GRAIN AND PRODUCE MARKET

Bullish Figures to Show Wheat Stocks Smaller Than Last Year.

VISIBLE SUPPLY PROBABLY AT LIMIT

Demand Elsewhere Will Make Up for Larger Wheat Stocks Now at Minneapolis—Milling Also to Be More Active.

OMAHA, Jan. 30, 1905.

It would seem as though the high point for the visible supply had been reached. This was predicted for earlier in the year, but the receipts continue large to the surprise some of the wise guys. The increase this week, however, was only 4,000 bushels.

The air is full of bullish sentiment given out in some quarters. Among these is the statement that St. Louis had 5,000,000 bushels of contract wheat last year at this time and now has only 900,000 bushels. It is added the last bit of straight No. 2 red there has been sold to millers and inspected out for shipment. The rest of the No. 2 red is said to be so mixed with Oregon wheat that the millers prefer to buy the No. 3 red. The receipts at St. Louis and at Kansas City are said to be running under the last year's receipts. The southeastern mills are just coming into the market and a Terre Haute house Saturday sold 3,000 bushels at $1.19 to go to an interior mill. By March 1 these millers, it is predicted, will all be buying freely winter wheat and the authority wonders where the supply is to come from. The Chicago stocks cannot be increased and a part will have to be used to supply this southern milling demand. An elevator company in Minnesota reports January 1 it had 1,000,000 bushels of wheat and now has only half that amount and is selling daily with almost no country movement. In this quarter it is believed the farmers have no more in their hands than will furnish seed and will supply the county millers. Under these conditions it is wondered where the heavy northwestern receipts of the country elevators. Chicago, Minneapolis stocks are increased at the expense of the country elevators. Chicago, Minneapolis and Duluth received 501 cars, against 731 last week and 463 last year.

The Commercial West adds some bullish talk. The effect of the supply on the situation in the northwest is given under three heads. First, from now until August, Minneapolis and Duluth will receive a daily average from the country of less than last year. Receipts, secondly, at Minneapolis from Kansas will be 2,000,000 or 3,000,000 bushels less than last year. Third, the shipments from Minneapolis will be materially greater than last year. The question is, will the 2,000,000 bushels larger stocks there this year offset the increased demand and shipments from the rest of the country. The paper thinks not and believes the demand will decrease the stocks so low that by May they will be less than last year at that time. The amount in 1904 was 11,500,000 bushels. There is also predicted a larger milling output from January 1 to May 1. Last year shutdowns were frequent, now flour bookings cover operation to March 1.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Jan. 30.—Improved demand for flour in the northwest was the chief reason for a strong wheat market here today. At the close May was up ⅝@1⅛c, corn is off ⅛@¼c, oats are almost unchanged and provisions made a gain of 2½@10c.

Strength developed in the wheat market after a rather weak opening. At the start the market was bearishly affected by lower prices at Liverpool and the weekly statistics, which were quite disappointing to bulls. The amount of breadstuffs on ocean passage showed an increase of 1,996,000 bu. In addition the world's shipments were larger than expected. Furthermore the domestic situation was less reassuring to bull traders, receipts in the northwest being in excess of those the corresponding day a year ago. After opening unchanged to ⅛c lower at $1.15⅝@1.15¾ May declined to $1.15⅝ on general selling by pit traders and commission houses. During the early part of the session there was very little demand. As a result trading was inclined to drag. On free covering by shorts prices were forced steadily upward, the market closing at the highest point of the day with May at $1.16⅝@1.16¾. Clearances of wheat and flour were equal to 44,500 bu. Primary receipts were 704,300 bu., compared with 724,500 bu. a year ago. Minneapolis, Duluth and Chicago reported receipts of 501 cars, against 731 cars last week and 463 cars a year ago.

Owing to prospects of a more liberal movement sentiment in the corn pit was rather weak. Throughout the entire day cash houses and local bears were ready sellers, but the demand was limited. As a result the volume of business was small. May opened ⅛@¼@⅜c lower at 44⅝@44⅞@44¾c, sold off to 44⅝c and closed at 44⅝@44¾c. Local receipts were 278 cars, none of contract grade.

Business in the oats pit was much livelier than has been in evidence for the last month. On selling due to liberal receipts the market made a slight decline early in the day, but nearly all the loss was subsequently regained. May opened unchanged to a shade lower at 30⅛@30¼@30⅜c, sold down to 30⅛c and closed at 30⅛@30⅜c. Local receipts were 132 cars.

Notwithstanding lower prices at the yards following heavier receipts of hogs than expected, the provisions market was firm. Speculators were inclined to support the market and there was a fair demand from outsiders. At the close May pork was up 7½@10c at $12.90@12.92½, lard was 5c higher at $7, ribs were 2½c higher at $6.85@6.87½.

Estimated receipts for tomorrow: Wheat, 30 cars; corn, 539 cars; oats, 149 cars; hogs, 1,000 head.

