the resolution demanding that Mr. Burkett announce himself on the president's railroad policy before receiving the toga.

Burkett Willing to Talk. Mr. Burkett having withheld himself from reporters Monday, and making all attempts at interviews, today met a party of correspondents and in response to a question as to whether he would accept the invitation of the house to address it on the railroad proposition, said he did not know the house had extended him any such invitation and later told a reporter he would address the house if it invited him. A resolution was then quietly drawn up and was to have been introduced in the house this afternoon, again inviting Mr. Burkett to make this address, but it finally was dropped. The telegram to which Mr. Burkett responded from Washington contained the invitation.

Sunday night there were rumors of a caucus of the republicans this morning on the senatorial matter, but morning and afternoon have passed and evening is here and still no caucus nor prospects of one. Burkett's advisers have been busy today. They said at the very outset his friends would not listen to a caucus; would not enter one and, in fact, would not have to, and it looked as if they were right.

Mr. Burkett and his friends profess absolute confidence that the majority of the legislature will carry out the program for his election without a hitch.

Fight for Burkett's Finace. Incidental to the Burkett senatorial campaign is developed and being developed a most complicated and interesting fight for his congressional seat. At least eighteen candidates already are in the field for the nomination and more are liable to enter. Although the election will not be held for several months, unless there should happen to be an extra session of congress, the old First District battle grounds, the arena of so many notable political conflicts, looms up with more animation than for some time. The various candidates are busy already.
