LINCOLN, Feb. 11 .- (Special Telegram.)-State Superintendent McBrien, in his advocacy of a new plan of distribution of the state common school fund, makes the interesting disclosure that the University of Nebraska, under the first levy from the new revenue law, gains \$106,320.92, while the common schools lose just \$51,746.78. Under the last levy of the old revenue law the the Missouri river in South Dakota at the university's portion was \$188,458.23 and under \$4,000, and at Springfield, \$25,000. This lives up to the declaration that its purpose is to afford the advantages of free education to all the youth of the state. Second-There are more than a dozen counties in the state without a good high school. H. R. 170 makes it possible for each of these counties to have at least one good high school. Third—It will place free high school privileges within the reach of every farmer boy and every farmer girl in the state. Every city, town, viliage and hamlet in the state would have opportunity to share in the benefits of such a measure. It would bridge the gulf now existing between the common school and the university. On a conservative estimate there would be at least 3,500 country boys and country girls taking advantage of the free high school privileges offered in this act. These boys and girls would be under the instruction of over 500 trained teachers. It would place at the disposal of the state \$2,500,000 in school buildings, grounds, apparatus, books, libraries for the education of this great army of young people in the higher duties of American citizenship.

Then there's no use trying. It's too late! Nothing in the world can make hair grow on a bald scalp that has been smooth and shiny for years. It's too late! No use trying now!

Or is this yours to the right?

Good. Only look out for dandruff! It leads straight to baldness. But there's use trying now, for Ayer's Hair Vigor cures dandruff, keeps the scalp clean and healthy, and checks falling hair.
