THE SIGN OF THE

PICTURE MAKING this year is SIMP-LER than it was last year. There is no halt in the Photographic procession. NEW and SIMPLE METHODS are daily invented to displace old and difficult ones. OLD THEORIES are UPSET at every turn of the calender. So RAPID has been the PROGRESS that the worker of a few years ago would fail utterly to understand how simple processes of the present day are possible.

Have you noticed how this great store grows and grows? Have you noticed how the carpenters have been working day and night since New Years day? How extra floor space—at the cost of closing the huge lightwell in the center of store—has had to be secured?

What does it all mean? It means that we are determined to maintain retail leadership around us. Bennett pioneered Omaba's new retail center, and we're here "with the goods."
