Election Held Necessary to Put Control of Association in Hands of Bowlers.

MANUFACTURERS OF SUPPLIES CONTROL

Local Men Said to Be Solely Responsible for Large Entry List at Present Tournament, with Little Ald from Association.

MILWAUKEE, Feb. 11,-(Special.)-"The time is ripe for the divorcing of the American Bowling congress and the manufacturers of bowling supplies, which have retarded the progress of the governing body of one of the greatest sports of the country long enough," said Charles F. Moll, a member of the Executive board of the American Bowling congress, president of the local National Tournament company, and a bowling leader of national reputation, yesterday. "Never before has there been a time when the bowlers of the country have had this opportunity, and now all that is necessary for them to do is to give their delegates to the coming congress to understand that they want them to vote for the individual membership plan, and for A. L. Langtry for secretary," continued Mr. Moll, "and if there is any question as to the truth of this in the minds of any of the bowlers let them note from what sources the opposition to the Milwaukee idea and to the election of Mr. Longtry come."

Mr. Moll is in a position to speak authoritatively, for he has been identified with bowling not only as a sport, but the politics of the American Bowling congress for a good many years, and for no other reason than his interest in the game, for he has devoted time and money to the sport without any other returns than the satisfaction of having always worked for its betterment. The present favorable conditions are due to the efforts of the few unselfish leaders of the sport, such as Mr. Moll, and it is now up to the bowlers themselves to take advantage of the situa-

Why Langtry is Favored Here. In Milwaukee and Wisconsin the individual membership plan and the candidacy of A. L. Langtry, which is one and the same thing, is favored for the following

It will take the American Bowling congress out of the control of the manufacturers and others who are interested in the sport for what they can make out of it. It will give the bowlers a personal interest in the American Bowling congress as well as its branches, the city associations, and give them stability. It will give the American Bowling congress a capable secretary, who can devote his time to the interests of the sport. It will serve to elevate the governing body of the sport to a plane that its popularity demands. ularity demands.

It will make every bowler contribute a like sum to the support of the American

It will make every bowler contribute a like sum to the support of the American Bowling congress.

It will bar bowlers who have never paid anything for the support of the American Bowling congress from taking part in national tournaments.

It will not permit fifty members of a club to bowl in the two men and individual events of a national tournament for the same dues as a club of five members.

The opponents of the individual membership plan have so far advanced but one argument worthy of consideration against it, which is that if the 50 cents annual dues is paid direct to the American Bowling congress bowlers would object to paying additional dues to support the city

Money for City Association. According to Mr. Langtry this can be remedied by an amendment to his proposed amendment to the constitution which shall amendment to the constitution which shall provide that in cities of 10,000 and upward the city associations through which the entry is made shall retain a certain percentage of the dues collected for the expenses of the local organization. If 20 per cent large second, Padua third. Time: the other in regard to the bill refer to secure title without reaches the state to secure the state to secure the state the local organization. If 20 per cent was held it would give these associations more money for expenses than they now get. The individual recognition of bowlers would give the local organizations a stability they do not possess, as they are now merely considered unnecessary adjuncts to the annual tournament and in most cases are revived just before the meet and are forgotten immediately after. Regardless of what may be said the city associations of the American Bowling congress, with one or two exceptions, are of mushroom character and will continue to be so except perhaps in Chicago, where the organization was held it would give these associations perhaps in Chicago, where the organization is kept up targely because of the political

power it can wield. Succeed Despite Rules.

One of the arguments advanced by the opposition to Secretary Langtry and his individual membership plan, and in defense of the existing club membership rule, is that the Milwaukee tournament conducted under the present rules will be the biggest thing in the way of bowling in the history of the sport. That the tournament will be n big success there is no doubt, but it will be in spite of rather than because of the provisions of the American Bowling congress. This result will have been accomplished only through the hardest of work on the part of the local managers, who when they found they were handicapped by the city association rule redoubled their efforts.

Except for the individual efforts of some members of the executive board in getting entries the local men received no help from the American bowling pagress and were forced to organize characteristics east and west, work that should have been done by others.

