GRAIN AND PRODUCE MARKET

Eighty Per Cent of Corn Crop Still to Be Hauled Out.

ESTIMATE ON GRAIN IN FARMERS' HANDS

Market Active Within Narrow Limit-Argentina Corn Shipments Heavy and European Markets Strong.

OMAHA, Jan. 27, 1866. The rate war between the enstern and outhern roads for Neoraska corn comes when it is of much interest to the farmers when it is of much interest to the farmers and grain dealers. Estimates from reports of country elevators turbughout the state place the amount of wheat in farmers names at the beginning of the month at 25 per cent. This is out of a total crop of 25,000,000 bushels. At the beginning of the receipt of the reast there was 1,300,000 bushes led to the old crop (1983) and very little of the new crop of 25,000,000 bushes had been moved out. The crop in the South Platte was poor and in the North Platte it was good. So that the former had moved little. The receipts from first hands during the mouth have not been large, so that probably more than 30 per cent of the crop is yet in the state. At the first of the year the estimate placed 37 per cent of the 1964 oat crop of 5,000,000 bushels still in farmers hands.

The wheat market was rather active this morning within a narrow that. Thursday the high and low points were only by apart and today a little less than it separated them. Liverpool was off from 2c to be at the close. This was due to the heavy Argentina shipments, and the fact it did not sag more under the strain shows a strong market there. Argentina sent 2,000,000 bushels this week, against 1,176,000 this week, it was however, 3,58,000 bushels last year. Antwerp closed with an advance of 25, Paris was from unchanged to 16 up. Minneapolis reports the sale by elevators to millers from between 200,000 and 300,000 bushels last two days considerable flour has been worked for Japan and more mills week amonth in the connection with the Oriental shipments. were running Thursday than any day this season. In connection with the Oriental ship-ments it is rumored the Pacific rates from ments it is rumored the Pacific rates from Portland, Org., have been reduced by one-third. San Frencisco also reports an advance in wheat of 2 cents through increased Oriental flour demand. Chicago had a romor a biscuit house there had ordered 20,000 barrels of low grade flour in Minneapolis, which was thought to account for the advance of 10c within a few-days at the fortiliwestern market. A considerable part of the winter wheat belt, especially in Kansas and Oklahoma, is reported bare during the recent cold wave. It is yet too early to say whether any extensive damage resulted or not. It is feared.

reared. The Liverpool market has been taking a large amount of Argentina corn lately, but reports its ability to absorb all offerings at the present price. Argentina visible supply is \,\ 534.600 bushels against 1.578.000 bushels the preceding week and \$05.000 bushels last year. The shipments were 1.550.000 bushels against \$60.000 bushels against \$60.000 bushels against \$60.000 bushels against \$42.000 bushels last year. The world's primary receipts were \$417.000 bushels against \$425.000 bushels last year and the shipments \$250.000 bushels last year and the shipments \$250.000 bushels against \$49.000 the shipments 250,000 bushels last year and bushels last year.

Features of the Tending and Closing Prices on Board of Trade.

Chicago reported receipts of 330 cars against 500 cars last week and 523 a year ago.

Predictions that new through tariff grain rates from Missouri river points would greatly increase arrivals here had a weak-ening effect on the corn market. Other factors that entered into the situation were increased shipments from Argentina and the weakness of wheat. Trading was fairly active but the range of prices was small. May opened is to be lower at 65-245-6; closed at 65-6. Local receipts were 190 cars none of contract grade.

A heavy undertone with a downward tendency of prices existed in the oats pit, the volume of trading was moderate. May opened a shade to be lower at 16-31-6; and 31-6; Local receipts were 55 cars.

A ten cent decline in hog prices following liberal receipts at the yards encouraged some selling of provisions resulting in an easy market. At the close May pork was off 5c at \$12.55-612.27-4; Lard was down was of 5c at \$12.55-612.27-4; Lard was down to 5c cars; corn. 231 cars; oats, 100 cars; hogs. 30,000 head.

The leading futures ranged as follows:

NEW YORK STOCKS AND BONDS

CHICAGO GRAIN AND PROVISIONS Early Market is Active and Shows Strength and Breadth.

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Jan. 37.—Liberal shipments from Argentino inde a depressing effect close the May option was see off. Corn is down jac, onts are unchanged and provisions show 35c to 5c loss.

MANY INDUSTRIALS ARE PUSHED UPWARD for the control of strength near the middle of the session, sentiment in the wheat pit was quite bearish. Influenced by lower prices at Liverian in the wheat pit was quite bearish. Influenced by lower prices at Liverian in the wheat pit was quite bearish. Influenced by lower prices at Liverian in the wheat pit was quite bearish. Influenced by lower prices at Liverian in the wheat pit was quite bearing the control of the past agreet than were received the corresponds for the past few days was due. After May had said off to B.165, the market railled a trife and from the advancing tendency of the past few days was due. After May had said off to B.165, the market railled a trife and from the advancing tendency of the past few days was due. After May had said off to B.165, the market railled a trife and first the process of four for the days and there was a notable falling off to only 8900 bushels compared with 135-000 bushels corresponding day last year. A senie of 190,000 berroke compared with 135-000 bushels compared with 135-000 bushels compared with 135-000 bushels was not becoming weak on general problems of the past of the past series of the past of the past series of the past few days was an other past of the past few days was a probable falling off the past few days of the past few da but the loan item is again a mystery. It is considered probable that last week's record expansion may have a counterpart in this week's statement. The compilation of the reports of the condition of the city trust companies on December 3I seems to throw light on the movement of bank loans. Compared with June 39 preceding the trust companies have increased their deposits over \$125,000,000, while the cash to their account in banks had been reduced \$55,-574,404. The trust company loans for the same period were increased \$21,476,762. With the profitable money rate for the last of the year, it is clear that the trust companies were lending out their own deposits, instead of leaving them in the banks. With the decline in money rates since the first of the year, it is equally clear that the trust companies have made enormous re-deposits in the banks, which have had the responsibility of finding use for these funds, upon which they must pay the trust companies 2 per cent. The condition of the week's money market makes probable a further enormous taking over of loans by the banks from the trust companies. The late break in sympathy with Amalgamated Copper was partly retrieved, Erie leading the raily again as in the previous upward tendency. The closing was firm. Bonds were firm. Total sales, par value, \$5,45,000. United States as declined a per cent on call.

