upon the sun?

the spot on the sun.

### SUN SPOT NOT DANGEROUS And suppose the spot on the sun did cause our present cold wave, the difficulty is only

Father Rigge Says the Disturbance is One to Cause Only Delight.

SCIENTIFIC FACTS TO ALLAY FOOLISH FEARS | fects diminish at least in the ratio of the

Baneful Effects of the Phenomenon Exist in Minds of Superstitions Ignorant Alone and Those Who Deal in Sensations.

OMAHA, Feb. 6.-To the Editor of The Hee: The unusual large spot at present on the sun is causing considerable comment in the daily papers all over the country. I clip the following from a Chicago paper, but omit the startling headlines:

paper, but omit the startling headlines:
Chicagoans today were startled by an immense spot on the sun, covering one-tenth of its entire visible surface.
Thousands were puzzled and anxious. In all parts of the city crowds gathered in the streets watching the great spot, speculating and arguing as to its cause and effect. Astronomers at the University of Chicago and at Northwestern and Lake Forest watched the phenomena through powerful glasses and declared the spot one of the largest ever observed.

The spot raised fear and trembling

owerful glasses and declared the spot one of the largest ever observed.

The spot caused fear and trembling among the superstitious, and through the employ of the ever districts women and men prayed and sang, believing the end of the world was approaching and declaring loudly that the sun was going out.

Now, let me assure the reader that there is the sanger of th

Now, let me assure the reader that there is absolutely nothing alarming in this spot on the sun. There is nothing that an astronomer would not take delight in seeing. Its baneful effects upon the earth and upon the weather are entirely in the imagination of the ignoreant, and chose who do not thus seruple to prey upon the invincible ignorance of poor people in the columns of sensational newspapers. I can state upon the authority of Lord Kelvin himself, the greatest living physicist in the world to. greatest living physicist in the world today, that if even the slightest movements of the magnetic needle (movements so delicate even in the most violent storms that the naked eye would never detect them) are "direct manifestations of electric oscillations of the sun, as much work would have to be done by the sun in eight hours largely attended. Their future home will of a by no means severe storm as it actually does in four months of its regular light

Hasty Conclusions Are Rash.

As I said in my former communication, there is an evident connection between the number of sun spots and of magnetic storms on earth, but while this is true in the long run, it is not always true in any individual case. So many exceptions have been found, after a careful study, that it would be rash to assert any connection niess actually proved by observation. And what is a magnetic storm to the general public? A scarcely perceptible oscillation of the magnetic needle. Suppose even that strong electric currents traverse the earth, so strong that telegraph operators may use them to send messages, suppose even that in a few instances these currents were strong enough to set switchboards on fire, is that any cause for alarm to the general public?

But the effects on the weather. Is the present spot on the sun to blame for our cold weather? I would not be so rash as to affirm it or deny it. The burden of proof rests entirely on the one who would make the assertion, whether positive or negative.

The earth has nourished us through unknown ages of human existence. Is it not true that the earth supplies us with everything that we really require for existence? Have you ever thought that it is probable that the earth supplies us with the means to keep our bodily vigor, our health, if we only knew it? The suimals know by instinct what is good for them and will search until they find in some plant what they med for correcting indigestion or constipation, etc. Is it therefore, not possible that there are roots and herbs supplied by nature which will cure the diseases that afflict human kind? That is why Dr. Pierce, of Buffalo, N. Y., has such faith in his "Medical Discovery." Years ago, when he was in general and active practice, he found that a combination of certain herbs and roots made into an alterative extract, without the use of alcohol, would always put the stomach into a healthy condition, nourish the tissues, feed the blood and nerves and put healthy tone into the whole system.

The Pierce's Golden Medical Discovery

Dr. Pierce's Golden Medical Discovery restores the lost flesh by curing diseases of the stomach and other organs of digestion and nutrition and enabling the perfect di-gestion and assimilation of food from which flesh and strength are made.

flesh and strength are made.

L. Royalty, Esq., Justice of the Peace, Lexington. Ey., for 29 years, writes: "I am satisfied that Dr. Pierce's Golden Medical Discovery will give permanent relief, and care any one who may be suffering from stomach and liver stouble, which as a raie are the result of bowel difficulties. My experience with the abovenamed medicine was most satisfactory. It soon had my system well regulated and toned up, and I have telt in splendid health and spirits ever since."