Secretary Karpf made a tour of the wes covering hundreds of miles of territory, and returned with wonderful stories of the good he had accomplished for the tournamen but he brought no entries and up to dat but two can be traced to his efforts.

If the club membership rule is such wise piece of legislation, why was it sur pended last year at Cleveland? has bee asked. The only reply is that it was don to prevent the failure of the national meet and if men of less energy had been doin the preliminary work in Milwaukee thi year it would have again been suspende and for the same reason. The fact is the certain officials of the American Bowling congress who are now praising the existing rules advised that the time for accepting registration with city associations be extended beyond the date set by the rules, but the local managers declined. They decided to observe the rules and made the tournament a success regardless of handicaps, and it is now amusing to have those who did little or nothing toward this result assume credit by saying that wise legisla-

Karpf Candidacy Expected. That Secretary Karpf has announced his candidacy for re-electoin is no surprise in Milwaukee, for it is understood that it means much to him. The constitution provides for a salary of \$500 a year for a secretary, which, with the expenses he collects from tournament companies when he is selling bowling supplies and incidentally soliciting entries for national meets is no small item. But the principal value of the job to him is that it enables him to make the American Bowling congress an adjunct

to the concern he represents. So long as the American Bowling congress is without funds to pay a secretary a fair salary Sam Karpf is secure in the position, as only men who can use the ich to further their business interests can afford to take it. It is, therefore, entirely natural that he should oppose the individual membership plan, A. L. Langtry and everything he represents. The opposition as well as that from all other forces, the

manufacturers can muster, is expected, but

MILWAUKEE FAVORS LANGTRY the local bowlers are prepared for it and Buck confidently believe that a victory for the bowlers over the commercial interests is in

> Strong pressure is being brought to bear on Chicago bowlers to have the delegates to the congress vote as a unit against the individual membership plan, but it is likely that there will be a split, for the commercial interests no longer have entire control, as they had in former years.

The story that Milwaukee wants the ournament in 1906 which was started in Chicago is now being used by Sam Karpf for campaign purposes. The Milwaukee bowling leaders have never given the 1906 tournament serious consideration. When a party of Chicago bowlers visited here last Sunday the remark was made that no city appeared to want the 1906 tournament. In a joking way A. L. Langtry said: Well, I presume we can run another one for them if they want us to do so," and this was practically all that was said on the subject. President Moll said yesterday: "If any desirable city wants the 1906 tournament our support can be counted upon."

EVENTS ON THE RUNNING TRACKS Good Attendance at Opening of City

Park Track at New Orleans, NEW ORLEANS, Feb. 11.—The opening of the meeting at the new City Fark race track (New Orleans Jockey club) took place today under weather conditions which were the worst seen in New Orleans for many years. A heavy rainfall began about midnight and throughout the day continued with increasing violence, accompanied by a falling temperature. By noon New Orleans and its surroundings was almost submerged. and its surroundings was almost submerged and the prospect everywhere was inexpres-sibly dreary. The attendance, considering the weather conditions, was surprisingly good and fourteen books did a good busi-ness Pagestre. less. Results:

SOUTHWEST IOWA WHIST LEAGUE Stateen Players Attend First Meeting

at Atlantic.

ATLANTIC CITY, Ia., Feb. II.—(Special Telegram.)—The first meeting of the Southwestern Iowa Whist league was held at Stiers hall in this city last night, sixteen players being present. The evening's playing opened with a pair match in which the score was as follows:

North and South-Points made: C. Block and Dr. Campbell, 259, plus 31½;
A. Block and Emerson, 249, plus 31½;
Crosiar and Prouty, 38, plus 1½; Bruington and Campbell, 259, minus 7½;
East and West-Wood and Niles, 250, plus 6½; Porterfield and Conrad, 278, plus 1½; Whippie and Shrock, 251, minus 12½.

Following the pair match Messre. Abe Block and Emerson, Porterfield and Conrad constituted the Atlantic team in a twenty-four-board contest against the Avoca-Harian team composed of Messre. Crystar and Prouty and Preston and True, in which the Atlantic team was successful by two points. by two points.

