CONSOLIDATION IDEA SEEMS POPULAR

Fraternal Insurance Bills and the Shreck Local Option Measure Are Likely to Come Up During Week.

(From a Staff Correspondent.) LINCOLN, Feb. 12 .- (Special Telegram.)-

Senator Dimery of Seward county has put the Lancaster county delegation and lobby to a vast amount of trouble. He is the author of the bill providing for the consoldation of the Home for the Friendless at Lincoln with the Girls' Industrial Home at Milford, thus depriving Lincoln of one of its state institutions. And this bill has passed the senate.

The bill ought to get over to the house some time this week. Lincoln and Lancaster county people are straining every power to slay the bill in the lower branch of the legislature and they believe they will succeed. Whether they do or do not they have been put to one of the hardest tasks ever set before this baliwick of politicians. Obviously there is considerable sentiment for the bill in the house, but the other day the report of the house committee on public lands and buildings came in and it was observed that this report contained a recommendation for an appropriation for certain improvements at the Home for the Friendless-provided its location was not changed. This showed the committee was with Lincoln and Lancaster and thus far no one has openly taken exception to this part of the report.

Fight Over Insurance.

A persistent fight continues over fraternal and the Kyd-Shreck bill are pitted against each other. There ought to be some final action on these bills this week.

Mr. Thomas in speaking of Utah gives a very encouraging statement of the outagricultural wealth. Its mountains con-

tain gold, silver, lead, copper, iron, coal and other minerals. The soil of its valleys is very fertile. Its climate is not excelled by that of any portion of the great west. The mining industry is increasing annually, and the output of precious and other metals is placing Utah in the front

Crowd See Cuban Car Win.
HAVANA, Feb. 12.—The first international automobile race run in Cuba was won today by the car owned by a Cuban, E. K. Conill, and driven by a Cuban, Ernesto Carricaburn, defeating C. J. S. Miller's car, driven by Joseph Tracy, by 1:33%. Carricaburn's time, over the course, which was 29.36 miles, was 1:50:53% and his average per hour was 53.7 miles.
Today's race included only one stop, which was at San Cristobal, the turning point for the return. The favorite in today's race since Friday, when E. R. Thomas' ninety-horse power car was damaged, was O. F. Thomas' eighty horse power machine, driven by H. W. Fletcher. The latter, however, suffered a series of minor mishaps and returned a long way behind all the others.
President Palma and members of the cabinet and their families and various government officials were in the contral boxes. The announcements of time were telephoned from all the villages on the course as the racers dashed past and megaphoned in Spanish and English from the judges' stand.

Recapitulation of Facts.
First-Under our articles I was not to have any interest whatever in any business you might do in any of the departments on any land matters.
Becond-As a matter of fact, I never knew until now that any charges for any such services had been credited either to me or to the firm, or that my account had ever been credited with any part thereof, as I was never furnished with any statement of any bank account or of any charges whatever, and I have nothing to do with the book, nor did I see the same. You will remember several times I cautioned you not to mix me up in any way with any cash or checks, if you ever received any for service. Nor was I ever advised by you, or did I have any knowledge that any part of any such cash, or receipts was placed to the credit of our firm or myself. Now, judge, you will agree with me, I am sure, these are the facts, and I am also sure, whatever entires you made you never intended I should have any part of service. Nor was I ever any part of such cases or checks, if any, and that you intended that in some way in settling accounts between us no part of any such moneys or checks should be any other than your individual property. as the racers dashed past and megaphoned in Spanish and English from the judges' stand. The starters were ten minutes apart on the level. The racers swept down a mod-erate descent past the grandstand across a bridge and up a long hill beyond in plain sight. The returns were equally visible for a long distance, but the finishes were out of sight. The castward run to San Cris-tobal was 73%, kilometers and the return 80 kilometers, the 160 kilometers failing short of 100 miles by about two-thirds of a mile. Tracy started first, followed by Fletcher. Louis Marx' car, driven by Jo-seph Birk, Conli's car, driven by Garrica-burn, and R. B. Mendoza's machine, driven by H. A. Robinson, followed in the order named. The cars finished to the turning point at San Cristobal in the same order. Tracy made this distance in 51:22%, Robin-son in 1:17:01% and the others were scat-tered between. For the return the starts were made in the same order. Tracy cov-ered the return in 1:01:03%. At first it was believed he had won, but Carri-caburn, who started half 'an hour later than Tracy, covered the 100 miles a little over a minute and a half quicker. The fact that Carricaburn was gaining fast in coming in was megaphoned repeat-edly and when he sped down the long hill

contiguou land to the state if the legislature would appropriate sufficient funds to establish a teachers' normal there, efforts have been made to deny that such a thing ever was thought of. One of the university regents is quoted by a Lincoln paper as saying he never heard of a plan to establish a teachers' normal under the auspices of the university. For the benefit of this regent and who may not have, as yet, been others taken into the secret, it may be recalled that four years ago a similar proposition was submitted to the legislature. So that the matter is not a new one.

Four years ago, however, the promoters apparently had more hopes of securing the necessary appropriation from the legislature, for they did not make as big inducements as they do now. They then pro posed that the state buy this property; now they propose to give it to the state if the legislature will make the desired appropriation, the ultimate purpose being, as has been stated, to sell town lots in this Lincoln suburb and establish a prosperous colony there. Senator J. H. Mockett of Lancaster, who was speaker of the house two years ago and a member four years ago, might bring these uninformed persons to a realization that this proposition was "ever thought of."

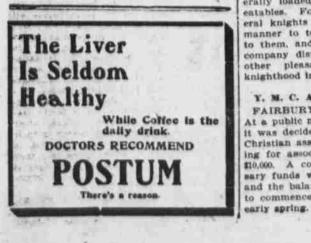

Mockett Tells of His Fight.

"Indeed, I have a very distinct recollec tion that such a proposition was offered to the legislature," said Senator Mockett to a correspondent for The Ece yesterday, 'for I introduced a bill in the house four wheih was calculated to peryears ago years ago which was circulated to perchase by the state of the old Western after edit the sheet. Oelschlager, pronounced the benediclearned just how strong it really was one day when, in the house, the report of the committee to which the bill was referred came back for the indefinite postponement of the bill. I was forced to believe the bill still could be passed and moved that the report of the committee be not concurred in and that the bill be ordered engrossed for the third reading. My motion went to a vote and it was then I discovered the wonderful popularity of the measure. Just eight others besides myself voted for the motion I had made, while the other ninety-one members took special delight

in voting against it. Since then I have not had much faith in this proposition to huy the property. Now, the idea is to donate the property. Well, I am afraid that even that would not carry, for, as everyone knows, the legislature seems imbuild with the idea of economy and already has turned down some proposed appropriations which really seemed like needful ones. But Lancaster's members will do all they can if this matter is urged."

Fun Ends in Frozen Fingers. A cocking main near Albright Saturday night served to draw a goodly number of the sports of Omaha. South Omaha, Coun-cil Bluffs and other suburbs. So interest-ing were the proceedings that the last street car had been put to bed before the meeting broke up. This did not dampen the ardor of a crowd of Omaha votaries of the pit, which contingent walked home in the cold gray dawn of the morning. Three of the party took a tack through Riverside park and lost their bearings. This triumvirate of poultry plungers reached home Sunday morning with a choice lot of frozen cars, fingers, noses and toes. They all swear, however, that the game was worth the candle.
