Wheat Markets, Speculative and Cash, Are Stronger.

NORTHWESTERN RECEIPTS FALLING OFF

Corn Speculation Dall, but Sales for Export Are Better-lows Corn Well Cleaned Out.

Chicago was about the weakest of the wheat markets this morning, our ail of them showed a stronger tone and closed with a slight advance over the market of Wednesday. Chicago was at one time is above Wednesday's market. Liverpool closed with an advance on the May of her Berlin strengthened up at the close her has advanced from 10 to lier. Antwerp was unchanged and Buda Pest dropped he. The cash demand was generally better. The miliers were reported as buying better. Chicago reported the sale of 3,000 bushels of winter wheat, St. Louis was credited with cash transactions to the amount of 50,000 bushels. Kansas City. 7,000 bushels. Chicago No. 2 red advanced he; Minneapolls No. 2 northern, in store, he, and the No. 1 horthern went-sat lige under the May. Duluth advanced he; Kansas City, 4,91c, and St. Louis, he Comaha advanced to and the demand was more liberal than for several days.

several days.

Minneapolis four production for the week was 78,500 barrels, against 306,100 last year, the decrease being 30,000 barrels. The week has been very dull with all but one or two mills. Minneapolis was stronger in anticipation of a sharp decrease in receipts. They have failen off today, being 245 cars for the whole northwest, against 408 last week and 304 last year. Secretary Shaw is said to favor the ausenaton of duty on week and 304 last year. Secretary Shaw is said to favor the suspension of duty on wheat brought into the country from Manitoba for seed, because of the poor quality of that now in the northwest. The primary receipts were 305,008 bushele, against 357,009 bushels for the preceding week and 488,132 last year. The shipments were 251,700 bushels, against 270,351 bushels for the preceding week and 286,385 bushels last year.

The speculative market in corn was very dull again, the fluctuation being only active cash market, however, was somewhat stronger everywhere. One commission house in Chicago bought \$60,000 bushels of May corn this morning, but it is not known for whom. New York reports corn sales for export in the last two days of 344,000 bushels. Of this 100,000 bushels goes to Portugal for shipment early in Feoruary. Chicago sold 40,000 bushels to the gulf and \$5,000 bushels to go east. New Orleans reports the clearance of \$55,000 bushels for the continent. Chicago at present is more anxious for a reduction of the rate east than for one on the Chicago-Omaha roads. So much corn and oats have accumulated in the market that the need is to ship it cast. The speculative market, while dull, showed very little corn was to be bought at the present figure. Muscatine county, Iowa, reports 60 per cent of corn crop in that section moved out. Chicago has not taken it, but the starch and glucose factories at Cedar Rapids and Davenport. The cribs are reported empty and the feeders to have no surplus. It is thought no more corn will be sold until after the spring planting season. The primary receipts were 428,220 bushels, against 481,250 bushels for last year. The shipments were 328,297 bushels, against 226,694 and 402,379 bushels. Omaha Cash Sales. Proclamation Issued at St. Petersburg

Stocks which were most acutely depressed yesterday were most affected on the recovery today. Amalgamated Copper, from which the dividends came off, was specially sentiment, with considerable effect on sentiment. The recently conscious firmness of the Eric securities was still noticeable and strengthened the current supposition that this property is to figure in some important coming railroad deal. The cotton carriers were strong apparently on account of the corroborative evidence contained in the census bureau's cotton ginning report that the present crop would be a bumper one. The most conspicuous movements of the day were in specialties, not all of which were explained. The strength of the Chicago Terminal issues was connected with the reorganization plan. Southern Pacific was firm on the expected benefit of the refunding plan. Attained was inclined to lag, apparently from dissatisfaction at its bond issue.

The good heavy cattle were in good demand at steady prices, while the common and light weights were neglected and hard to sell at steady prices, the same as has been the case for some time past.