It was decided to hold the next meeting at Harlan, Ia., on Monday, Murch 6, at which time both an afternoon and evening session will be held.

Spotty Freeze has just bought a monkey, which he intends to place on the coaching line at Vinton Street park, and already has the little animal trained to throw his cap in the air and wave his front running gear. As soon as the Omaha team starts to practice Freeze will give the monkey a try-out and teach him to recognize a home run and other good plays when made by the home team, so that Joe (that's the monkey's name) will do the right thing at the right time. Joe will make his first public appearance in a day or so in the show window at base ball headquarters, Thirteenth and Farnam streets. Freeze Has a Pal.

New Polo Team.

The Gate City roller polo team, a new organization, will meet the Auditorium roller polo team tomorrow evening at the Auditorium. The new team is composed of the following players: H. Hart, half back; A. J. Tice, goal; E. Hosier, first rush; D. Hosier, second rush; A. Green leaf, center. Ready for the Season.

The first base ball team of the Nebraska School for the Deaf has been reorganized and will play any team in Omaha when the season opens. For particulars and dates address Clarence Pratt, manager, School for the Deaf, Omaha, Neb.

Oxford Wins Foot Ball Game. LONDON, Feb. 11. — Oxford won the thirty-second annual Inter-university association foot ball match at the Queen's club here this afternoon, beating Cambridge by two goals to one.

LEGISLATIVE GRIND AT PIERRE

Upper House Passes Life Insurance Bill by Five to One Vote.

PIERRE, S. D., Feb. 11 .- (Special Telegfam.)-The senate today, after slight discussion, passed the life insurance bill which has caused so much stir at several times, the bill passing by 35 to 7.

The senate made laws by passing house bills to make village marshals appointive and allowing joint stock companies to invest their surplus outside the state. The principal new senate bills presented were by the committee on state affairs

providing for meat inspection in cities and towns; by Hutchinson, providing penalty for false school census returns. The house session was principally a grind with the exception of a tilt between Brown of Sanborn on one side and Sutherland of Madison and Turner of Falk on

the other in regard to the bill requiring the state to secure title without reversionary clause to lands before spending any money for buildings on the same. The second conviction for petty larceny a penal offense; providing penalty for misrepresentation of physical condition for purpose of securing public aid; providing for the

sale of real estate by administrator when for the best interest of the estate; allowing the holders of liens a right of suit against real estate. The bill to reduce the minimum sentence for robbery was defeated. A long list of new house bills were presented, principal among which were by Kribs, tax ferret bill; by pure food committee to make the pure food commissioner a tester of liquors; by Brown of Brown,

allowing cities to acquire land for sewer purposes by condemnation; by the capitol building committee, a new capitol building bill which carries \$150,000 to be refunded through sales of building lands, and provide a commission composed of the governor, state treasurer, secretary of state, state auditor and state land com-The primary election supporters will be

gin to push their bill Monday and Coe I. Crawford will deliver a lecture on the question at the opera house on Monday night. Opponents to the bill will present at a caucus a bill as a substitute.

DEATH RECORD. Edward Winslow.

WASHINGTON, Feb. 11 .- Mr. Riddle, the American consul general at Cairo, cabled the State department today that Edward Winslow of New York City, had died there and that the body, accompanied by Mrs. soon as the president heard the news he directed that a cablegram be sent to the consul general, requesting him to offer every assistance possible to Mrs. Winslow in arranging for the shipment of the body. Mr. Winslow was an intimate friend of J. E. Roosevelt, a cousin of the president.

Mrs. J. B. McElroy. REDLANDS, Cal., Feb. 11.-Mrs. J. P. McElroy of Los Angeles, formerly of Philadelphia, died suddenly while filling an engagement as vocalist in a local theater. She was found dead in her dressing room when the call came for her appearance on the stage. Mrs. McElroy was well known, it is said, in the musical world in the east. She came to California only a short time ago. Morris Sharp.

