

AFFAIRS AT SOUTH OMAHA

Charter Revision Committee Busy Looking Up Sewer Data.

COST OF COMPLETE SYSTEM ESTIMATED

Proposition to Allow \$250,000 Bonds to Construct Plant Without Submitting Question Gets Much Favorable Consideration.

The recently appointed charter revision committee is busy looking up sewer data. What is wanted is facts and figures pertaining to sewers in the city outside of district sewers. These district sewers are or have been paid for by property owners and are not considered as all. What is wanted by the committee is to ascertain the number of feet of sewers constructed by the city and the cost paid by the voting of bonds. While this committee is working on records in the city clerk's office (Roy Tow), an assistant of Engineer Andrew Rosewater, is working on data in the room provided for the purpose. It is estimated that at least \$250,000 will be needed to construct a complete sewer system in South Omaha. The plan now is to have the legislature pass a bill permitting the mayor and council to issue bonds to this amount, without going through the formality of putting the proposition to the people to vote on. Just what a complete sewer system will cost has not been determined and will not be known for several days. It is understood that the bill introduced by Senator Gilson for \$250,000 sewer bonds can be amended after the estimate made by Engineer Rosewater is made known. As soon as the estimate is made public a committee will go from here to Lincoln to advocate the passing of the measure.

Testing Ground for Foundations. A number of tests of the ground where the new grain elevator is to be constructed here have been made. While the ground is solid it was stated yesterday that piles would be driven in order to secure a foundation that would stand the weight. Thirty-four piles will be driven and then a bed of concrete is to be laid. On top of this the elevator will be constructed. The engineers in charge of the work stated yesterday that the contract for excavating will soon be let. There is little excavating to be done and this work can soon be finished. When completed the grain elevator will be 18 feet high and will have a capacity of over 1,000,000 bushels of grain. It is the intention of the Uplike company to push the construction as rapidly as possible in order that the elevator may be completed not later than June 1.

This big elevator is being built on trackage about 1,500 feet north of the L street viaduct.

Retail Merchants' Association.

A meeting of the Retail Merchants' association directors was held Monday night at Eagles' hall. It was decided that the association will give a banquet to business men at Eagles' hall on the night of February 13. All business men will be invited to this banquet. The price per plate is to be 50 cents. A number of applications for membership have been received and will be acted on at the regular monthly meeting of the association. While the directors meet every week there is only one regular meeting of the association each month. All applications for membership are looked over by the directors and are submitted to the association monthly. An effort is to be made to induce every business man in the city to join the association and assist in boosting South Omaha. John Flynn, one of the prominent business men of the city, said yesterday that it was time for everyone to lay aside his hammer and get into the booster's wagon.

Workmen Install Officers.

Lodge No. 66, Ancient Order of United Workmen, installed officers at the temple, Twenty-fifth and M streets, last night. Grand Master Workman Jacob Jaskielek installed the following officers: A. L. Sutton, master workman; Dr. Faulk, foreman; J. J. O'Neil, overseer; C. M. Rich, financier; C. W. Miller, receiver; J. W. Jordan, recorder; E. W. Bennett, judge. After the installation a banquet was served. This lodge of Workmen is the largest in the state, having at the present time something like 850 members.

Magie City Gossip.

Councilman Frank Dvorak is spending a few days with his family at Minneapolis. A daughter has been born to Mr. and Mrs. James Steward, Twenty-sixth and F streets. James A. Heath is able to be out again after going through another twinge of rheumatism. Fred Graham, who has been quite sick, was reported to be considerably improved last night. It is reported that tickets for the hospital charity ball to be given at the exchange on January 26 are selling rapidly. The street cars were blocked for a time yesterday afternoon, owing to the derailment of a big car at Twenty-fourth and Q streets.

Evangelist Karl Klaus will conduct a mission at the German Methodist Episcopal church, Twenty-fifth and K streets, commencing January 22.

18-K Wedding Rings, Edholm, Jeweler.

PLAN FOR SPRING CONCERT

Ben Stanley Already at Work For His Chorus to Co-operate with Innes' Band.

Arrangements are already under way for the concert to be given in the Auditorium the first week in April. Ben Stanley said last evening that it is the intention to furnish a chorus of 300 voices to assist in the concert. The work to be presented depends upon the conclusions to be reached by Mr. Innes and Mr. Stanley. It is understood that an oratorio and a selection from Wagner's "Parsifal" will be given and the band will present "War and Peace," one of Mr. Innes' own compositions, as a feature of the program during some night of the engagement. The chorus will probably be
