AFFAIRS AT SOUTH OMAHA

Council Lets Contract for Improvement of Missouri Avenue.

MURPHY GETS THE BIG JOB

Will Do the Grading and Paving and McGowan Will Put in the Arti-Scial Stone Curbing Needed.

After a lot of talk and at least a dozen bidders being present when the city councit met last night, only five bids for the paving, curbing and grading of Missouri avenue were listed. Hugh Murphy of Omaha was given the contract for the paving. His bid was \$1.90 per square yard for Purington block. Murphy also carried off the contract for excavating at 25 cents per cubic yard. J. M. McGowan will set the artificial stone curbing, his bid being 35 cents per lineal foot. Parks, Johnson & Parks bid 19 cents for the excavating, but the award went to Murphy at 25 cents. The mayor and councii was directed to enter into a contract with Hugh Murphy and J. M. McGowan for the work to be performed. This paying is supposed to commence as soon as the frost is out of the ground and the contractors will be expected to complete the work

in three months. The council voted unanimously to purchase the property at the southwest corner of Twenty-fifth and L streets for a site for a new fire hall. This property has a frontage of sixty feet on Twenty-fifth street and 150 feet on L street. The cfty agreed to pay \$3,500 for this property.

Arthur East bought \$600 of district No. 19 improvement bonds and \$800 of district No. 20 improvement bonds at par.

Wickham Bros. of Council Bluffs bought \$1.500 worth of bonds in districts Nos. 15 and 16, at 1 per cent premium.

Kiewet wants the smoke nuisance abated and the city attorney was instructed to investigate.

Adkins offered a motion, which was adopted, to instruct the city attorney to draft an ordinance for the funding of \$140,-600 5 per cent refunding bonds of the 1895 issue, to be refunded at 415 per cent.

The new dog ordinance and several sidewalk ordinances were introduced and referred to the judiciary committee.

School Board Matters. week's vacation is in store for the pupils of the High school. It was decided by the Board of Education last night to give teachers and pupils attending the High school a vacation of one week commencing on Monday, February 37. This is done for the purpose of giving Principal Graham and the teachers an opportunity of moving into the new High school build-The Intention now is to have the High school classes report at the new building on March 6. The formal opening will be held on March 17. Arrangements for this opening have not been completed but will be announced later.

Resolutions of sympathy were passed regarding the death of Mrs. C. A. McLean, mother of J. A. McLean, superintendent of schools, and copies of the resolutions will be sent the press and spread upon the minutes of the board. A contract for shades in the new High school building was entered into with the Hall Furniture company. The Nebraska Telephone company was awarded the contract for furnishing telephones in the new High school building. Another meeting will be held in a week to complete arrangements for the High school opening.

Contractor Driving Piles.

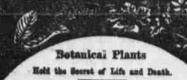

John Towle is the contractor having in new Updike elevator. So far twenty piles have been driven. W. S. King, chief en- Democratic City Central Committee. gineer of the stock yards company, said last night that it would take 850 piles to support the foundation of the elevator. With the present kind of weather about twenty-five piles can be knocked down in a day. With the frost coming out of the streets George Rahn will be the chairman. ground the work will progress more rap-

Material for the construction of the elevator is working through the mills now and will be here in time for the commencement of the building just as soon as the weather will permit.

Will Protect Emergency Hospital. As there seems to be some danger of rise in the Missouri river city officials are preparing to take steps to protect the emergency hospital at the foot of O street. This hospital is built on the sand and is practically isolated. Last year when the high water came the hospital steward and his family were compelled to move out as the water came within two inches of the door step. This year the city authorities will protect the hospital by placing sacks of sand around in the form of a dyke. The expense of this dyke will not be much as the sand is handy and the street force can do the work of filling and placing the sacks.

Snow Moving Nicely.

The thawing of snow is not causing any inconvenience so far. It was feared that cellars would be flooded and that there would be an awful time when the melting commenced. This trouble has been averted by the street department digging gutters and opening catch basing. A dozen or more men in the employ of the street department worked yesterday in clearing gut-

Recent experiments conducted by most minent scientists, prove that light is a great remedial agent; it is essentially Nature's agent. It may be either sun-light or electric light, but it has a delight or electric light, but it has a de-cided effect in helping nature to banish disease and restore health. Other scientific men have proved that oxygen electrifies the heart and can prolong life.

The people on this earth are susceptible to some laws which govern plant life. A plant cannot be successfully grown in the dark. 'A man is seldom healthy and strong who lives in the dark or in sunless rooms.

After all, Nature's ways are found to be the best. Nature's remedies are always best for eradicating disease, and by this we mean a medicine made of roots and herbs. mean a medicine made of roots and herba. They are assimilated in the stomach and taken up by the blood and are, therefore, the most potent means which can be employed for the regaining of lost health. Dr. R. V. Pierce, consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. V., in many years of extensive practice, found that he could pin his faith to an alterative extract of certain plants and roots for the cure of all blood diseases. This he called Dr. Pierce's Golden Medical Discovery. Containing no diseases. This he called Dr. Fierce of Golden Medical Discovery. Containing no alcohol nor narcotics, entirely vegetable, this "Discovery" makes rich red blood and this "Discovery" makes rich red blood and this Discovery makes fich red blood and is a powerful tissue builder, giving the tired business man or woman renewed strength and health. Rapidly growing school-girls and boys often show impoverished blood by the pimples or boils which appear on face or neck. To eradicate the poisons from the blood, and feed the heart, lungs and stomach on pure blood, nothing is so good as Dr. Pierce's Golden Medical Discovery.

Don't allow the dealer to insult your intelligence by offering his own blood remedy to you instead of this well-known preparation of Dr. Pierce's. Ten chances to one he will substitute a cheap compound having a large percentage of alcohol in it.