NEW YORK STOCKS AND BONDS

Dealings Are Large With Wide and Constant Fluctuations.

NET CHANGES FOR THE DAY ARE SLIGHT

Announcement That Supreme Court Will Review Northern Securities Case Sends That Issue Down Eight Points.

NEW YORK, Jan. 30.—There was great variety in today's stock market, with large dealings and wide and constant fluctuations, but the net changes do not in any degree correspond with the wide movements of the day.

The mainspring of the speculation was the action of the supreme court in the Northern Securities case. Last week's buoyant rise in the stocks which have responded to the various developments in the Northern Securities case was associated with a general conviction in Wall street that the court had reached the determination to refuse the petition of the Harriman party for a writ of certiorari to review the decision against them in the lower courts. By permitting the immediate distribution of Northern Securities assets, such action by the court it was felt would practically determine the contest. The anomaly of strength shown by the stocks of both sides to the contest on account of a decision which would be a defeat of one side apparently escaped notice. The movement of the stocks today seemed to demonstrate by their final action that their advance has not been influenced by consideration of a decision in the Northern Securities case. But it was also shown that there had been a large speculative following in this stock which supposed that this was the influence that moved the market. Thus there was heavy unloading when it became known that the action of the supreme court would have the effect of continuing the injunction under which the Northern Securities company is tied up. That stock itself fell back nearly eight points on the curb market and Union Pacific, Southern Pacific and St. Paul were acutely affected on the exchange. The determined accumulation of Union Pacific at the lower levels and its vigorous movement upwards again presented no other causes for the advance and the mysterious power of the railroad "deal" again asserted itself on the speculative temper. Union Pacific, Southern Pacific, St. Paul, Chicago & Northwestern and allied stocks, Erie, New York Central, the Junior Vanderbilts and Kansas City Southern were all influenced immediately by the suppositions of the deal. Disclaimer of the deal stories said to be with official sanction, but anonymously reported, had no effect on the speculative excitement. Outside of this influence there were no clearly defined factors in the market. There was some disposition to attribute the strong recovery to the retreat of the bear interest which has made demonstrative threats against the market for some time past. The special strength of Amalgamated Copper was attributed to this cause. Interviews with railroad traffic officials pointed to slight interruption of the freight movement by last week's storm obstruction and the merchandise movement was said to be well maintained. Foreign factors fell into the background. Money was again very easy and the prospects of large additional exports of gold caused no disturbance. Except for the Harriman's and Vanderbilts there were not many stocks that recovered to above Saturday and the closing was steady and not very far on the average from Saturday's level.

Bonds continued to be well absorbed both on the stock exchange and over the counter, but depression of some of the speculative issues made the movement irregular. Total par value, $7,475,000.

United States bonds were all unchanged on call.

Foreign Financial.

LONDON, Jan. 30.—Money was steady in the market today. The calls included 20 per cent of Canadian Pacific new ordinary. Discounts were weak in view of the easier money after the month end. Business on the Stock exchange was quiet. The feature was the strength of Americans. The New York bank statement stimulated operations in this department. Union Pacific, Erie and Southern Pacific rose sharply. Canadian Pacific was supported on the December statement. The market relapsed in places after the receipt of New York's opening and closed weak. Consols were well supported. Foreigners were moderately active, the Manchurian news buoying up Japanese and the continent supporting Russians. Imperial Japanese government 6s of 1904 were quoted at 100⅝. Kaffirs were dull on realizations and lack of Paris support and closed above the worst quotations of the day.

BERLIN, Jan. 30.—Prices on the bourse today were weak.

PARIS, Jan. 30.—Prices on the bourse today were irregular, but at the close the market was firm. Credit Lyonnaise was affected by the reported illness of President Germain. Russian imperial 4s were quoted at 90.25 and Russian bonds of 1904 at 500.

Wool Market.

LONDON, Jan. 30.—WOOL—A miscellaneous selection, numbering 8,623 bales, was offered at the wool auction sales today. The demand was good and withdrawals were frequent. Merinos sold readily at full rates, with the exception of fine South Australian, which were held too high. Cross breds sold well; Americans have evidently filled their requirements, as they are not buying. Following are the sales: New South Wales, 700 bales; scoured, 10d@1s 6½d; greasy, 5½@11d. Queensland, 1,800 bales; scoured, 1s@1s 8½d; greasy, 6½@11d. 600 bales; scoured, 8½d@1s 1½d; greasy, 6½@1s 2d. South Australia, 1,900 bales; scoured, 1s ½d@1s 6d; greasy, 5@11½d. West Australia, 1,700 bales; greasy, 6½@10½d. New Zealand, 2,000 bales; scoured, 9d@1s 7d; greasy, 6d@1s 2d.

