CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Jan. 17.—Increased shipments from Argentina had a debilitating effect on efforts to advance the price of wheat here today. At the close wheat for May delivery was off indic. Oats are up in the corn and provisions are practically unchanged.

The eastern holders of the May seem content to any of the market and for they are unable to support it. Chicago, is relatively the highest market and for that reason it has been difficult to keep the print of the market and for they are unable to support it. Chicago is relatively the highest market and for that reason it has been difficult to keep the print of their wheat in those markets and holding of for some days in Minneapolis and in St. Louis, and it is thought as likely in some opariters this was not by local longs and in the three threats in those markets and holding Chicago steady. The position seemed would be morning the print reached in the print of their wheat in those markets and holding Chicago steady. The position seemed would have been been been seen to don'day. The high point was \$1.15%, Seviet and the print reached \$1.35, but did not go below the seems of the seems of the capendary of the seems of the seems of the capendary of the seems of the seems of the capendary of the seems of the

NEW YORK STOCKS AND BONDS

Features of Strength in the Market Are Varied by Soft Spots.

SLUMPAGE IN VOLUME OF THE DEALINGS

Omaka Placed on a Seven Per Cent Dividend Basis and Advance Mineteen rounts-market

. Weak and Lower. NEW YORK, Jan. 17.—There were features of strength in today's stock market, but they were varied by soft spots here and there. On the whole the market showed the effect of the large distribution

there of strength in today's stock market, but they were varied by soft possible here and there. Or the list market showed the offect of the large distribution of speculative holdings which was effected on the correct the opening budged the week vesterating and irregular tone which was developed. The seeming culmination of the rise in Union Pacific was of a sentimental effect on the whole list, but showed clearly the want of the stimulating influence which the stock has exercised for several daws past. The serving of formal notice of the intention of the contesting interests to apply for a writ of certorari to review the opinion in favor of the Northern Securities company was understood to have the power of a stay on any distribution of the assets of that company pending the final decision of the United States supreme court. This served as a discouragement to the rumors which have been industriously circulated, that a compronise, a prompt distribution of Northern Securities assets and the comprehensive readjustment of railroad relations on the whole transcontinental field would be announced at an early date.

Union Pacific rose steady over last night's level several times, but it was constantly affected by the feeling of the demand in the efforts to realize. The weakness of Amalgamated Copper also had a sentimental influence, the more so as the price of the metal was further advanced and reports continued persistent of an intended increase in the dividend rate. Dividend basis caused a rapid rise of 9 points in that stock and removed the hopes of increased disbursements on some other issues, Kansasa & Texas preferred, Chesapeske & Ohio and American Smelling were manifestly affected by such hapes.

Reading was easily the center of interest in the market and there was no specific as an instrument for that purpose.

The outside market held fits recent large share of attention today, although actively shifted from Northern Securities, which was too late to get through its preliminary stage in the outside market and

stage in the outside market and make its entry on the stock exchange itself. A violent break in the new United States Shipbuilding stocks also brought into renewed notice an oll episode in the autside market. Nothing developed to explain either movement. Prices on the stock exchange faded away in the latter part of the day and the closing was weak and generally

and the closing was weak and generally slightly below last night's level.

Bonds were steady on a good demand.

Total sales, par value, \$5,115,000. United States bonds were all unchanged on call.

Foreign Financial.

LONDON, Jan, 17.—Rates for money were tolerably easy in the market today. Trading on the Stock exchange was quiet, but the tone was undecided, prices naving a sagging disposition, though the offerings were light. Consols were dull, which had a depressing influence on other securities, Home rails were irregular. Undergrounds were favorable, owing to the dividend and general interest in the new electrical arrangement. Americans recovered from the opening duliness. Philadelphia & Reading, New York, Ontario & Western, Missouri Pacific and Union Pacific were the predominant stocks. Prices generally closed steady, but Southern Pacific was buoyant, closing at 68%. Grand Trunk was easy, bidders selling in anticipation of poor traffic returns. Internationals were in good demand, Japanese were dull, Imperial Japanese government és of 1961 were quoted at 1844. Kaffirs drooped on continued liquidation and unconfirmed rumors of trouble with Chinese laborers.

