SET FOR HEARING IN OMAHA MONDAY

State Treasurer Issues a Call for Redemption of Sixty Thousand Dollars Worth of State Warrants.

(From a Staff Correspondent.) LINCOLN. Jan. 28 - (Special.) - Attorney General Norris Brown will go to Omaha tomorrow to be ready to argue the demurrer in the railroad tax injunction suit, which will be called for hearing in the federal court Monday. A railroad attorney telephoned to Mr. Brown that he desired the case postponed because of the sickness of one of the attorneys. Mr. Brown, however, will object to any further postponement, for he has invited the county attorneys of the state to be in Omaha Monday, and a large number of them will be there. For that reason he will insist on the

END OF SUCCESSFUL INSTITUTE

Burt County Farmers Have Interesting Meeting at Oakland. OAKLAND, Neb., Jan. 28.-(Special.) Friday's session of the Burt County Farmers' institute proved as interesting and was

as well attended as the previous day. The first topic discussed was "Smut Polsoning," by Dr. V. Schaeffer, in which all were interested and many questions were asked. "The Selection of the Dairy Cow" was the topic of State Lecturer C. H. Hinman of the agricultural experimental station, and was well received and proved of great interest to all farmers.

D. P. Ashburn, state speaker, then spoke on "Corn Cultivation," and made many valuable suggestions along this line. Then followed the election of officers for

the ensuing year, which resulted as follows: Andrew White, Lyons, president; George F. Smith, Craig, vice president; C. of 44 to 11 in favor of the Bellevue team. W. Babcock, Lyons, secretary and treas

The Oakland Male quartet opened the afternoon session with a song, followed by H. Hinman, who discussed "Principles of Feeding." Much interest in this sub-"The Selection and Care of Seed to the farm, near Blue Vale, this county. Corn" was the next topic for consideration and was handled by D. P. Ashburn, who gave the farmers many valuable pointers on this subject. "The Hand Cream Separator," by C. H. Hinman, was very valuable, and he pointed out the necessity of great care in handling milk and cream It was one of the most interesting topics of the institute.

The evening session was opened by a solo by Mrs. W. H. Myers, followed by a short, well rendered address by County Superintendent Eugene Brookings.

"Fads in Education" was ably discussed in a paper by Miss Ida V. Colson. Assistant State Superintendent E. C. Bishop was senate. One question of great moment present and addressed the audience on How to Better It," which proved of great or a majority of the senate is required to interest, "The School Premises and Their expel a member. Mr. Tayler, counsel for Influence," by Prof. W. H. Myers, principal of the Oakland schools, was very interesting. He made a plea that our school yards be beautified and our school rooms made more pleasant.

This closed the most successful institute ever held in Burt county. The interest was intense throughout the entire session, and and file written briefs. Only one session the attendance so large that at times people were unable to gain admittance to the

first session of the Biair Farmers' institute was held on Wednesday and Thursday of this week in the county court room. The Wednesday afternoon session was opened by an address on "Feeding Baby Beef," by Joseph Wing of Mechanicsburg, O., and was "Poultry on the Farm," by Miss Mary L. Smith of Addison, Mich., and "Sheep Feeding in Nebraska," by Watson Typon of this county. The evening session was given to "The Farm Home," by Miss Smith, and "Notes on European Travel," by Mr. Wing.

Thursday morning's session was opened

### YOU CAN INTEREST HIM

Any Man Over Fifty. You can interest any man over fifty years of age in anything that will make him feel better, because while he may not as yet have any positive organic disease he no longer feels the bouyancy and vigor of twenty-five nor the freedom from aches and pains he enjoyed in earlier years, and he very naturally examines with interest any proposition looking to the improvement and preservation of his health.

He will notice among other things that e stomach of fifty is a very different one from the stomach he possessed at twentyfive. The greatest care must be exercised as to what is eaten and how much of it. and even with the best of care, there will be increasing digestive weakness with ad-

A proposition to perfect or improve the digestion and assimilation of food is one which interests not only every man of fifty but every man, weman or child any age. because the whole secret of good health, good blood, strong nerves, is to have a stomach which will promptly and thoroughly digest whelesome food because blood, nerves, brain tissue and every other constituent of the body are entirely the proof digestion, and no medicine or "health" food can possibly create pure blood or restore shaky nerves, when a weak stomach is replenishing the daily wear and tear of the body from a mass of ferment-

ing half digested food. No, the stomach itself wants help and in no round-about way, either; it wants direct unmistakable assistance, such as is given by one or two Stuart's Dyspepsia Tablets

These tablets cure stomach trouble because their use gives the stomach a chance to rest and recuperate, one of Stuart's Dyspepsia Tablets contains digestive elements sufficient to digest 3,000 grains of ordinary food such as bread, meat, eggs,