WASHINGTON COURT HOUSE, O., Feb. 11.-Morris Sharp, former prohibition candidate for governor of Ohio, president of the Commercial bank, trustee of Ohio Wesleyan university, and worth about \$500,000, died today, aged 67 years. He received the largest vote of any prohibition candidate who ever ran in Ohio

HYMENEAL.

it-accept that gift? troubles-troubles that drugs can't cure. There is no neighborhood—no hamlet so remote-that has not instances of what about it. Liquozope has done. The cured ones friends are among them.

You will regret these days of waiting when you learn what Liquozone does, You will wish you had abandoned wrong nized value of Liquozone. Men have those results are indirect and nace methods and tried the right one sooner. Please ask about Liquozone today.

Not Medicine.

Liquozone is not made, like medicine, by compounding acids and drugs; nor is derived solely from gas, made in large and requires immense apparatus. At the end of two weeks, we get one cubic inch of Liquozone for each 1,250 cubic inches of gas used. The attainment of

condition—that even a well person feels any germ disease.

its instant benefit.

Two Million Dollars

Have been spent to make Liquozone known. We have bought the first bottle We will gladly buy the first bottle for and given it free to every sick one we But to germs it is certain destruction. learned of. The result is that one home and these facts are true of nothing else in five, the country over, has some one whom Liquozone has cured. These Liquozone is not unknown now-not homes are scattered everywhere. Your untried. It has cured millions of germ neighbors and friends live in some of them. If you will only ask what Liquozone does there are millions to tell you all due to germs or to the poisons which

And we paid \$100,000 for the simple are everywhere; doubtless some of your right to make Liquozone-the American cannot kill inside germs. rights. The rights in other countries

tested for years, through physicians medicine never cures. and hospitals in this country and others. Liquozone alone can destroy the cause We had it employed in every stage of these troubles. It goes wherever the every germ disease; in thousands of the blood goes, so that no germ can escape there any alcohol in it. Its virtues are most difficult cases obtainable. For two it. The results are almost inevitable. years, in many a disease called incur- Diseases which have resisted medicine part from the best oxygen producers. able, we proved that Liquozone did what for years yield at once to Liquozone. The process of making takes 14 days, medicine could not do. That was the "Incurable" diseases are cured by it. reason for its price.

### How Liquozone Cures.

The greatest value of Liquozone lies in the fact that it kills germs in the body | Asthma without killing the tissues, too. And no man knows another way to do it. Any and thus into the blood, a powerful, yet drug that kills germs is a poison, and it harmless germicide. And the product is cannot be taken internally. For that so helpful—so good for you under any reason, medicine is almost helpless in Liquozone is a germicide so certain

This is the product which in the past that we publish on every bottle an offer use in the treatment of germ diseases. Not kill. Yet it is not only harmless, but Peyer Gall Stone

s so well that he cannot be helped by it.

The reason is that germs are vege ables; and Liquozone—like an excess of escape is deadly to vegetal matter. To tables; and Liquozone-like an excess of oxygen-is deadly to vegetal matter. To the human body Liquozone is exhilarating, vitalizing, purifying-the most need the most helpful thing possible in existence.

#### Germ Diseases.

These are the known germ diseases germs create. These are the diseases to which medicine does not apply, for drugs

All that medicine can do for these have sold for proportionate sums. We troubles is to act as a tonic, aiding you can judge by results as to whether nized value of Liquozone. Men have those results are indirect and uncertain. never before paid such a price for any depending on the patient's condition.

### 50c Bottle Free.

If you need Liquozone, and have never used it, please send us the coupon below. We will then send you an order on a local druggist for a full-sized bottle-a 50c bottle-and will pay the druggist ourselves for it. This applies only to the first bottle, of course-to those who have never used it.

The acceptance of this offer places you under no obligations. We simply wish to convince you; to let the product itself show you what it can do. Then But you wish to continue.

This offer itself should convince you You want these results; you results. want to be well and to keep well. Then be fair enough to yourself to accept our offer today. Let us show you, at our expense, what this wonderful product means to you.

Liquozone costs 50c and \$1.