To gain knowledge of your own body—in aickness and health—send for the People's Common Sense Medical Adviser. A book of nos pages. Send at cents in stamps for paper-covered, or, 31 stamps for clothound copy. Address Dr. R. V. Pares, 663 Main Street, Buffelo, N. Y.

### STATE UNIVERSITY FIGURES Number of Students Enrolled for Each of

Past Ten Years.

EXHIBIT OF INCREASED APPROPRIATIONS

Where It is Supposed to Go To-Some Instructive Comparisons.

(From a Staff Correspondent.) LINCOLN, Feb. 5.-(Special.)-The University of Nebraska is asking the legislature for appropriations for the biennium aggregating \$842,479. Inasmuch as this collosal sum would be more than a fourth of the total appropriations for all purposes of state government, the disposition is manifest among the legislators to look into the needs of the university more fully than usual and the desire for detailed information is general. The Bee has compiled at no little trouble the figures bearing on the main points of university financiering for a period covering ten years or more, so that the exhibit will have a comparative.

That the university has grown in recent years goes without saying, although most of the growth has come through the establishment of new schools. The student enrollment figures for ten years are as follows, the average of actual attendance for the whole college year being doubtless considerably smaller;

3	Cear.	Law	Literature	Industrial	Graduate	Music	Fin Arts	Medicine	Agriculture	Summer	Total

Where the Money Comes from and INSTITUTE HELD AT PAPILLION Successful Meeting of Sarpy County

Farmers is Held. PAPILLION, Neb., Feb. 6.—(Special.)— The institute held by the farmers last Saturday was remarkable in several particulars. To begin with, it was planned and carried on by our young men, and young men made a majority of the audience. The mercury dropped below the 20s, yet our young men hustled around, began on time and carried out the program like a train schedule-better in fact than some recent schedules. The splendid musical program was rendered entirely by young folks, home talent and the orchestra from the Agricultural college at Lincoln. Miss Graham deserves special mention because of her services at the beginning of the morning session, when the hall was yet cold and only a handful were present. A

cold and only a handful were present. A large audience gathered, however, before the close of the session and in the afternoon the house was crowded.

The speakers were D. Ward King of Missouri and C. M. Lewelling of Beaver, Neb. Mr. Lewelling's subject in the morning was "Seed Corn." and he opened our eyes to many of the finer points of the subject. In the afternoon he spoke on "Profitable Poultry," and the women voted it deelightful.

Mr. King's subjects were: "Breaking a Wild Horse Without Touching Its Head" and "Hard Earth Roads." Mr. King's plan for making earth roads is receiving national attention; it is not expensive, is simple, and, if reason and testimony count, is wonderfully effective. The "horse talk" is entirely out of the beaten paths. By the use of twenty-five or thirty feet of small county of the subject of the subject in the morting its Head" and "Hard Earth Roads." Mr. King's simple, and, if reason and testimony count, is wonderfully effective. The "horse talk" is entirely out of the beaten paths. By the use of twenty-five or thirty feet of small county. Feb. 6.—The stockholders of the subject. In the afternoon he spoke on "Profitable Poultry," and the women voted it deelightful.

Mr. King's subjects were: "Breaking a Wild Horse Without Touching Its Head" and "Hard Earth Roads." Mr. King's earth roads is receiving national attention; it is not expensive, is simple, and, if reason and testimony count, is wonderfully effective. The "horse talk" is entirely out of the beaten paths. By the use of twenty-five or thirty feet of small port. Feb. 6.—The stockholders of the least Rnown farmers of Bancroft township, died very suddenly on Saturday night at the family home. The deceased appeared to be in her usual health up to and after supper time, when without a moment's warning she fell down and expired.

WEST POINT, Feb. 6.—Mrs. Henry Ridden, and the mother of a numeroous family of county. On Saturday night at the family home. The deceased appeared to be in her usual health up to and after supper tim

is entirely out of the beaten paths. By the use of twenty-five or thirty feet of small rope Mr. King demonstrates the method he has been using for years. This also is simple and evidently accomplishes its purpose quickly and positively.

A large number of the farmers expressed their intention of trying the log-drag on the road and we venture the guess that the boys will have ropes on the colts as soon as spring opens, if not before.