BOSTON, Jan. 30.—WOOL—Of the wool market the Commercial Bulletin has this to say: The volume of business shows moderate expansion. Good-sized trades in Ohio fleeces have been put through. The general market is quiet and the tone is not so bullish. There is no break in values, but high limits are being urged. Foreign wools are accumulating. Yet American buyers continue active operations in foreign markets and local dealers are still contracting in the west. About a third of the territorial clip of 1905 is already engaged. Shipments of wool from Boston to date from December 29, 1904, according to the same authority, are 19,007,496 pounds, against 20,898,134 pounds at the same time last year. The receipts to date are 17,578,218 pounds, against 12,579,267 pounds for the same period last year.

Metal Market.

NEW YORK, Jan. 30.—METALS—According to London cables there was considerable covering of tin by shorts, also some American buying, with the result that prices closed firm and higher at £132 5s for spot and £130 7s 6d for futures. Locally supplies available for immediate delivery are said to be limited and are very firmly held, spot being quoted at from $30 to $30.50, although it is stated that tins for delivery later than February can be secured at around $29.25. Copper was without special feature in the local market, continuing firm at $15.50 for lake, $15.37½@15.50 for electrolytic and at $15.00@15.25 for casting. The London market was a little higher, with spot quoted at £67 17s 6d and futures at £68. The London lead market was also a little higher, with spot closing at £12 15s. The local market was unchanged at $4.45@4.55. Spelter was unchanged at $6.20@6.30 in the local market and at £24 15s in London. Iron closed at 53s 9d in Glasgow and 47s 10½d in Middlesborough. Locally the market was reported firm, but rather quiet. No. 1 foundry northern is quoted at $17.50@17.75; No. 2 foundry northern, $17.50; No. 1 foundry southern and No. 1 foundry southern soft, $17.50.

ST. LOUIS, Jan. 30.—METALS—Lead, dull, $4.33. Spelter, lower, $6.05 asked.

Coffee Market.

NEW YORK, Jan. 30.—COFFEE—Market for futures opened steady at unchanged prices to a decline of 5 points. For a time the market was steadied by the fair showing of the European markets and advances in Brazilian markets. But inferior receipts for the day were large and with the estimates for the immediate movement also full prices toward the close weakened under liquidation and the market was finally net unchanged on January, but 5@15 points lower on later months. Sales were reported of 24,750 bags, including March at 7.35@7.40c; May at 7.70@7.75c; July at 7.85@8c; September at 8.10@8.20c; December at 8.25@8.40c. Spot, nominal, No. 7 Rio, 8 9-16c.

CATTLE—There was a smaller run of cattle here today than was generally expected and as a result the market was in good shape, owing to a fairly liberal demand from all sources. Reports from other points were also favorable to the selling interests, so it was not long before everything except the late arrivals was disposed of.

There were only a few cars of cornfed steers in the yards, and most of these were of the shortfed variety. The market on the more desirable grades was active and generally a dime higher, and as there did not seem to be enough of them to meet the requirements of the trade, it did not take long for salesmen to dispose of what they had. Even the common and shortfed cattle sold to better advantage this morning than they did at the close of last week.

The demand for the better grades of cows and heifers was also active and such kinds could safely be quoted a dime higher and in some cases sales were made that looked even better than that. When it came to the common and medium grades the improvement was not quite so great, but still even those kinds sold strong to a dime higher than they did at the close of last week. Trading was active on the early arrivals, but of course the slow arrival of trains prevented an early close to the market.

Bulls sold at a little stronger prices than on last Friday, but veal calves brought just about the same prices they have for some little time.

There were quite a few stockers and feeders in the yards and owing to the heavy snow storm speculators were a little afraid to get too many cattle on hand. The good heavy cattle sold without much trouble at right around steady prices, but others were a little slow and in some cases sales were made a little lower. Representative sales:

HOGS—There was a moderate run of hogs here this morning, so that although advices from other points were unfavorable to the selling interests, the demand here was sufficient to hold prices steady. Packers tried to bear the market a little at the opening, but they had to raise their bids and the early arrivals sold in just about the same notches as did last Saturday's offerings. Trading was quite active after buyers and sellers got together on prices, so it was not long before everything except the late arrivals was disposed of. Lightweights sold largely from $4.50 down, medium and mixed hogs from $4.50 to $4.55 and choice heavies from $4.55 to $4.65. Prime heavy hogs weighing around forty-four pounds were lacking in the early receipts, so that the top was not as good as on Saturday.

At the noon hour there were still several loads which had not arrived, but a few hogs that came in just before noon sold at good strong prices, as some of the packers apparently had not filled all of their more urgent orders. Representative sales:

SHEEP—There was a moderate run of sheep and lambs here this morning and as the mutton market in the east was in much better condition than was the case last week packers took hold freely and an active and higher market was experienced. In fact buyers were out at an early hour and everything that would do to kill changed hands as fast as offered. The general market could safely be quoted a dime higher and in extreme cases there may have been a little more improvement than that. On the other hand the kinds that did not suit packers could not be quoted more than strong. Some fair lambs sold as high as $7 and some Colorado ewes brought up to $4.75.

The feeder situation has shown no change as the demand is still fully equal to the supply and good stuff will sell as high as at any time.
