CASH DEMAND BETTER FOR WHEAT

Corn Market Dall and Export Demand Sinck-Little New Business for the Gulf-No. Out Exports.

OMAHA. Jan. 25, 1866.

The speculative wheat market was better ioday than Tuesday and the cash market reflected its strength in a better demand and slightly advanced prices. The May had a strong undertone, but any advance above \$1.1515 was checked by solling. The opening was strong, but little was offered around the quarter. Valentine then jumped in with offers of 10,000 husbel lots and checked any advance. Valentine was the heaviest seller of the May Tuesday, offering such large amounts that he scared the crowd into selling. In St. Louis it was claimed siso he sold there. A broker in Chicago bought 500,000 bushels Tuesday and the crowd is divided in opinion as to whether it was for Armour or Cudahy. The cash market was slightly better everywhere. Chicago sold 20,000 bushels and there was a greater demand outside. Minneapolis reported a good demand with an advance in prices, No. 1 northern selling at 2c under the May and No. 2 northern at 5c under the May and No. 2 northern at 5c under the foreign markets Liverpool closed with an advance of from 14,019c, which was partly due to the news that the Australian surplus for export would not be as large as at first thought. Berlin and Antwerp closed unchanged, Buda-Pest slackened off 7sc, and Paris was weaker to the extent of 10 points.

Nicolet of Kansas City is credited with soying the wheat movement in Kansas is about over for the present. He says one-OMAHA. Jan. 25, 1966.

extent of 10 points.

Nicolet of Kansas City is credited with saying the wheat movement in Kansas is about over for the present. He says one half of the current receipts are from Nebraska and that source of supply is drying up. Minneapolis reports the movement there slackening up and the grain moved out to be at the expense of the country house stocks. The receipts today are much smaller than a week ago, being 20° cars, against 428 cars, but they are still in advance of those for last year, which were 180 cars. Dufuth, on the other hand, drops today to 2 cars from 21 cars last week and 22 cars. But they are still in advance of those for last year, which were 181,000 bushels, against 659,000 bushels for the preceding week, and 567,000 bushels for the preceding week, and 567,000 bushels last year. The shipments are 230,000 bushels last year. The corn market was so dull this morning the corn speculators invaded the wheat pits and indulged in scalping operations. The shipping trade was also limited in extent and demand and the cash market was down about 15 cent. In Liverpool the buyers were inclined to be bearlsh and to hold off for an expected decrease in prices. The cold weather interfers with the country movement and the receipts are showing the effect. Nebraska corne is still going south on former purchases by the guif, but little new business is being done. The primary receipts were 700,000 bushels last year. The shipments were 285,000 bushels against 524,000 bushels last year. The shipments were 285,000 bushels against 524,000 bushels last year. The shipments were 285,000 bushels against 524,000 bushels last year. The shipments were 285,000 bushels last year. The shipments were 285,000 bushels against 624,000 bushels last year.

Year,
There seems to be little out demand for export. One house in Boston has held 150,000 hushels of thirty-five-pound white clipped outs there since last fall without making satisfactory exporting terms.

CATTLE-There was a fairly liberal run of cattle here this morning, but the trains were very slow in arriving, and it was well along toward noon before much business was transacted. There was no great amount of life to the trade when the cattle did arrive, so there was not much opportunity for advancing prices.