YORK, Neb., Feb. 6.—(Special.)—A farmers' institute will be held at McCool Junction Tuesday, February 21. These meetings are held under the auspices of the University of Nebraska and the McCool Junction Farmers' Institute association and are free to all.

and Kansas City. Nearly a hundred men went with the outfit. The destination of Twenty-three Omaha guests and eight the train was Onaga, Kan., where the mafrom out of town, as well as a large num ber of local club women, were disappointed work on the new line of road will begin In the failure of Mrs. W. W. Keysor to March 1. Onaga is about half way between reach Omaha in time to address yesterday afternoon's meeting of the Woman's club on "The Art at the St. Louis Exposition." The program of the afternoon was in charge of the club's art department, which PAPILLION, Feb. 6.—While working in his barn Scott Robinson, the well known horseman, was quite severely injured. Slipping down, he fell under the feet of one of his horses and was badly kicked and trampled upon. He will recover. proved equal to the occasion and provided an impromptu musical program, Mr. Fred Haynes singing two numbers and Miss Inez Crow playing two plano solos. Mrs LEIGH, Feb. 6.—Theodore Wenk, an aged and respected farmer of the Boheet neighborhood, six miles southwest of here, died last evening after a lingering illness. Deceased was one of the early settlers of Platte county. He leaves a widow and several children. W. C. Sunderland, leader of the department foresided.

The business meeting was extended half an hour over the usual time. The action of the club two weeks ago in making the eral children.

PLATTSMOUTH, Feb. 6.—Mary, the youngest child of Mr. and Mrs. Henry E. Snyder, died at the home of her parents in this city this morning after a short illness with pneumonia. The funeral services will be by Canon H. B. Burgess Wednesday afternoon. industrial committee of the social science department the industrial committee of the club was reconsidered on motion of its original mover, Mrs. E. B. Towle. The HUMBOLDT, Feb. 6.—The 364 acres belonging to the estate of Chris Rockemann, deceased, was sold by order of the court, the gross amount received being a little over 421,000. The land lies just across the line in Nemaha county and was purchased by the heirs. club already has a civics committee, but it was not generally understood that the province of this committee covered the club's industrial work. The action of the last meeting was finally rescinded and the club endorsed the work of the socialscience department and its committee in the effort to secure a juvenile court for

The recommendations of the state civil service reform committee, read before the club two weeks ago, were adopted, and in future the Omaha women will lend their influence toward the establishment of the merit system in public institutions. Two new members have qualified since the last meeting and one new name has been proposed for membership.

Mrs. C. E. Nevill of Laurel, Neb., chairman of the library extension committee of the state federation, was present, en route to Lincoln, where she will council with the state president regarding the advancement of the library extension work. She has recommended to the clubs of the state that they use their influence to secure \$2,000 increase in the appropriation for the state traveling library commission. The last legislature raised the appropriation to \$6,000, and it is desired that an additional \$2,000 be given to the commission. Mrs. Nevin also called attention to a bill now before the legislature providing for the appointment of a commission that shall select and present a silver service or some other suitable gift to the battleship Nebraska and that the sum of \$5,000 shall be given for that purpose. Mrs. Nevin urged the women to lend their influence to have county court house.

TABLE ROCK, Feb. 6.—The series of meetings at the Methodist Episcopal church which have been in progress for some time have been closed, although the afternoon cottage meetings will be continued. This evening evangelistic meetings will be commenced at the Presbyterian church. Rev. Dr. Sloan, the evangelist who has been conducting a series of meetings at Pawnee City, also at Humboldt, will assist at the meetings, and Mrs. Sloan will be present to assist in the singing.

PLATISMOUTH. Feb. 6.—James Hibbert. this gift a library instead of the silver service. It is argued that a library would benefit all on board the ship and the state library commission has offered to select the library and install it without expense to the state, estimating that \$3,500 will be a sufficient appropriation. The club refered action to its library committee, with the recommendation that it indorse the substitution of the library, for the silver to assist in the singing.

PLATTSMOUTH, Feb. 6.—James Hibbert, an old soldier, passed away last week. The deceased was born in Lancashire, England, December 2, 1825, and came to America with his parents when 3 years of age, the family settling in Kensington, Pa. Returning to Pennsylvania at the close of the war he became an invalid, the result of service in the war, and he was a constant sufferer until death relieved him. After living for a time in the east lowa became his home for eight years, when he and his daughter came to Nebraska and bought a home. His daughter nursed and cared for him tenderly during all these years of suffering.

