QUAIL STARVE BY THOUSANDS

Unable to Scratch Through Frozen Snow for Food and Many Die. NEBRASKA CITY, Neb. Feb. 4 .- (Special.)-Farmers say that thousands of quail are starving to death in this county. The country roads are lined with quail searching fo. something to eat and in many cases the little fellows fly into barns and granaries in search of grain. The thawing and freezing of the snow of the last thirty days has formed coatings of ice over the ground through which the quall cannot scratch to secure food. In several instances entire flocks of them have been found in hedges huddled together, dead, caused by the severe weather and lack of food. Many farmers are feeding the quall on their places and hunger tempts them to leave their hiding places while the grain is being scattered on the ground.
