It was noticeable that in many cases the usual priest and ikon ahead of the procession were absent. No demonstration occurred, but workmen and others stood uncovered in the streets as the little groups passed with the dead. In the Volkoff cemetery, be-

## Gorky Under Arrest.

The Associated Fress has been privately advised that Maxim Gorky, the author and reform party leader, has been arrested at Riga, whither he had been summoned by the illness of his wife. necessary. 6:15 p. m .- Quiet continues in St. Petersburg. Evidence accumulates that the strikers are supplied with money to meet their present needs. All sorts of stories are alloat as to the size and origin of the fund. Money is undoubtedly being supplied by the liberals. It is said that they have a fund of \$2,000,000, some claiming it is supplied by German socialists, but there is no way of verifying the stories. It is seriously believed in some quarters that money is being furnished from Japan-British sources to bring on a revolution of such internal complications as will end the war.

## Strikers Becoming Hungry.

Lack of food and money is operating against a continuance of the strike. Weeping women are returning to the cigarette factories pleading to be allowed to resume work, but the managers are afraid to reopen in consequence of threats of the

He urges the strikers not to listen to the promptings of the evil disposed, but to resume work, promising to examine the men's demands and so far as possible to grant them. At the same time the governor warns the strikers that in the event of disturbances in the streets he will take vigorous measures, using armed forces if

## Strike at Riga,

RIGA, Jan. 25.-A general strike is in progress here, in sympathy with the St. Petersburg workmen. The troops in this district have been mobilized and the streets are being patrolled. There have been a few disturbances, in which street lamps were broken, but the disturbers were dispersed by the whips of the police. KISHINEFF, Jan. 25 .- A seditious demon stration during the performance led to a

panic in a theater here last night. A crisis in the hostility toward the government was raised in the crowded auditorium by incendiary proclamations which were showered from the gallery. The audience became panicstricken and considerable time clapsed before order was restored. Twenty arrests were made, including four
