

For and About the Women Folks

Domestic Life in New England. Mrs. L. H. HARRIS draws a discouraging picture of domestic life in New England in the New York Independent. She accuses the idea that New England bred a race of women who prefer single life to marriage, and asserts that the preponderance of spinners is the fault of the men, not the women.

The Belle of New York. Teresa Bryant is the most romantic girl in New York today. Her latest triumph is that of queen of beauty. But it is only one of many.

Leaves from Fashion's Notebook. Handkerchiefs linen exquisitely made, whether it be done by machinery or not. In no other fabric is purple or any of its shades quite as beautiful as in velvet.

What Women Are Doing. Mrs. Amelia Wecker, at one time a famous German actress, has just died in St. Louis, at the age of 81. She spent sixty years of her life on the stage.

Vorwerk, who seems to take the lighter view of the heavier problems, in the course of her remarks at a banquet of the First Methodist church of Cleveland, O., proposed the question whether Adam would have parted with his rib willingly had he been consulted and had he understood the consequences.

Why, of course not, comments the Chicago Inter Ocean. "It is hardly worth while at this late date to enter upon an inquiry into what Adam might possibly have done had he been consulted in advance about the removal of his rib.

Editor, lawyer, teacher, orator, compositor and sociologist are a few of the titles Mrs. Eva McDonald Valesh of Washington, D. C., has earned by twelve years of application, study and hard work.

But all this is neither here nor there. He was not consulted. He awoke from his deep sleep to find a lovely creature by his side, one who was willing to share his sorrows and his joys, to stick to him through evil as well as good report, and there is nothing on record to show that he ever regretted the delightful acquisition.

She is well known through the United States as a writer on labor questions, being a contributor to a number of labor journals and other publications interested in questions of economics. She has been active in the labor field for nearly twelve years, ever since she has been out of school.
