Chief Justice Fuller Administers Trial Onth to Senators Who Will Sit in Trial of Florida Judge.

WASHINGTON, Jan. 24.-The senate today took an important step in the impeachment trial of United States Judge Charles Swayne of the northern district of Fiorida. The organization for the trial was perfected by the swearing of the senators for that purpose; the managers of the house were received for the purpose of formally presenting the articles of impeachment and a resolution summoning Judge Swayne to appear was adopted. Mr. Platt of Connecticut was elected to preside at the trial sessions. Further proceedings were postponed until Friday next, when Judge Swayne is expected to appear before the bar of the senate. The ceremony was impressive and was witnessed by a full senate and by well filled gaileries. The trial oath was admin-

istered to senators by Chief Justice Fuller. Estimates as to the length of time that the trial will occupy will vary from ten days to a month after it is once begun. It is, however, the purpose of senators to press the matter as rapidly as possible and the present expectation is that the daily sessions will be advanced an hour or two. The senatorial court then adjourned and the senate proceeded with the legislative business. The entire ceremony consumed

only a little more than thirty minutes.

Statehood Bill Discussed. Mr. McCumber spoke in support of his amendment to the statehood bill providing for the admission of each of the four territories as a state. Mr. McCumber and Mr. Beveridge engaged in several spirited controversies as to the qualifications of a territory for statehood. In one of these encounters Mr. McCumber asserted that even Indiana had been taken in "on trust," to which Mr. Beveridge replied that even if able to furnish acceptable collateral.

Seventy-two senators responded to their names, and the last name in the list had scarcely been announced when Chief Justice Fuller appeared at the south door of the senate chamber. He was flanked on the one side by Mr. Fairbanks and on the other by Mr. Bacon. He was clad in full robes of his office.

Various members compared the salaries paid teachers in their sections with those paid the teachers in Washington, and some openly charged that such a plan as proposed by Mr. Foster

would develop favoritism. This led Mr. Clark of Missouri to assert that the debate had demonstrated that the salary \$500 for stationery and incidentals house was not fit to sit as a school board. He paid a glowing tribute to General H. V. Mr. Clark declared that in the city of Washington more money was being paid to policemen to crack people's skulls than New York. Chairman Jenks of the ju was paid the teachers to improve the inside of the skulls. He contended there were no supernumeraries in the district school service and provoked considerable merriment by declaring there were twice as many messengers and pages in the house and three times as many capitol police "as have any business around here." It was, he said, the supernumeraries who ran up the expense account, and he added amid laughter, "you can't get rid of them to save

OGDEN, Utah, Jan. 24.-Southern Pacific passenger train No. 1, known as the Overand Limited, which left here yesterday afternoon, jumped the track at Kodak, fou miles east of Lovelock, Nevada, early today and eight of the ten cars composing the train left the rails. No one was seriously injured, although a number were bruised badly. The train was making good speed when the accident occurred. The cause of the derailment is ascribed to the springing of a switch point, which caused the cars to climb the rails. The derailment occurred on a dirt embankment, The passenger cars plowed into the soft earth and the damage to them was slight. Shortly after the accident wrecking crews were sent out to Kodak from Parks, west of the wreck. It is estimated that it will require about ten hours to clear the track so that trains will be able to pass.

The present value of Western Nebraska Lands for producers and their future value for investors is becoming well known. While their price has perhaps doubled in the past three years, they are considered cheap today by those who have kept posted on land values in America.

There is a deep-rooted contentment among owners of the older Nebraska farms, yet just beyond these valuable holdings, to the West and Northwest, stretches a vast acreage for pasturage, for successful live stock industry, and for crops of small grains. The history of the West shows a consistent and steady westward movement of the line of rain fall, as the cultivation of the prairie is advanced westward.

At this date in 1905, there are many inquiries about these lands; a large proportion of buyers are from central and eastern Nebraska-farmers who have come to understand the value of Nebraska lands in the long run.

If you procure the proper medical advice without delay, you will secure to yourself that health, success and enjoyment of life which is every man's lot whose bright and steady eyes, clear and healthy skin, active brain, congenial make-up and physical development show that no contaminating influences of private diseases are devastating his system. That no mental, moral or physical weakness is depleing his manhood, that no secret drains upon his vitality are robbing him of his substance and making his life a miserable failure. Whatever may be your aliment, get help from the ablest and most experienced specialists. If your eyesight is failing go to a reliable optician or oculist. If your hearing is defective, consult a competent aurist.