Cut Out This Coupon for this offer may not appear again. Fill out the blanks and mail it to the Liquozone Com-pany, 47-464 Wabsah Ave., Chicago.

If have never tried Liquozone, but if you will supply me a 50c bottle free I will take it.

Give full address-write plainly. Any physician or hospital not yet using Liquozone will be gladly supplied for a test.

## A SCIENTIFIC MEDICINE

Miss Nelson's dizzy headaches indicated a weakness in the female organism, a trouble that would be greatly aggravated by any exertion. That Wine of Cardui restored her health and strength so that she was able to resume her duties demonstrates how thoroughly Wine of Cardui

Without going to an expensive specialist, without local examinations or without a dangerous operation, Miss Nelson was cured by taking Wine of Cardui in the privacy of her own home. Over 1,500,000 sick women have been restored to health and strength by this natural tonic, and we have yet to hear of one case it has failed to benefit Wine of Cardui is a certain

cure. It is a medicine that you can depend on. Secure a bottle of Wine of Cardui from your druggist today. It only costs \$1.00 a bottle but it practically assures you health.

## WINE OF CARDU

I took Wine of Cardui some time ago for female weakness and a run down condition which was undermining my health. One of your booklets was left at our house and I read of what your Wine of Cardui had done for others who were suffering as I was, and I thought it would do no harm to try it and bought a bottle. I began taking it at once and soon began to feel much better. The dizzy, weak head-aches which had troubled me two or three times a week had disappeared, my pains each month gradually However, I still

diminished and I soon felt much stronger, so that I was able to resume my work.

continued to take Wine of Cardui until I finally felt in splendid health and never had an ache or pain. I am pleased with the results obtained from the use of

CONTROL OF STEAM VESSELS

House Passes a Number of Bills Relating to the Inspection Service.

SENATE PROCEEDS WITH SWAYNE CASE

Four Witnesses Examined on the Charge Affecting Judge's Failure to Reside in His District.

It provides into that body and sent to conference with-Slocum disaster the house today passed a that the young men when restored to the number of bills called up by Mr. Grosvenor, chairman of the house committee on merchant marine and fisheries, amending the laws relating to the steamboat inspection aminations. service and making far more rigid provision for the regulation and control of steam ves- | noon tomorow, the Sunday session to be sels. The amendments recommended by the | devoted to eulogies. Department of Commerce and Labor were sent to the house in the form of eight bills. Winslow, had been sent to New York. As Six of these were reported favorably by the committee and five of them passed today. Consideration of the bills provided for the alteration of the salary system for inspectors was prevented by the objection of Mr. Sheriey (Ky.).

Except for an effort by Mr. Livernash of to complements of crews, there were no 1900 Judge Swayne had not acquired a support to the rule, but it also will piedge controversies on the measures.

Revision of Inspection Rule. The bills amending the steamboat inspec tion service as they passed the house provide for an executive committee of the Board of Supervising Inspectors with power to amend the rules of the steamboat inspection service in the interim between the meeting of the full board, subject to the approval of the secretary of commerce and labor, make compulsory inspection once a year whether applied for by masters or owners or not. Exempt vessels out of commission and make inspectors' condemnation of defective equipment, give inspectors power to stop a vessel by a revocation of its certificate and provide an adequate statutory penalty for persons manufacturing or selling defective life saving appliances and fix the liability of term charterers, officers and directors of a corporation willfully or knowingly guilty of misconduct in the management of a vessel.

They provide also for the repeal of the existing provision of law requiring supervising inspectors to give bond. Assistant inspectors are added to those prohibited from having any pecuniary interest in vessels, and motor vessels over 1,500 tons are brought under the statutes. An alternative of suspension of license instead of revoca-tion is provided in case a licensed officer shall unreasonably refuse to serve. Provi-sion is made for an appeal in certain cases of revocation and for injecting fire extinguishing gas into holds as well as steam. Motor vessels other than steam on the Red as succeeded Chief Justice Ponce, who River of the North and the Mississippi yesterday was appointed by the Panaman river system are brought under the collission rules of those waters. Minor details in a number of instances are transferred from statute to regulation. The house also passed a number of minor

