The bill against green trading stamps seeks by an ingenious method to accomplish its purpose, which is nothing more nor less than to abolish this business. Instead of trying to prohibit this system the bill provides that all green trading stamps shall be made redeemable in cash as well as goods, goods now being the only means of redemption, and further that instead of waiting until he or she has a certain number or amount of green trading stamps, the nurchaser shall be at liberty to turn in what he or she has at any time and demand their redemption. Furthermore, the bill provides that each stamp shall have an actual cash value and that this cash value shall be printed on the face of the stamps and designated from the stock value which is now indicated on the face of the stamp.

#### Trainmen and Managers Find Common Ground Without Sacrifice of Principles.

PHILADELPHIA, Jan. 21 .- It is now re garded as certain that there will be no strike of the trainmen of the Pennsylvania railroad on the lines east of Pittsburg and Erie.

Negotiations looking to a peaceful settlement of the differences between the company and the men have not yet been concluded, but after a conference of three hours today both sides expressed confidence in an ultimate amicable adjustment.

The way to an agreement was opened late today, when General Manager Atterbury of the Pennsylvania and the representatives of the brotherhood admitted that conces

sions could be made by both sides without interfering seriously with the principles for which both the company and the men have been holding out.

There appeared to be some disappoint ment among the conferees tecause the matter was not finally settled at today's conference, but all of the trainmen seemed satisfied that the meeting on Monday will result in conclusive action. The sentiment of the trainmen was expressed after the meeting today by Vice Grand Master W. G. Lee, who said:

It looks like a peaceful settlement. I think the matter will be cleared up next Monday. I hope so, at least. At the conclusion of the conference Gen-

eral Manager Atterbury and Grand Master Morrissey issued the following brief statement:

The conference yesterday was continued in the same friendly and amicable spirit and concessions were granted on both sides. In order to settle some matters still under discussion the meeting has been adjourned until Monday. Although the Brotherhood of Trainme has expressed repeated opposition to brakemen acting as firemen, it is understood that they will not seriously oppose this practice providing the front brakemen discharged by the company are reinstated.

Senator Knox took up the query here 'Do you say this would be an extenuating circumstance in all cases of a polygamist, or only in cases before the manifesto?" "Only before the manifesto. For a man to marry a wife in that way since the

manifesto would be polygamy." Mr. Smoot said he knew Mr. Brimhall

when he was a trustee of the State Asylum board. He was of the opinion that the first Mrs. Brimhall had two children. Mr.

Taylor read from a blographical sketch to show that Brimhall had six children. The witness was under the impression that Brimhall did not marry his second wife until after his first wife was sent to the asylum, but the biography seemed to dispute the statement. The letter follows: My Dear Father: **C** am outfitting here (in Chihuahua) for a trip across the Slerra Madres to our copper mine at Buhucrachio. I go to Minaco, southwest of here, which is the branch road being extended westward by Stillwell, and then take mules five days to the mines. In order to make time I have four mules and two Indians. Two mules are ridden and packed in the forenoon and the other two in the afternoon, and the In-dians run on foot and keep them moving. These men are not Mexicans, but Tahru-mahri Indians, who are said to be the greatest long distance runners in the world. The mines are northeast of Fuerie about thirty miles, aid on the Fuerie river.