The quotations on the New York Stock exchange ranged as follows:

LONDON. Jan 7.—Money bardened in the market today, it being Stock exchange pay day. Discounts sympathized with the rates for money. The tone of the Stock exchange was distinctly cheerful. Advices from the continental Bourses combined with the prospects of cheap money indicate a more confident feeling than for some time past, although the amount of business was small. Consols bardened. Americans opened above parity and the buoyancy was maintained throughout, Erie, day last year they were \$1.22.750.22. For the asking last year they were \$1.22.750.22.

Union Pacific and Southern Pacific leading. The first mentioned stock was bought largely for American account. Reading was in particularly good request. Prices closed firm. Foreigners were firm on continental support. Russian and Japanese securities were purchased largely. Imperial Japanese government is of 1904 were quoted at 1004. at 1004.

BERLIN, Jan. Z.-Prices on the Bourse today generally were unchanged.

PARIS, Jan. J.-The tone of the Bourse today was strong and prices had an upward tendency and were firm throughout. Russian imperial is were quoted at 89.50 and Russian bends of 1904 at 500.

Total Total
TTLE—There was only a fair run of caure in sight this morning, but the tendelicy of prices was downward at all points, with buyers apparently very indifferent. It was late before any business was trans-

got many cattle or not, which of course made it difficult for salesmen to get satisfactory prices.

The cow market also took a drop, the good to choice grades suffering as well as the common to medium kinds. The general market could safely be quoted 10@15c lower, with some sales even worse than that. Buyers took their own time about starting out and when they did go out their hids were so much lower that it was some time before any business was transacted. It was what would be-called a slow, mean market from start to finish.

Bulls, yeal calves and stags were also glow sale, with prices a triffe lower.

There were a good many stockers and feeders included in the receipts, but the demand for the better grades was about equal to the supply and prices held just about stendy. The common and light cattle, though were badly neglected and in most cases salesmen had to take a little less money for stuck kinds than was pald yesterday. Representative sales:

BEEF STEERS. STEERS AND HEIFERS 958 3 50 COWS. COWS AND HEIFERS. COWS AND BULLS. HEIFERS.

BULLE HOGS—There was a liberal run of hoga at Chicago this morning, about 45,000 being reported. As a result prices there broke a dime and caused a corresponding slump at this point, even though receipts were not excessive. The market here was rather slow in opening, with bids generally a dime lower on all kinds. Lightweights sold largely from \$4.00 down: medium mixed hogs around \$4.00½, and heavies largely from \$4.00 to \$4.00. With a top at \$4.00. Trading was not active at these prices and it was rather late before even the bulk of the offerings was disposed of.

The latter end of the market was very slow and weak, late sales being mostly logs like lower. Some pretty good hogs had to sell under \$4.00 on the close. Salesmen of course were slow to take the prices offered, but as there was nothing to indicate any improvement, they gradually out loose. Representative sales:

Wool Market.

BOSTON. Jan. 27.—WOOLS—Of the wool market the Commercial Bulletin tomorrow will say: The volume of business shows moderate expansion. Good-sized trades in Ohio fieeces have been put through. The general market is quiet and the tone is not so buillish. There is no break in values, but high limits are being urged. Foreign wools are accumulating. Yet American buyers continue active operations in foreign markets and local dealers are still contracting in the west. About a third of the territorial cilio of 1805 is already engaged. Shipments of wool from Boston to date from December 29, 1804. Seconding to the same authority, are 19,007,496 pounds, against 20.

SSEL34 pounds at the same time last year. The receipts to date are 17.578,218 pounds against 12,579,257 pounds for the same period last year.

ST. LOUIS, Jan. 27.—WOOL—Steady: me. ST. LOUIS, Jan. 27.—WOOL—Steady; medium grades, combing and clothing 23@39c; light fine. 187224c; heavy fine. 14718c; tub washed. 2741c.

LONDON, Jan. 27.—WOOL—The offerings at the wool auction sales today numbered 11.701 bales. The tone was steadier and prices advanced to the December level. Withdrawals were small. Continental representatives were the largest buyers, as the merinos were suitable for their uses. Home huyers secured most of the crossbreds. Americans purchased a few lots of crossbreds and also some fine haired clothing merinos. Following are the sales; New South Wales 3.500 bales; secured. 2661s 11d; greasy. 3661s 2d.