The following bills were passed: To extend the time for the commencement and completion of a bridge across the Missouri river at Pierre, S. D. To authorize Glia, Ariz, to issue \$40,000 in bonds. To provide for the acquirement of water rights in the Spokane river, along the southern boundary of the Spokane Indian

Authorizing the president to nominate and appoint William L. Patterson a sec-and lieutenant in the United States army. The house then entered upon considera tion of bills under the rule adopted earlier in the day. Among others, the bill au thorizing the president to appoint to the naval service three midshipmen who were called up. Mr. Brick (Ind.) offered as a substitute to the pending bill the one prepared by the Navy department and forwarded to congress with favorable recomgraduated, and they are to submit to ex-

proof to France. ROME. Feb. 11.-Although the bill before the French Chamber of Deputies providing for the separation of church and state in France is expected to pass, the Vatican authorities still hope to retain a hold ets France through the question of the protectorate of Catholics in the east. Negotiations on the subject took place at the end of 1900 and the beginning of 1901, when the sultan of Turkey, whose relations with France at that time were strained, informed the pope that he intended to accredit a representative to the Holy See. When Emperor William went to Jerusalem he urged the suitan to do so, and through Baren Hertland, who was sent on a special mission to Rome, tried to persuade the pope to accept the sultan's offer. Cardinal Rampolla, then papal secretary of state, is understood to have taken the ground were examined. All of them were from publican members who will be asked to that the action of the sultan was merely a move to displease France, so the pontiff

### SORESANDULGERS Six years ago I became afflicted with a VALDOSTA, GA., September, 1900. severe sore leg which continued to grow Swift Specific Co., Atlanta, Ga. worse, gradually, until the entire leg from the knee to the foot was one solid sore, which was very offensive. I spent me. Something like a rising came on

sore, which was very offensive. I spent over \$1,000.00 on two trips to Hot Springs, and various local physicians treated me to no purpose. I had about come to the conclusion to have my leg amputated when a friend induced me to try S. S. S., saying if I would take it constantly for a year and it did not benefit me he would pay for the medicine. I began to take your medicine, and in the short space of seven months it completely and thoroughly cured me. I consider S. S. S. the grandest medicine the world has ever known. My leg is a witness today as to what S. S. S. me. I began taking it and eight bottles cured me my foot.

will do when taken regularly. Box 245, Winona, Miss.

has ever known. My leg is a witness today as to what S. S. S. me. I began taking it and eight bottles cured me; my foot healed up nicely. I believe I would have been a cripple for Box 245, Winona, Miss.

J. B. Talbert.

Mrs. C. H. King.

A great running sore, or deep offensive ulcer may develop from a slight scratch, bruise or pimple—a harmless looking little boil or slightly swollen gland may soon be an ulcerating mass that will develop into a cancerous ulcer, dangerous and destructive. Middle aged and old people are the most frequent sufferers from old sores and chronic ulcers, but the young, even children, who have inherited weak constitutions or had them contaminated and tainted by Malaria, or other sickness, are afflicted in the same way. These chronic sores and ulcers are a constant drain on the system, sapping the vitality and strength. They depress the energy with their foul pollution, and are sure signs that the blood is charged with poisonous matters which in its weak, sluggish condition it is unable to throw off. Salves, washes, powders, etc., can never be of any permanent service in the treatment of sores and ulcers, because the trouble is not on the outside, but in the blood,

and as long as it circulates through the body in its impoverished and poisoned condition the trouble will grow worse. The need is a remedy that will cleanse the blood of all poisons and impurities, build it up from its weakened state, increase its vigor and strengthen the whole system. S. S. S. does this, and is the only blood purifier that does. Rich blood is carried to the diseased parts, which forms new tissues and allows the sore or ulcer to heal. It works with nature because of

its vegetable properties, and tones up every organ while effecting the cure. It brings a safe as well as a permanent cure, and is guaranteed entirely vegetable. Send for our special book on Sores and Ulcers, and write for any advice you wish. We make no charge for this.
