### WHAT CUTICURA DOES FOR WOMEN

Too much stress cannot be placed on the great value of Cuticura Soap, Ointment, and Pills in the antisep-tic cleansing of the mucous sur-faces, and of the blood and circulating fluids, thus affording pure, sweet, and economical local and constitutional treatment for weakening ulcerations, inflammations, itchings, irritations, relaxations, displacements, pains, and irregularities peculiar to females. Hence the Cuticura remedies have a wonderful influence in restoring health, strength, and beauty to weary women, who have been prematurely aged and invalided by these distressing ailments, as well as such sympa-thetic afflictions as anæmia, chlorosis,

hysteria, and nervousness. Women from the very first have fully appreciated the purity and sweet-ness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy which have made Cuticura the standard humour rem-edy of the civilized world

Two fusion members and one republican, Jones of Polk, Hunker of Cuming and McLeod of Stanton, started out to cut salarles and at about 4:10, after precipitating a fight on every item they touched and causing several changes. Jones made a motion to reconsider the action by which these changes were effected, Hunker and McLeod supporting the motion,

The pathologist of Lincoln's asylum had his annual salary raised from \$1,200 to \$1,511. and the committee inserted the item of \$30,-000 for the biennium for six supreme court commissioners provided for in a separate bill and \$10,800 for their stenographers. Lee made a gallant fight for his motion, This is the only bill which has come be fore this house with a request from union labor," he asserted. "The laboring man who forms such a large and important part of our population and interests asks very little at the hands of this legislature. Certainly we can afford to grant his request, especially when it is so sane and reasonable. This is a good bill. It ought to be passed. It simply asks that union labor

Perry of Furnas opposed the motion, contending that, while he favored union labor, he could see that this bill, if enacted into law, would do a great injury to the state penitentiary, and therefore to the taxpayers of the state in discriminating against the goods made there as in favor of those goods made at the penitentiaries of other states. He declared that no state ever had passed such a bill and that until such a law was uniform among the states it would hurt Nebraska to have one.

Mr. Speaker-60

A little fly-up came about over the Omaha Water board bill, H. R. 8, which came back from the senate with the amendments tacked on over there. Clarke of Douglas moved for the passage of the bill with the amendments and then there was some quiet talking between him, the speaker and Reading Clerk Barnard, and as Rouse walked from his chair to allow the house to again resolve itself into committee of the whole he remarked the motion was withdrawn. That was Clarke's motion, but it had all been done so quietly that Lee and other members did not hear or know what was going on. Lee jumped up and called for an explanation, thinking some snap judgment had been taken, but was satisfied with the explanation that the amendments had not come over from the senate with the bill, which was irregular. Therefore the bill and amend-

ments were not acted on today. These are the remaining bills introduced n the house yesterday:

ONE OF DR. CUPID'S PRESCRIPTIONS.

That Love sometimes cures disease is a fact that has recently been called to the attention of the public by a prominent physician and college professor. In some nervous diseases of women, such as hysteria, this physician gives instances where women were put in a pleasant frame of mind, were made happy by falling in love, and in consequence were cured of their nervous troubles—the weak, nervous system toned and stimulated by little Dr. Cupid—became strong and vigorous, almost without their knowledge. Many a woman is nervous and irritable, feels dragged down and worn out, for no reason that she can think of. She may be ever so much in love, but Dr. Cupid fails to cure her. In ninety nine per cent. of these cases it is the womanly organism which requires attention; the weak back, dizzy requires attention; the weak back, dizzy spells and black circles about the eyes, are only symptoms. Go to the source of the trouble and correct the irregularities, the drains on the womanly system and the drains on the womanly system and the other symptoms disappear. So sure of it is the World's Diapensary Medical Associa-tion, proprietors of Dr. Pierce's Pavorite Prescription, that they offer a \$500 reward for women who cannot be cured of leucorrhea, female weakness, prolapsus, or fall-ing of the womb. All they ask is a fair and reasonable trial of their means of cure. Dr. Pierce's Pleasant Pellets clear the complexion and sweeten the breath, they cleanse and regulate the stomach, liver and howels and produce permanent benefit and do not react on the system. Busy in State Court.

Owing to the fact that Attorney A. W. Jefferis is employed in the trial of the Von Haller murder case in Judge Day's court, the preliminary hearing of Alva Snyder on the charge of perjury before United States Commissioner Anderson has been continued for several days. Snyder has been bound over to the United States grand jury in the sum of \$2,000 and is still in the county jail. It now begins to look as if he may not be given a preliminary hearing, as he had already confessed to the act of perjury in open court. The investigation into the causes which brought about the change in Snyder's testimony and his subsequent recantation of his perjured testimony and reiteration of estimony given by him on his direct examination is still going on, with the prospect of producing some sensational devel-Leaseholders Must Pay.
