Conference as to Amendments Decides on Some Alterations.

CONSOLIDATION WITH COUNTY FAVORED tain.

City Assessor and Treasurer to Be Abolished and Some Salaries to Be Raised by the New Law,

A majority of Douglas county representatives in the legislature in conference with the charter revision committee yesterday afternoon agreed to support charter amendments to consolidate the city and county assessing and treasury departments, abolishing the city officers and to limit the city council to the use of current taxes for | taken subject to the call of the chair, current expenses each year, directing al

collections from the scavenger law and delinquent taxes to the sinking fund. Un der the plan proposed the city will still have the right to levy \$200,000 for the sinking fund, leaving it possible to levy for about \$750,000 taxes besides. For the c cil to vote expenditures greater than the lovy limit malfeasance in office is to be incurred and removal from office made onof the penalties.

The joint meeting was attended by Senators Thomas and Saunders and Reprentalives Andersen, Clarke, Barnes, Lee, Foster and Dodge. Besides the members of the revision committee Members Howell and Hipple of the Water board, Bob Clancy | are C. E. Bates, 3202 Woolworth avenue, of the Union Pacific, Erastus A. Benson, Elmer E. Thomas, John D. Ware, W. G. Iwenty-fourth street. South Omaha. Ure and many city officers were present. Chairman D. C. Patterson of the charter urors: revision committee presided.

# Double Shift for Firemen.

The proposed law requiring a double shift or no more than twelve hours' regular duty for firemen each day was discussed at length. The charter revision committee had decided, against the bill. Chief Salter was questioned regarding the matter by Representatives Clarke and Dodge. He said that as proposed by the gers, Wisner, remen the plan would reduce each com-

pany to a number incompatible with good service. He estimated that to put the double shift in operation without lowering the standard of the department would require 202 men instead of 120, at an annual cost of \$230,359, instead of \$123,399. Representative Lee said it was argued that the addition of twenty-seven men at a monthly salary beginning at \$40 and advancing at the rate of \$19 a year would maintain if not advance the present efficiency. He was in favor of the plan., Representative Barnes made a long talk in favor of the Chief Salter said good firemen could not be obtained at \$40 or \$50 a month.

was the universal spring and fall "blood purifier," tonic and cure-all, and mind you, this old-rashioned remedy was not without merit.

The idea was good, but the remody was crude and unpaiatable, and a large quanbity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude uliphur

In recent years, research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium. (Calcium Sulphide) and sold in drug stores under the name of Suart's Calcium War-They are small chocolate couled pelets and contain the active medicinal prinapie of sulphur in a highly concentrated. ffective form.

Few people are aware of the value of this form of sulphur in restoring and ma ntainbodly vigor and health; sulphur acts directly on the liver, and excretory organs and purifies and enriches the blood by the prompt elimination of wasie material.

Our grandmothers knew this when they josed us with sulphur and molasses every pring and fall, but the crudity and imity of ordinary flowers of sulphur were often worse than the disease and cannot compare with the modern concentrated preparation of sulphur of which Stuart's Talcium Wafers it undoubtedly the best and most wide's used.

They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alike. Dr. R. M. Wilkins while experimenting with sulphur remedies soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when reduiting from constipation or malaria ve been surprised at the results obtained from Stuart's Calcium Wafers. In patients suffering from bolls and pimples and even m-seated carbuncies, I have repeatedly them dry up and disappear in four or leaving the skin clear and five days. th. Although Stuart's Calcium Wafin a proprietary article, and sold by druggists, and for that reason tabooed by physicians, yet I know of nothing so ate and rellable for constipation, liver and sidney troubles and especially in all forma skin diseases as this remedy."

At any rate people who are tired of pills, inthartics and so-called blood "purifiers," vill find Stuart's Calcium Wafers, a far ater, more palatable and effective prep-

The date for the final debate with the Lincoln High school, to be given in Omaha is, as yet, undecided. The dates proposed by Lincoln were wholly unacceptable to Omaha and made a change in date neces-sary. Lincoln has not been heard from since informed of Omaha's inability to consider its dates. The preliminary de-best debaters will be given in the high school building on the afternoon of Feb-ruary 8 in room 204. Patrons and friends of the school are urged to be present and judge for themselves the quality of the work to be presented and lend encourage-ment to all those who participate in the program. As there are many who will ment to all those who participate in the program. As there are many who will enter in competition it has been deemed advisable to limit each speaker to five minutes. Music will also be furnished by the Boys' Glee club and the Octet. The meeting will doubtless not hold longer than 3:45 or 4 o'clock p. m. The speakers taking part in the preliminary are: On the affirmative, Messrs. G. Barnes, G. SLOAN'S JOB STILL VACANT

Work of Pender District Divided Between Omaha and Norfolk

Commissioners at Present.

No successor has yet been appointed to the United States commissionership made vacant by the resignation of Thomas J. Sloan at Pender. All cases coming under the jurisdiction of a United States commissioner in the district formerly held by Sloan and lying south of Decatur will be taken care of by United States Commissioner Anderson of Omaha, and all cases north of Decatur will be looked after by the commissioner at Norfolk, Neb. Two or three bootlegging cases are to be investigated during the coming week under the new arrangement by Commissioner An-

derson, coming from the Omaha Indian reservation.

When your child is ill you dislike to make it take bad tasting medicine. Hence it is well to know that Ayer's Cherry Pectoral is very pleasant. But it is a medicine, a strong 20 Million Martin medicine.

Time and time again we have published the formula of this cough medicine in the principal Medical Journals of this country and Europe, and have mailed it to nearly every physician in the United States.

So it follows that when your doctor orders it for coughs, colds, bronchitis, or consumption, he knows precisely what he is giving.

Physicians recommend their families to keep it on hand.
