LITTLE BISMARCK HELD UP

Equal to the Ocean and Lands the Man in Police Station.

LATER DECLINES TO PROSECUTE CASE

Chicago Man Who is Acquainted of Perjury Charge Re-arrested Before He Can Get Over the State Boundary.

(From a Staff Correspondent.)

LINCOLN, Feb. 23.—(Special Telegram.)—Judge William Alstadt, Omaha's best known justice of the peace, the man who overruled the supreme court without the quiver of an eyelash, is a hero in Lincoln. He has been through the trying ordeal of being held up. He has braved his attempted robber before the bar of justice and then his big heart beat against his little body and he refused to prosecute. Little Bismarck was idling away a few minutes Tuesday night looking at the tall buildings and the electric lights, dreaming of the time perhaps when he might sit in the big state house as the chief justice of the state.

Something grabbed him. Bismarck shot out his strong but short right and brought to the earth a would-be robber. Then as fast as he could work his vocal organs he called for the police and the man was hauled off to jail. Today before Judge Congro the man said he was drunk—he knew he was drunk, but he denied that he ever tried to hold up the law embodied in Judge Alstadt. The judge had the time of his life in Lincoln and was satisfied to let the man go free. Bismarck has gone back to the metropolis.

Decker Has More Trouble.

John P. Decker, of Chicago, who secured a divorce from his wife several months ago and which divorce was declared void by Judge Holmes, was this morning acquitted on a charge of perjury and as he was getting out of Lancaster county was arrested and taken from a train at Hawkwood on a charge of contempt. He is now out under bond.

Decker's divorce was declared void because it was proven that Decker was a resident of another state when the decree was granted. Decker was arrested on a charge of perjury because he swore that he had resided in Chicago when he was proceeding to file his application. He was acquitted of the perjury charge because the court held it had no jurisdiction in the divorce. He was arrested on a charge of contempt, it being held that he had deceived the court to secure the divorce.

Fine Cattle on Show.

CAMBRIDGE, Neb., Feb. 23.—(Special Telegram.)—The Farmers' Institute and Stock show was held at this place today. There was a good attendance. In the stock show Messrs. Bros. had the prize winning Herefords, Thomas Andrews and Son their Shorthorns, E. N. and A. L. Allen Herefords and J. P. Thuman hogs and cattle. Colonel John Proud had a fine steer on exhibition, as well as others. It was a fine show of fine stock, well worth going to see.

Prof. H. R. Smith selected the profitable traits of the cow, and gave an address on the dairy herd; T. G. Ferguson on soil tillage and potato growing; C. M. Brown of this place gave a very interesting address in the evening. Local talent furnished the music. This was a big day for Cambridge, for the farmers, and for the stockmen of this section of the country.

Dr. Chittenden Goes to Missouri.

KEARNEY, Neb., Feb. 23.—(Special Telegram.)—Dr. E. P. Chittenden, founder of the Kearney Military academy, will assume the presidency of the Clinton Military academy at Clinton, Mo., entering upon the management of that institution beginning next September. Dr. Chittenden will remove to Clinton during the summer and will devote the period between now and September to the interests of the institution.

QUESTIONS RAILROAD RETURNS

Illinois Senator Offers Motion for Investigation of St. Louis Terminal Railway Association.

SPRINGFIELD, Ill., Feb. 23.—J. E. Bartley today in the senate introduced a motion calling for the appointment of a committee by the president of the senate to investigate the charge that the Terminal Railway association of St. Louis has not made true returns for assessment to the State Board of Equalization of its tracks in this state.

The committee on investigation shall have the power to subpoena and compel the attendance of witnesses, to send for documents and papers and provide for the appointment of a competent engineer to measure, if necessary, the tracks of the company. Senator Bartley asked that it be made a special order for next Tuesday.

GLOWING TRIBUTE OF TWO CONFEDERATE VETERANS

Col. S. B. Arbuckle, of the Jackson Cavalry of Tennessee, and Col. P. B. Whittle, of the Army of Northern Virginia, Who Suffered All Kinds of Hardships, say Duffy's Pure Malt Whiskey Has Restored Their Shattered Nerves.

COL. S. B. ARBUCKLE.

Thousands, Both Men and Women Have Had Similar Experiences With the Great Tonic Stimulant, Which is a Form of Food Already Digested.

Col. S. B. Arbuckle, 136 3d St., Memphis, Tenn., says: "I can recommend Duffy's Pure Malt Whiskey as the best stimulant I have ever used. Some years ago I was run down and my nerves were all unstrung. I was advised to take a tonic stimulant. I tried several that did not do me any good. My doctor prescribed Duffy's. After using one bottle I could see that it was doing me good. I am in good health today and feel that it is due to your Pure Malt Whiskey."

South Hill P. O. Va., June 18, 1904.

Dear Sirs—I am an old Confederate soldier of the Army of Northern Virginia; was Colonel of the Thirty-eighth Regiment of Infantry of Pickett's Division; will be seventy-six the 20th of this month; lost an arm at the battle of Malvern Hill and was shot through the other arm and thigh in the charge of Pickett's Division at Gettysburg. After the war I suffered for nearly thirty years with chronic trouble of the bowels, having frequently ten to fifteen operations daily, which at times incapacitated me for any business and confined me to my bed. I tried a bottle of your Malt Whiskey with wonderful effect. It helped my digestion, gave me a fine appetite, a delightful restful sleep. I consider it an invaluable medicine for many complaints, particularly beneficial, as in my case, for chronic trouble of the bowels, and take pleasure in recommending it for the complaints it is known to benefit.

Respectfully,
Col. Powhatan B. Whittle.

They Admit They Owe to Duffy's Pure Malt Whiskey Their Wonderful Restoration to Health, Strength and Vigorous Manhood.

Duffy's Pure Malt Whiskey is an absolutely pure, gentle, invigorating tonic, stimulant and blood purifier, which brings into action all the vital forces and builds up health, strength and vigor of body, mind, nerve and muscle. CONFERENCE ON ARMY BILL

Joint Committee Effects an Agreement on All Points of Difference.

SENATE RECESSES FROM FOUR AMENDMENTS AND HOUSE ACCEPTS TWENTY-SEVEN GENERAL MILLS NOT AFFECTED.

WASHINGTON, Feb. 23.—The conference on the army appropriation bill today perfected an agreement which covers all points of difference. The amendment regarded as most important is that affecting the pay of retired officers and involving the full pay of a lieutenant general. The effect of the agreement as to General Miles is to give him his full retired pay, without reference to any compensation he may receive for services on the staff of the governor of Massachusetts. The provision agreed on reads:

"That retired officers of the army above the grade of major hereafter or hereafter assigned to active duty shall hereafter receive their full retired pay, and shall receive no further pay or allowance from the United States; provided, further, that a colonel of infantry, colonel of engineers or captain of artillery, who has received the grade of a major on the active list:

Of the thirty-one amendments in the bill in conference the senate recedes from four and the house accepts the others. Of the four which go out of the bill, two are slight increases in amounts, and two cover a provision that no army posts shall be established without the consent of the secretary of war.

Increases Naval Appropriation.

The naval appropriation bill, as agreed upon by the senate committee today, carries \$100,826,960, an increase of \$42,550 over the house bill. For increasing the number of petty officers and men of the marine corps \$38,000 is added.

The limit of cost of each of the colliers and scout cruisers, authorized by the last naval appropriation bill, are increased to \$1,650,000 and \$2,000,000, respectively. The limit of cost of the sailing training vessels authorized by the act of March 3, 1904, is increased to \$100,000 each.

A provision was inserted authorizing the secretary of the navy to bring suit for the purpose of obtaining judicial determina-

tion of the validity of United States patents covering a process for treating armor plate, known as the Harvey process.

Railroads Lose Fruit Rate Cases.

The Interstate Commerce commission, in an opinion by Commissioner Clements, today rendered its decision in the California orange cases brought by the Southern California Fruit exchanges and the Consett dated Forwarding company against the Southern Pacific and the Atchison, Topeka & Santa Fe railway systems, in which it holds that the defendant carriers are unlawfully engaged in pooling the traffic in oranges originating in Southern California and carried by them and their connections to eastern markets.

The decision also holds that the defendants, by compelling the shippers to pay freight charges as established by the carriers, have made such charges a part of the cost of transportation and subject to regulation under the law, and that the rate on oranges in carloads from Southern California to points on and east of the Missouri river is unreasonable and unjust.

The rate on lemons is held to be reasonable and present refrigerating charges are held to be not unreasonable.

Chadwick Gets Not Smuggled.

Collector of Customs C. F. Leach of Cleveland was at the Treasury department today and reported to Secretary Shaw that his inquiries at the New York customs house tended to show that the emeralds which once belonged to Mrs. Chadwick and which now are in the possession of the controller of the currency were not smuggled into the country, as was suspected.

HOUSE RESOLUTION IS AMENDED

Committee on Indian Affairs Makes Changes at Request of Hitchcock.

WASHINGTON, Feb. 23.—The House committee on Indian affairs today drafted a substitute for the secretary of the interior regarding the Foster lease, which once belonged to Mrs. Chadwick and which now is in the possession of the controller of the currency were not smuggled into the country, as was suspected.

The language of the substitute is that the secretary of the interior is hereby requested to furnish the lease in convenient form a copy of the lease to the attorney James H. Light, principal chief of the Osage nation of Indians, and Edwin B. Foster on March 15, 1905, and a copy of the departmental approval thereof; also a copy of all forms of subclasses which have been submitted to the interior department and approved, and a list of all subclasses which have been submitted to the department and which have not been approved, and also all documents and correspondence pertaining thereto.

The draft of the inquiry was made on suggestion in the committee that the Stephens resolutions contained inquiries into matters which the house had no right to ask of any department secretary and also that its original form would make it subject to a point in the house and prevent its adoption.

FISH TALKS OF FREIGHT LAWS

Head of Illinois Central Calls Attention to Holdings of Stocks.

WASHINGTON, Feb. 23.—Eugene Fish, president of the Illinois Central railroad, read a statement today before the senate committee on interstate commerce, which has the railroad rate bills under consideration. Several members of the committee desired Mr. Fish to discuss the subject of differentials, and he consented to return to Washington at some time convenient to the committee and give his views. Mr. Fish gave an exhaustive review of the changes that "railroad security" has undergone in various parts of the country, calling attention particularly to that a great majority of stock is held in the United States, whereas a number of years ago it was held abroad.

Discussing the Eech-Townsend bill, he devoted considerable time to the subject of the practical as well as the constitutional difficulties that would be encountered by the interstate commerce commission if it attempted to arbitrarily fix railroad rates according to the authority given it by the bill.

ORIGINAL BILL IS NOW LOST

Anti-Gambling Law of Missouri May Be Nullified by This Fact.

ST. LOUIS, Feb. 23.—A special to the Post-Dispatch from Jefferson City, Mo., says that the original draft of the Godfrey anti-pool bill, the substitute for which was adopted Tuesday by the house of representatives, has disappeared from the office of the chief clerk.

As the substitute is based on the original bill, in the nature of an amendment, the action of the house in passing the bill, which prohibits all betting on horse races in the state becomes null and leaves the Breeder's law just as it stands on the statute books.

JEFFERSON CITY, Mo., Feb. 23.—The house committee appointed to investigate the disappearance of the original breeder law repeal bill tonight reported that it had been unable to find the bill and had come to the conclusion that it had been stolen. The substitute bill, found by the committee, is declared by Representative Godfrey, who introduced the original bill, to be a forgery.

The committee will make a report to the house tomorrow and will endeavor to discover the party or parties who caused the bill to disappear. A new bill will be introduced in the senate tomorrow. It is stated to take place of the lost bill.

WITNESS TAKEN FROM STAND

Attack Government's Witnesses.

Other witnesses testifying for the defense were William Odell, a butcher of Homer; C. J. O'Connor, a banker and merchant; W. F. Winge, an implement dealer; Louis Schmitt, a farmer, and Daniel Purdy, constable and town marshal of Homer, all of whom testified that the reputation of Featherlegs and Orr is bad. Purdy admitted that he is the father-in-law of Harry Rasmell. He had been before a number of federal grand juries to testify in bootlegging cases, but had never testified before a grand jury that Featherlegs was a bootlegger. He admitted that he had been ordered to arrest Featherlegs on the charge of bootlegging, but that he "didn't do it, nor he didn't intend to do it." Questioned as to the veracity of George Rice, he said, "I have never seen him, nor has his reputation been bad, for 'Richie' cheated me out of \$4 or \$5 once."

The witnesses all admitted that they had heard that Featherlegs was by reputation a bootlegger, and that he was a bad man. An adjournment was taken to 9 o'clock this morning.

Warrant for Snyder's Arrest.

The formal warrant for the arrest of Alva Snyder for perjury was served last evening and he was taken to the county jail. During the afternoon he remained in the custody of the United States marshal at the federal building. He was very anxious to be released from custody on bond, but no bail has yet been fixed for him.

Messrs. T. J. Mahoney and A. W. Jeffers, who were appointed by Judge Munger to look into the case and ascertain who had been tampering with the witness Snyder, were engaged most of the afternoon on the work.

In the meanwhile Snyder was not permitted to see or converse with anyone by order of the judge. After the close of the trial last evening Snyder sent for Mr. Summers and positively reiterated his statement made before the jury Thursday morning.

He declined to make any further statement to District Attorney Baxter, and

TOOK A STRAW VOTE

Investigating Experiment in a Restaurant.

An advertising agent, representing a prominent New York magazine, while on a recent western trip, was dining one evening in a Pittsburg restaurant.

While waiting for his order he glanced over his newspaper and noticed the advertisement of a well-known dyspepsia preparation, Stuart's Dyspepsia Tablets.

As he himself was a regular user of the tablets, he began speculating as to how many of the other traveling men in the restaurant were also friends of the popular remedy for indigestion.

He says: "I counted twenty-three men at the tables and in the hotel office; I took the trouble to interview them and was surprised to learn that nine of the twenty-three made a practice of taking one or two of Stuart's Dyspepsia Tablets after each meal."

One of them told me he had suffered so much from stomach trouble that at one time he had been obliged to quit the road, but since using Stuart's Dyspepsia Tablets had been entirely free from indigestion, but he confined their use, especially while traveling, on account of irregularity in meals and because like all traveling men he was often obliged to eat what he could get and not always what he wanted.

Another, who looked the picture of health, said he never ate a meal without taking a Stuart Tablet afterward because he could eat what he pleased and when he pleased without fear of a sleepless night or any other trouble.

Still another used them because he was subject to gas on stomach, causing pressure on heart and lungs, shortness of breath and distress in chest, which he no longer experienced since using the tablets regularly."

Another claimed that Stuart's Dyspepsia Tablets was the only safe remedy he had ever found for sour stomach and acidity. He had formerly used common soda to relieve the trouble, but the tablets were much better and safer to use.

After smoking, drinking or other excess which weakens the digestive organs, nothing restores the stomach to a healthy, wholesome condition so effectively as Stuart's Tablets.

Stuart's Dyspepsia Tablets contain the natural digestive pepsin, diastase, which every weak stomach lacks, as well as sucrhydrastin and yellow perilla, and can be safely relied on as a radical cure for every form of poor digestion. Sold by druggists everywhere.

After outlining the events leading up to the Japanese-Chinese war of ten years ago and the present war, in which Russia was pictured as greedy, unfair and vindictive, the lecturer elaborated the thought that in every aspect Japan is richer and greater today than she ever before. This he held will arrive to the great benefit of the United States, for while Russia is our greatest rival in the markets for oil, wheat and flour, lumber and cotton goods, Japan's manufactures and exports are along entirely different lines, in which we do not compete.

The significance of a Japanese victory in the present war would be all to the good for this country, said Mr. Okajima, and to be with this land in all things, he said, was the cherished ambition of his people.

Japan's friends need have no fear of her ability to finance the war to a successful conclusion, for, thanks to her friends in the United States and other countries, her exports have doubled since the war began, and as most of these, like tea, silk and matches, are manufactured by women there will be all the men needed to go to the front at all times.
