Meetings at Westminster Presbyterian and Calvary Baptist Churches Well Attended and of

Great Interest.

The first week of the union evangelistic services in the Hanscom Park district, comprising the First Baptist, St. Mary's Avenue Congregational, Westminster Presbyterian, Hanscom Park Methodist Episcopal and Grace Lutheran churches, closed last night with a very largely attended meeting at Westminster Presbyterian church. The meetings during the week have

been full of interest. Dr. Dutcher spoke last night of Christ's hatred of sin and His attliude toward and love for sinners. He said in part: "Christ had to die because of sin, 'for God so loved the world that He gave His only begotten son that mankind might not perish, but have everlasting life." greater love than this? He sent His son love. Christ was given to man in order of God to save the world from sin."

> "Repentence," said the preacher, "does not strike like lightning from heaven. It is the simple turning from sin to God. The word is sharper than a two-edged sword if you give it a chance. No man has a right to speak of Jesus who does not show that he loves Him in life and conduct.

"Thank God for the transforming power of the gospel. You don't live until you know Jesus Christ. You exist, without influence or power for righteousness, but you don't live. Christ came to transform life. Every man is a sinner; every man can be saved; every man's salvation involves a decisive step on the part of the individual. "It is not our fault that we are sinners. Sin is born within our bosom. Regardless

of the skepticism of this, the word of God teaches us that it is the truft that every man is born in sin. Let a child go without a teacher and it will learn evil, but it will not learn to pray. It matters not what you may think about it, you are a sinner from the time you came into the world-but you can be saved.

War Between Roads.

LOCAL LINES TAKE OPTIMISTIC VIEW

Reduction of Six Cents to Senboard is Called an Evening Up and Placing of Roads on a

Better Basis.

Some of the local railroad agents are in clined to regard the new grain rates adopted at Chicago more in the light of an adjustment than of a war. "The rates be were 18 cents from Omaha to the the Atlantic seaboard was 24 cents. These rates gave the guif carrying roads the advantage of a differential of 7 cents. The new rates are 18 cents over the eastern lines and 12% cents over the gulf lines. This means a differential of 514 cents, and it is what Chicago has been fighting for. The eastern lines believed that the southern roads had too much of an advantage." "In your opinion, what effect will the

new rate have upon the lines using the Omaha gateway?" Effect on Local Market. "The rates, as I understand it, apply only