The plan of dieting is simply another name for starvation, and the use of prefoods and new fangled breakfast foods simply makes matters worse, as dyspeptic who has tried them knows. As Dr. Bennett says, the only reason I can imagine why Stuart's Dyspepsia Tabare not universally used by everybady direction is because may people seem to think that because a medicine is advertised matter of truth any druggist who is to the academy. servant knows that Stuart's Dyspepsia Tublets have cured more people of indigesion, heart burn, heart trouble, nervous prostration and run-down condition gener-

by "Selection of the Dairy Cow," by C. H. TAFT TALKS OF THE TARIFF Care of Seed Corn," by D. P. Ashburn of Gibbon, Neb., and "Evolution of the Texas Steer," by Samuel W. Stewart of this county. The afternoon was occupied by Mr Hinman, Mr. Ashburn and County Treasurer E. Z. Russell with papers on "Prinipals of Feeding," "Corn Cultivation" and Hog Industry," respectively.

Thursday evening closed the session and an address on "Agriculture" was given by Chancellor E. B. Andrews of the State unlversity. The cold weather was very severe n both days, but the attendance was good and beyond the expectation of those in charge of the meeting. The lectures and papers read on the various topics were well received, and expressions of appreciation for this first session held at Blair were heard from farmers from all over the ounty. A good attendance of women was present at each session, and the courtroom was filled to hear Mr. Andrews on the last

The managers are well pleased with the result of this session and an extra effort will be made to prepare for next year's meeting, and an elaborfate program was promised to the farmers at that time.

It will be several weeks before the committee will be able to The committee allowed counsel until February 4 to revise their arguments

of the committee was held today. Mr. Worthington, counsel for Senator Smoot, concluded his argument and Judge Tayler closed the case for the protestants. Mr. Worthington closed with the statement that a great deal has been said about the matter of the protection of the home which was said to be the real reason for the prosecution of Senator Smoot. "If this is true, I contend," said Mr. Worthington, that Mr. Smoot should retain his seat, because it has been shown that he has counseled nothing but good, and Gentiles who voted for him did so because they knew he believed in upholding the laws of the land acter of service.

and that he led a pure life."

Judge Tayler, in closing the arguments made no effort to follow any particular line of argument, but he declared that Mr. Worthington had misinterpreted his remarks on the subject of revelations. He stated his position anew, but followed practically the same line as in his opening statement of the case. Mr. Worthington had talked at length of the effect of the manifesto and Judge Tayler declared that divine order to have been the result of the "politicians' club," the manifests having been issued at a time when the country was stirred by the Roberts investigation. He devoted nearly his entire time to answering Mr. Worthington. No new arguments were

President Roosevelt Guest of Correspondents at Banquet.

WASHINGTON, Jan. 28.-The Gridiron club celebrated its twentieth anniversary with a dinner at the New Willard tonight which was attended by 250 guests, includfamily, representatives of the courts, the senate and house and the army and navy, as well as men of prominence in literary, scientific and business worlds.

While the anniversary was recognized in making Major John Carson president of the club and in the production of a souvenir which told the story of a score of years of successful dining, the dinner, like all others of this famous organization of Washington correspondents, dealt with present events which were treated with the usual levity and burlesque and satir ized, while the prominent guests were roasted in the good natured and witty way that makes Gridiron dinners so en-

ARGUES BEFORE COMMITTEE OF HOUSE

Matter of Self-Government is Men tioned and a Little Political Discussion Follows in the Meeting.

WASHINGTON, Jan. 28 .- Secretary Taff made an argument today before the house committee on ways and means in favor of the Curtis bill reducing the duty on sugar and tobacco from the Philippines. He contended that as the Philippines belong to the United States, thereby imposing a sacred trust on this government, it is our duty to establish and maintain the best possible conditions there.

"Certainly," he said, "the present status of the islands, so far as our relations to them are concerned, will remain the same throughout the present generation and prebably longer."

With this in view, he maintained, it would be as just to establish a tariff between Adolphus Buttchen, a farmer living six the states of Ohio and Pennsylvania as ippines. Ultimate free trade would have come between the islands and the United "You have declared that in 1906 American bottoms shall carry everything that is shipped ipppines both ways. It is possible the house of representatives or the senate can impose on these people a domestic policy with reference to the carrying of goods, and yet withhold the opportunity of mar-

kets for these goods? "No, sir, I am not willing to admit it. I do not think congress will be so unjust and the people here representing special interests may as well put their house in order. The American people are not going to allow interference with the policy that is going to do this country honor."

