WHEN IS COURT NOT A COURT

Question that interests Local Attorneys is Being Debated.

GORDON HELD NOT GUILTY OF CONTEMPT

Supreme Court Relieves Him of Penalty Because Judge Was Not on Bench When Blow Was Struck.

In a judge present in court when he has stepped into his private room during the hearing of a case, or if he is absent because his corporeal presence has been momentarily taken hence? If he is present, can he be summarily punished for contempt a person who assaults another in the sacred precincts of the court room without giving the assailant a chance to prepare a defense? And what is contempt, anyway? Can there be any contempt in a lower court that may be punished without delay if the judge did not have his eagle eye on the actual delivery of the blow?

BURNED OUT FIRM BUYS PLANT

Voegelé & Dinning to Take Over the Factory of the Omaha Candy Company.

Voegelé & Dinning, the confectionery jobbers and manufacturers, have bought out the Omaha Candy Company, as it is probably the former, but at the latter company it was said the transfer had not been made yet, but it was admitted the probability of the sale was very strong.

RECEPTION WAS CORDIAL

Mr. Fleming spent two days at the capital this week, and in addition to addressing the Congressional Revenue Committee, appeared before the revenue committee of the house and senate and urged certain amendments to the revenue law.

M'INTYRE SEEKS NEW TRIAL

Attorneys for Convicted Burglar Allege Misconduct on Part of Juror as Reason.

George McIntyre, through his attorneys, Messrs. Sidney Smith and J. W. Woodruff, has filed a motion for a new trial. He was convicted of burglary a few days ago, and alleges that one witness was allowed to testify improperly. But the most serious allegation is that one of the jurors in the case, James Brown, was in a state of intoxication on the morning of the last day of the trial, and that his condition and conduct makes the verdict null and void.

DOCTORS FOR MEN

A parent may transmit a weak sexual organism to his offspring, but it is usually the result of abuse, excess or overwork. Emissions, once established, have a tendency to increase. Day losses, waste in urine and marked sexual decline often follow together with a train of mental and physical symptoms, and the man passes from the boundaries of health into the confines of disease. He is nervous, easily confused, forgetful, forgetful, continually pessimistic, irritable, hates female society and would rather be alone. The symptoms of these diseases that so insidiously destroy the intellect, strength and very manhood secure the services of the eminent specialists connected with the State Medical Institute. They will stop these unnatural drains with their fertile results and restore to sound health the pitiable victims of nervous debility, brain fatigue and wrecked manhood.