PlATTSMOUTH, Feb. 6.—About one

The next business meeting of the club will be held in the lecture rooms of the First Congregational church, instead of the church auditorium. Announcement was made of the coming meeting of the Congress of Mothers at Washington, D. C., and a delegate to that meeting will be ap-

The following call has been issued for the annual meeting of the National Congress of Mothers:

and other nations.

An international day will include the consideration of conditions affecting children in other lands, and will be presented by foreign ambassadors.

President Roosevelt will address the congress, and a reception will be given by Mrs. Roosevelt at the White house.

"The Religious Training of the Child in the Home" will be the subject of the Sunday service, March 12. Clergymen throughout the country are earnestly requested to make this the keynote of their sermon on that date, that the thought and sentiment of the whole country may be centered on the spiritual welfare of the child.

Senator Fred T. Dubois of Idaho will be among the speakers of the congress, Other prominent men and women will be devoted to

prominent men and women will be on the program.

A number of sessions will be devoted to conferences of workers.

There will be a model nursery and an exhibition of literature recommended by the congress.

Visits to interesting points in Washington will be arranged.

Rooms can be secured at boarding houses and hotels from \$1.50 a day and upward. Anyone desiring accommodations will please communicate with Mrs. W. F. Holtsman. 1214 Twelfth street, Washington, D. C.

The headquarters of the congress will be Hotel Raleigh.

The congress is doing a great national work for childhood, and it strongly urges upon all women and all women's organizations to join in this movement. Mrs. Edwin C. Grice, corresponding secretary, 338 Arch street. Philadelphia, Pa.

The February business meeting of the Woman's Christian Temperance union will be held at 2:30 o'clock Wednesday afternoon in the Young Woman's Christian associa-

Singers and Public Speakers will find Piso's Cure an effectual cure for hoarseness.

Place for "Bat" Musterson. Place for "Hat" Masterson.

NEW YORK, Feb. 6.—United States
Marshal Henkel announced today that William B. Masterson, known as "Bat" Masterson, will be appointed a deputy United
States marshal for this district. Masterson
was town marshal of Dodge City, Kan.,
and sheriff of Ford county, in that state,
in the old "bad-man" days and made a
reputation for dealing with lawless characters with a stern hand.

# Endured Agonies from Stomach Trouble.

Steamship Officer Clay Afflicted With Chronic Constipation and Dyspepsia.

Tried Medicine in Vain, but Secured No Relief Until He Was Induced to Take Duffy's Pure Malt Whiskey.

Savannah, Ga., Oct. 7, 1904.

For a long time I suffered intensely trom what appeared to be a chronic case of stomach trouble, which was accompanied by all the pangs of indigestion, constipation and dyspesia. I tried different medicines in vain, and nothing did me any good until I was advised to take Duffy's Pure Malt Whiskey. The first bottle relieved my distress, and in a short time I was cured. I consider your Pure Malt Whiskey the best medicine in the world for all diseases of the stomach and digestive organs. OTIS J. CLAY.

**Duffy's Pure Malt Whiskey** 

For over half a century Duffy's Pure Mait Whiskey has been prescribed and recommended by doctors and used in hospitals as the most valuable aid in the treatment of patients suffering from weak and diseased stomachs. It purifies and enriches the blood, quickens the circulation, builds up new party muscle and brain the builds up new nerve, muscle and brain tis-builds up new nerve, muscle and brain tis-sue, and gives fresh vitality and power to every organ and function of the body. It is the only positive cure and preventive of pneumonia, consumption, grip, malaria, and all bowel, stomach, throat and lung troubles.

It is absolutely free from fusel oil, and is the only whiskey recognized by the Gov-ernment as a medicine.

The National Congress of Mothers will hold its eighth annual meeting in Washington, D. C., March 10-17, 1955. From March 1 to 18 the railroad rates from every part of the country will be one fare to Washington and return.

The program promises unusual features, and will relate to subjects of vital importance to the children and homes of this and other nations.

An international day will include the contant of the contant o application. Duffy Malt Whiskey Co.,