Williams in Debate. policy, Secretary Taft said, was settled at the last election. The democratic members from the country might not agree with him on this point.

Mr. Williams (Miss.), the minority floor leader, asked the secretary if it were not the republican policy to give the islands ultimate independence. The secretary affirmed this, stating that such would be the case when the people of the islands were capable of self-government. "Self-government as the American under-

stands it, or the Filipino understands it?" "I doubt if they ever reach the selfgoverning capacity of the Americans," the secretary replied.

"Well," asserted Mr. Williams, "there is not so horribly much difference between you and the democrats. You believe in granting self-government when the people are ready and we believe in fixing a date for their independence."

Secretary Taft-Yes, that is practically it. Whenever they reach the condition where they have a reasonable public opinion which may be relied upon to restrain radicalism; when inter-island communication has been established, and when con ditions generally have become settledthen, if they desire independence, give it to them. If they don't; if they desire a bond which might become sweet by coming inside our tariff wall, that might be considered.

Mr. Williams-Even then you will make them a self-governing colony? Secretary Taft-Yes, sir.

 
 Mr. Williams remarked that the republican position at first was that we were to keep the islands forever.

Questioned by Senator Elkins whether there had been a corresponding increas in the price of beef, the witness replie that the reply to that question would de pend upon the viewpoint.

"To the man who buys beef there ha been an increase," he said, "but to th man who sells there has been a decline." Judge Cowan answered that a commi sion would be just as competent to adjust rates as were the railroad traffic men, because the data on which rates must be based were as available to one man as to another.

'But," suggested Senator Elkins, "the consolidation of railroads destroys competition." To which Judge Cowan assented most heartily, saying that was the point of his contention. GERMAN PROFESSOR DISCUSSES SCHEME

Approves Idea in General, but Says It Has Some Difficult Phases Which Must Be Over-

BERLIN, Jan. 38.-Emperor William has directed the ambassador of the United States, Baron Speck von Sternburg, to lay before President Roosevelt in official form the suggestion of an exchange of professors between Germany and America that the emperor mentioned to Ambassador Tower on New Year's day. The ambassa dor, who sailed on the Kaiser Wilhelm der Grosse January 25, only carries an outline of the project which the president will be asked to approve and co-operate in making a working plan.

HOT SPRINGS, Ark., Jan. 28.—Results at tage when the professor himself goes abroad to lecture. He refers to Lord Kelvin, Sir William Ramsay and Nansen, the explorer, as having lectured in Berlin. Prof. Max Mueller, Prof. Harnack also points out, came to Strassburg to give lectures while retaining his Oxford professorship, and adds that Prof. Gregory of Leipzig is American by birth, and a professor at a German university, and has

The simplest means to inaugurate professorial interchanges, according to Prof. Harnack, is to invite distinguished professors from abroad to give courses of four to eight lectures. But this is not enough. The best thing, if it can be done, is to call for an entire six months' tour, or even longer. In doing so, of course, no country will import a professor when it has a better one at home; it will always be best to let the students hear the language of the literature and economic and social affairs of another country from a professor of that country. No amount of industrious study will give German students the insight into these things that we can get from a native of America. It is of all the civilized states the most remote for Germany in space, but intellectually the nearest and most closely related.

"In exchanging professors," continues Prof. Harnack, "we think in the first instance of America. Harvard and Berlin are already negotiating a plan and will have to begin with caution and within modest limits. If the idea is sound it will then grow of itself. Difficulties will have to be overcome, like the six months tours beginning and ending at different dates, and no university will be readily willing to let a favorite professor off for even a short time. But the difficulties are not insurmountable. Distance hardly counts any longer. The conviction that international duties have arisen for men of of league bowlers at end of science, who must carry the plan to success, will aid in disseminating, leavening and strengthening the bond of fraternity."

NEBRASKANS BEAT THE KAWS Basket Ball Team from Sunflower

State Suffers Defeat. LINCOLN, Neb., Jan. 28.—(Special Telegram.)—Kansas University was defeated to-night at basket ball by Nebraska Wesleyan night at basket bail by Nebraska Wesleyan in the Wesleyan gymnasium, the Methodists annexing the long end of a score standing 61 to 37. The Jayhawkers excelled slightly in passing the ball, but Wesleyan threw her goals with better accuracy, in which department of the contest the Jayhawkers were outclassed. Captain Lowell and White did the star work for Wesleyan, while W. J. Miller, the agile center on the Kansas five, scored more than half of the points credited to his team. Lowell's free goal throwing was particularly spectacular, ten of Wesleyan's points resulting from his efforts. Kansas will continue its Nebraska tour by playing Omaha Young Men's Christian association Monday night in the Omaha Audi-

torium. The score:		. 1810
