1.-Dr. Jordan, president of Stanford university, said today: The sudden death of Mrs. Stanford has come as a great shock to all of us. She has been so brave and strong that we hoped for her return well rested and that her last look on earth might be on her beloved Palo Alto. But it was a joy to her to have been spared so long-to have lived to see the work of her husband's life and herself firmly established. Hers has been a life of most perfect devotion to her own and her husband's ideals. If in the years we knew her she ever had a selfish feeling no one ever detected it. All her thoughts were of the university and of the way to make it effective for wisdom and righteousness. No one outside the university can understand the difficulties in her way in the final es-tablishment of the university and her patient deeds of self-sacrifice can be known only to these who saw them from day to day. Some day the world may understand a part of this. It will then know her for the wisest as well as the most generous friend of learning in our time. It will know her as the most loyal and most devoted of wives, who did always the best that she could do. Wise, devoted, steadfast, prudent, patient and just, every good word we can use was hers by right.
