are boarded up and at midnight the streets, as on Monday, are completely deserted except for troops.

During the day there was a great crop of sensational rumors, including stories of strikers marching on Koptino to seize the small arms factory there and of the assassination of General Fokan, the chief of police of St. Petersburg, all of which, on investigation, have turned out to be false.

It is not known definitely whether Father Gopon, the leader of the workmen, is in Moscow or in St. Petersburg. A proclamation said to have emanated from him has been distributed indicating that he has gone over body and soul to the social democrats.

There is no confirmation of the report that the emperor, empress and children are going to Copenhagen, or on the other hand, that the emperor has decided to appoint a new cabinet of officials, employes and workmen to consider the strikers' demands, notably the question of eight hours' work per day, and to make an investigation of the shooting of the strikers.

All sorts of rumors are circulating in both official circles and among the workmen. A curious report spread among the men last night that the emperor had given in and that three white flags had been displayed over the winter palace, signifying that he had consented to reduce the maximum legal hours of work from eleven to eight.

One proclamation, dated January 22, reads: "Comrades: So long as autocracy exists no improvement in our condition is possible. Therefore, we continue to inscribe on our banners the following demands: The immediate cessation of the war. The summoning of a constitutional assembly by universal and equal suffrage and direct election."

CITY COUNCIL PROCEEDINGS

Ordinance to Change Hours for Closing Saloons in Omaha. BIBULOUS TO HAVE LONGER AT NIGHT. Zimman Offers a Bill to Make the Dry Time from 1 Till 5 Instead of from 12 to 4 as Now.

The time during which a man may legally assume his longings for something stronger than soda water may be extended one hour toward the dawn past midnight, to be renewed again at 5 instead of 4 o'clock. If an ordinance introduced at the city council meeting last night passed, the measure proposes to require saloons to close on Sundays and between the hours of 1 and 5 in the morning on week days, in place of midnight and 4 o'clock, which has been the local law for years past.

Another new ordinance, designed to protect the city from impure ice, was introduced by the health commissioner. It requires that any one of a firm or corporation wishing to "cut, store, harvest or pack away" ice from water in the city or outside, or to store it in Omaha, or to sell or permit it to be sold here, must first apply for a health certificate for a week, and granting the privilege. Application must be made in writing, describing fully the body of water and its location that is to be used.

Paying for Sidewalks. A new question regarding sidewalk construction was raised by a resolution offered by Councilman Hove proposing to limit to after January 1 only the application of another resolution governing the issue of warrants to pay for the sidewalks.

Why Move is Made. "Whether the courts will decide that the streets that have once been brought to grade and enforce the payment of special taxes, or whether it will hold that the entire street must be at grade when the walks are put down, we do not know. We do know that a number of property owners have been brought into question by the validity of the taxes on these grounds. I am aware that in each case the city attorney's office has certified that the streets were brought to grade, but the contractors with the firms that built the walks deny this, saying that they should not have been brought to grade, but were merely raised higher than the grade lines at the time of the walk building."

Russian Paper Creates Sensation. Says Force is Not Powerful Enough to Quench Aspirations. MOSCOW, Jan. 24.—The Liberal paper Russki Vidomokri has created a sensation owing to its comment on the official statement of the St. Petersburg shooting. The paper says: "This official report does not come from the scene of war; the victims have not fallen on the battlefields in the trenches, but in a fight with a foreign foe, but in a bloody conflict between Russian and Russian. Arms and slaughter are only used to put down a peaceful demonstration, but force is not powerful enough to quench the aspirations of the Russian people, ward off the consequences of Sunday's volley and prevent the movement for liberty which a justly organized government coming into a full fruition."