BERLIN, Jan. 17.—The tone on the Bourse today generally was firm, the coal strike not making a deep impression on the trading, owing to the bellef that the difficulty would be settled.

PARIS, Jan. 17.—Prices on the Bourse today were irregular and at the close the market was indecisive. Russian imperial 4s were quoted at 29 and Russian bonds of 1961 at 98.

Statement of Bank of Germany. Foreign Financial.

Statement of Bank of Germany. BERLIN, Jan. 17.—The weekly statement of the Imperial Bank of Germany shows the following changes: Cash in band increased 47.207.00m, treasury notes increased 2.100.000m, other securities decreased 62.820.— 9114 2.160,000m, other securities decreased 62.620, 000m and notes in circulation decreased 18212 35

eral American representatives were keen bidders for cross-breds, which they secured bidders for cross-breds, which they secured at 5 per cent advance, and also several lots of good merinos. The selection was small, only 6.894 bales being offered. Home and continental buyers reduced the sales. New Zealand new clip and good slipes were in demand and were taken by home buyers at prices in sullers favor. A moderate supply of Cape of Good Hope and Natial went to home buyers at at 5 per cent advance, and also several solid lots of good merinos. The selection was small, only 6.894 bales being offered. Home and continental buyers reduced the sales. Selection was selected and continental buyers reduced the sales. Selected and continental buyers reduced the sales. Selected and continental buyers reduced the sales. Selected and continental buyers reduced the sales were in demand and were taken by home buyers at prices in sellers favor. A moder-selected at selected and selected and selected at such anged to 5 per cent dearer. Ill's leucos Ayres wool sold well at an advance of 5 per cent. Following are the selected and selected at selected and selected and selected at selected and selected a

of cattle here this morning and for a Tuesday receipts at other points were also fairly large. The demand, though, seemed to be in good shape, so that prices showed very little change from yesterday on the desirable grades. Trading was not particularly brisk, but still the cattle kept moving toward the scales and the bulk was disposed of at a reasonably early hour. moving toward the scales and the bulk was disposed of at a reasonably early hour.

Anything desirable in the way of beef ateers sold right around steady prices. Packers, though, were inclined to be a little bearish and in some cases cattle had to sell a shade easier, but as a rule the kinds that suited packers brought right around steady prices. As high as \$5.25 was paid for a big string of pretty good cattle. Warmed up and common cattle were reglected, more or less, but still the prices paid did not show much change from yesterday.

The demand for the better grades of cows and helfers was brisk this morning and a little stronger prices were paid. In fact, some sales were as much as a dime higher. Owing to the liberal demand for such kinds, the more desirable grades were soon disposed of. The common to medium cattle were not as active as the better grades, but they sold at generally steady prices without much trouble.

Bulls, veal calves and stags also sold in just about the same notches they did yesterday.

The demand for stockers and feeders

yesterday.

The demand for stockers and feeders The demand for stockers and feeders was just about equal to the supply, and in case of desirable heavy cattle it was a little in excess of offerings. The market on light and medium cattle could be quoted steady, with choice heavies strong. Representative sales:

HEEF STEERS.

> STOCKERS AND FEEDERS.

HEIFERS.

BULLS

800 T 25

HOGS-There were about 10.800 hogs on sale here this morning, which is the heaviest run so far this year. All other murkets were quoted about 50 lower, and as a result the tendency of prices was downward at this point. The break here, however, only amounted to about 25c to 5c the greatest decline being on the lighter weights. Trading was not very active, but still the hogs changed hands at a

fairly good rate and the bulk was disposed fairly good rate and the bulk was disposed of at a reasonably early hour. Light weights sold largely from \$4.5 down, medium weights around \$4.47\$ and \$4.50, and prime heavies from \$4.50 to \$4.65.

Trains kept arriving all the morning and at noon there were atili some coming in. There was 10 much change in the market before noon, but the same as usual the feeling on the extreme close was a trifle weak. The market today does not show the full decline, owing to the fact that there were not nearly as many light weights on sale as there were yesterday. Representative sales:
