The surmises to explain the movements were operplexed as to under movement were the influences were on the aide of doubt and depression. This was the case in the railroad list at large, where profitaking on an enormous scale and uneasiness aroused by the sensational movement weigh the buying.

The southern fron group was again the sensational feature and it was during the most violent ebuilition in those stocks that the general list was most inclined to sell of the control effective sustaining influence, but that stock also was unfavorably affected at times by the rocket-like flights of the iron stocks. Union Pacific recovered all of lits 2 per cent dividend, which came off today, and allowing for that made a new high record. St. Paul was most immediately in sympathy with it, although the southwesterns were helped to some extent. The buoyancy of the southern stocks caused an advance in the southern railroad group, but was of no assistance otherwise to prices. Rumors and assertions as to the sage reached in outhern fron stocks were arrious and many of them conflicting. The convulsive movements in those stocks, reaching many points between transactions, were of a kind which are usually made only under distress and extreme necessity, such as are caused by a corner with an uncovered short interest. The extreme advances over Tuesday's prices shown by these stocks during the day will tell the same reached in the sum of 195 lin International Power, a stock which is held in memory on account of a sensational episode on the Stock exchange a number of years ago and which is affiliated to the present movement in the southern iron stocks by the identity of some of the active factors in the movement. market could be quoted as steady to strong, with trading fairly active. Anything, though, at all desirable sold at good, strong prices, with the commoner kinds steady. The quality of the offerings as a whole was for some time past.

The cow market if anything showed more improvement than did steers. Buyers all seemed to be anxious for supplies and as a result they were liberal buyers, and it took but a comparatively short time for everything in sight to change hands. The market could safely be quoted strong to a dime higher, the more desirable grades showing grades shough, changed hands without difficulty at a little better prices than were paid yesterday.

The market on bulls, veal calves and stags could be quoted steady to strong. Choice veals are now selling as high as 56, which is the highest prices paid in some time past.

Quite a little improvement has been noticed the last few days in the demand for lightweight stock cattle of good quality. Speculators have had a good many of that class on hand, for which the demand has been very limited, but the last day or two quite freely. The few cattle that arrived today sold at fully steady prices, whether they were light or beavy, and some of the

Quite a little improvement has been noticed the last few days in the demand for lightweight stock cattle of good quality. Speculators have had a good many of that class on hand, for which the demand has been very limited, but the last day or two country buyers have been picking them up quite freely. The few cattle that arrived today sold at fully steady prices, whether they were light or heavy, and some of the more desirable grades may have been a little stronger. Representative sales:

Coffee Market.

NEW YORK, Feb. 23.—COFFEE—Market opened unchanged to 19 points higher in response to firmer European markets and rather smaller primary receipts. There was very active liquidation, however, owing probably to fear of notices tomorrow, which will be the first day for March tenders, and the market after the opening ruled active and very weak, with offerings more or less general and probably for both long and short account. The buyers on the decline seemed to be substantial interests who took the near months thrown over by the frightened longs and sold the latter positions, but the close was at practically the lowest point, or a net decline of 15025 points. Sales reported of 483,000 bags, including March, 6.4566,80c; April, 6.75c; May, 6.8067,06c; July, 8,9067,25c; September, 7,45c; October, 7,55c, Probably 20,000 bags of the business reported with the nature of switches.