Dr. Pierce's Pellets are the best for the

ters and seeing that the catch basins were kept in good shape. There is a great deal of snow to come yet, but efforts will be made by the city officials to turn the charge the work of driving piles for the water so that there will be little if any Effort Being Made to Bring Two Classes Ask for a damage done.

A meeting of the democratic city central the office of P. C. Caldwell. It is understood that a chairman of the committee is to be selected. From reports on the Arrangements will be made by the committee for the school board primaries and some candidates who have signified their willingness to run will be considered.

There is some talk among the democrats of holding a mass meeting to select candidates. Col. C. M. Hunt said yesterday the candidates for positions.

Receipts Show Improvement. Receipts at the stock yards yesterday showed a big improvement over last week's small showing. The run of cattle was not as large as expected, but advices are that with good weather the receipts will be large this week all along the line. As compared with the same date last year cattle, hogs and sheep show a decrease in receipts. This is due largely to the storms and the fact that stockmen have not been able to get to market. The prediction is that from now on there will be a good market and increased receipts.

Local Merchants Pleased.

South Omaha merchants were please yesterday to see the snow piles diminish ing in front of their places of business Several merchants said that with a few days of higher temperature there would be an increase in business. A few farmers managed to get into the city on Saturday and bought supplies. More arrived yesterday and on Wednesday if the present condition of weather keeps up a big crowd is expected in. For bargain day on Wednesday the merchants are preparing a firstclass line of goods and the sales this day are expected to exceed those of former

Magie City Gossip.

The banks in South Omaha will be closed in Wednesday, Washington's birthday. Charles McLeod of Stanton, Neb., was visitor at the stock exchange yesterday. Richard Smith, who has been seriously li, was reported as somewhat improved ast night. Frank Thompson, Twenty-fourth and H streets, is laid up with a severe attack of heumatism. A meeting of the fire aid police com-nissioners will be held this evening at the ouncil chamber.

John F. Schlitz has returned from Ken-nard, Neb., where he spent a few days isting relatives. Mrs. A. T. Everett, Twenty-first and H etreets, has gone to Hastings to visit relatives for a few days.

Mrs. P. J. Burke of Duniap, Ia., is here visiting her daughter, Mrs. A. J. King, Twenty-fifth and M streets. T. B. McPherson, cashier of the Union tock Yards National bank, is in the west coking after business matters. Peter Mulialy, head hog driver for the omaha Packing company, is very low with heumonia. He is a patient at the South omaha hospital.

John Curran was out for a couple of hours yesterday after having been con-fined to his home for ten days with rheu-

Woman Gets Part of Bill.

Stella White, a colored woman living at 12:14½ Cass street, was arrested yesterday afternoon on a charge of larceny from the person of F. L. Ross who lives at Rawlins, Wyo., and who came to Cmaha a short time ago to see the sights of the city. Ross says he went into the resort of the White woman during the afternoon and while there she tried to rob him of a \$10 bill, but he caught her in the act and grabbed hold of the bill and attempted to take it away from her. In the scuffle the bill was torn in two, the woman getting the bigger portion of it. As he was unable to get possession of the money he left the house and journeyed to the police sistion and told his troubles to the policeman. Officer Shields places the woman under arrest and brought her to the station, but the bill or fragment of the bill was not found upon her person nor in her house.

CHURCH AND THE WORKMEN

Together in Omaha.

committee has been called for tonight at EXCHANGE OF DELEGATES IN OPERATION

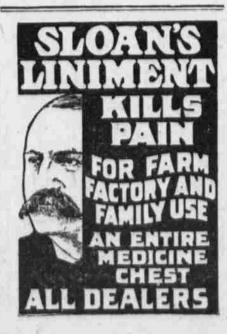

Central Labor Union and Ministeria Association Exchange with a View to Better Understanding of Problems.

For the first time members of the Central Labor Union sat as fraternal delegates in the weekly meeting of the Ministhat he thought such a meeting would be ter's association yesterday. They were Presheld about March 1. At the present time ident Louis V. Guye, Edward M. Birch the democrats seem to be at sea regarding and C. L. Burkett. In return the preachers elected their president, J. E. Hummon, Rev. E. Combie Smith and B. F. Fellman as delegates to the labor council. This condition was brought about by Rev. Charles Steizie, workingman's secretary of the Presbyterian Board of Missions, who is concerned in bringing the churches and the unionist closer together. Rev. Stelzle talked to the association about the measures needful to interest and help the work-

ingmen. Rev. B. F. Fellman of Grace Baptis church caused something of a sensation when he announced that in his epinion various branches of Christian work as now conducted, conflict, sometimes with a detrimental effect. He said that severa young men who would otherwise attend prayer meeting at his church would not do so this week on account of a Young Men's Christian association basket bal game. An arrangement so that the various mutual efforts would exert themselves without conflict was much to be desired, e said, and upon his motion it was decided to create a committee to take the natter in hand.

Labor Unions and the Church. Rev. Steizle congratulated the ministers on deciding to send delegates to the Centrai Labor Union. "The possibilities in the exchange of relations and sympathetic co-operation between the men in labor unions and the churches are big with hope," said he. "They are tremendous. Scarcely any great, broad movement along social lines in the cities cannot be ac- last evening at the city hall, with an exomplished by such a force. There has ceptionally large attendance. The purpose a great deal of misapprehension on both sides and one has been as much to Yule, president of the association, was to blame as the other. The labor- unions definitely decide whether the association have made mistakes, it is true, and few should go ahead with the means now in laboring men will not admit it, but has the hands of the association and select a not organized capital made mistakes and have not the churches?

'One of the chief phases of the question is the kind of a church that will most help the laboring man. Nearly all religious odies are making grave errors in sendinf adifferent men into the hearts of the
