meat diet.

Like the sewage of cities it is contaminating.

It is the work of the kidneys to elimnate this poison from the system as rapidly as formed. When, however, the kidneys have become weakened or diseased there is an accumulation of urfe acid that poisons the blood. In coursing through the body the urfe acid settles in the joints and causes articular—joint—rheumatism; it attacks the lower part of the back and produces lumbago, it affects the delicate membrahe covering the scintic nerve and the result is scialica—they are all rheumatism. Uric acid is the father of all rheumatism no matter where located or by what name it may be called.

noid is the father of all rheumatism no matter where located or by what name it may be called.

JOHN S. WILSON, 43 Schuyler St., Albany, N. Y., writes:—"About six years ago I was a martyr to frequent attacks of inflammatory rheumatism in my feet and hip joints. Often had to give up work for five or six weeks at a time. I tried prescriptions by the dozen, one after another, and some would-be sure cures from different friends. None seemed to do me any good. At last fortune caused me to visit an old friend of mine who I knew at one time suffered as I did. He told me what Warner's Safe Cure had done for him. He had about half a bottle left over and I took it home and began to take it as directed. By the time I had finished I found a little relief. I got a bottle and continued taking the remedy until I had used up three bottles. I was so encouraged that I kept on taking it for two months after, when I was entirely cured and have had absolutely no rheumatism since. I always keep a bottle in the house and recommend it to all I hear complaining as I did."

WARNER'S SAFE CURE is purely vegetable and contains no harmful drugs. It is is free from sediment and pleasant to take. It is prescribed and used by doctors themselves in the leading hospitals as the only absolute cure for all forms of disease of the kidneys, bladder and blood.

Warner's Safe Cure is what you need. At any drug store, two sizes, 50 cents and \$1.00 a bottle. Write Warner's Safe Cure Co., Rockester, N. Y., for free medical book. Warner's Safe Pills move the bowels gently and ald a speedy cure.

The first case to come up was that of notified. Aside from the \$600 worth of goods Del Titterington, who was jointly charged taken from the Donlphan store other goods with Lee Case of stealing cattle belonging to one Jones. These defendants were engaged in the butcher business to- days. A watch was set and in the night gether at Sutherland, and the manner of two men approached the barn. The watchthe arrests and the various escapes of Lee Case have been told some time ago. The trial of Del Titterington occupied nearly all of the week, and its chief sensation was Lee Case pleading guilty to cattle stealing and then turning state's evidence against Titterington. Case testified as to how they had together stolen the cattle and butchered them. This was a hard blow to the defense, which was conducted by Judge Gray, a prominent attorney of Missouri, and the firm of Beeler & Muldoon of this city. Evidence, more or less conflicting. was given to the jury, the defendant himself taking the stand and denying that he was in the neighborhood when the crime was committed. After being out one night and one day the jury was discharged be- ! cause it could not agree. From the minute the jurors went out until they returned they stood six for conviction and six for

The case of the State against Markee also charged with stealing cattle, was taken ip while the jury was out in the Titterington case, and after the submission of evidence and the arguments by counsel the case was given to the jury, who likewise had a tussle, and it is rumored that at times the voting would run as high as eleven for conviction and one for acquittal, and then cleven for acquittal and one for conviction. Yesterday the jury was discharged because it could not agree, and a new trial will probably be had.

The case of the State against Del Titterington, on information of George Bentley, charging conversion of cattle by bailee has been begun. This is another one of the several stealing cases brought against Titterington. If this case does not win, the former will be tried again.

LIVING TOO HASTILY **AMERICAN WOMEN BREAK DOWN**

Irregularities and Female Derange-ments Result – Oured by Lydia E. Pinkham's Vegetable Compound.

Owing to our mode and manner of living, and the nervous haste of every woman to accomplish just so much each day, it is said that there is not

one woman in twenty-five but what suffers with some derangement of the female organism, and this is the secret of so many unhappy homes.

No woman can be amiable, light-hearted and happy, a joy to her hus-band and children, and perform the duties incumbent upon her, when she is suffering with backache, headache, nervousness, sleeplessness, bearing, down pains, displacement of the womb, spinal weakness or ovarian troubles

Irritability and snappy retorts take the place of pleasantness, and all sunis driven out of the home, and lives are wrecked by woman's great enemy—womb trouble.

Dear Mrs. Pinkham:—

"I was troubled for eight years with irregularities which broke down my health and brought on extreme nervousness and despondency. Lydis E. Pinkham's Vegetable Compound proved to be the only medicine which belped me. Day by day I improved in health while taking it until I was entirely cured. I can attend to my social and household duties and thoroughly enjoy life once more, as Lydia E. Pinkham's Vegetable Compound has made me a well woman, without an ache or a pain."

—Mrs. Chester Curry, 42 Saratoga Street, East Boston, Mass.

SAN FRANCISCO, March 7 .- The Call publishes a dispatch from Honolulu, which says that the reason for the failure of the chemists to make their report last night of the analysis of Mrs. Stanford's stomach cara capsules, one of which Mrs. Stanford took at the same time she took the bicarbonate of soda on the night of her death, also contained strychnine.

The chemists had finished the analysis of all organs of the body when they were unexpectedly called on to test the cascara capsules. These were kept by Miss Berner. She gave one to Mrs. Stanford at the same time the dose of bicarbonate of sods was prepared. On being analyzed the cascara were

found to contain nux vomica, or strychnine. The apparent difficulty of determining which might have caused death placed the chemists in a peculiar predicament. Miss Berner, when questioned about these capsules, explained that they were prescribed many years ago by a San Franisco physician. She had had it made over and over again. One of the component parts of the capsule was poison. Jerome B. Stanford, nephew of the late Senator Stanford, denies the statement that he intended to contest Mrs. Stanford's
