LOCAL GRAINTRADE GROWING

Receipts and Shipments from Omaha Show Satisfactory Increase.

RESTORATION OF RATES ENLIVERS 'CHANGE

Firms Are Now Buying in Country and Receipts Are Mostly Sold Before Reaching the Elevators.

The restoration of the corn rates will have a livening effect on the floor of the Omaha Grain exchange. While the low rates in effect until April 1 cause heavy shipments of grain from Nebraska to the eastern seaboard and to the gulf, they have the effect of decreasing business about the sample tables. The grain houses are busy in the state buying grain to ship on the low rates, and the competition is so close they are working within onefourth of the limit in some cases. The half-cent which operates on grain sold on the exchange sample tables would be a bar in this case. Most of the grain is already sold before it reaches Omaha, and is only inspected here and shipped forward to the point of consignment.

Receipts during the last month have been good and the Omaha market will average up well with any of them, considering its position as the youngest market in the country. A very much larger amount of grain is handled in Omaha now than two years ago. Most of the grain firms and slevator companies now doing business here were then in operation, but they are now receiving grain from points which did not then come into the Omaha market. This is largely due to the readjustment of rates by the which the railways leading into this city so changed their tariffs as to satisfy local operators. Grain is now received here from lows and from South Dakota, which states never contributed to swell the volume of Omaha grain business before last year. Kansas points also send in grain here, which was a thing of rare occurence two years ago.

Omaha Actual Transactions. During the week closed Saturday, and in fact for a number of weeks, business about the sample tables at the exchange has been very light. The speculative situation is such that the exchange has at present very little market in futures. The change in the regulations which made Chicago warehouse receipts receivable has not been appreciated by the speculators. In cash grain the months of January and February are usually what are called dull months. For those reasons the cash sales in the exchange this week have been confined to one car of No. 3 spring wheat, one car of No. 4 hard winter wheat, one car of No. 2 corn, three cars of No. 3 corn and two cars of No. 3 outs. In a week Omaha has received 940 cars of

grain. Of this total 62 cars were wheat. In the same period Omaha was surpassed by the other markets. Duluth received 88 cars, Chicago 148 cars, St. Louis 314 cars, Kansas City 410 cars and Minneapolis 1,661 cars. It should be remembered that Minneapolis and Duluth do not re ceive enough corn or oats to make any showing. In oats Omaha passed the two northern cities and almost equaled Kansas City. The cars were 139 against 144 for Kansas City, 319 for St. Louis and 1,282 for Chicago. Corn is the principal grain handled in Omaha and the number of cars received for the last seven days is 739 This makes Omaha the second point in the United States for corn, at least during this period. Minnenpolis and Duluth and Milwaukee do not receive much corn. St. Louis in seven days reports but 259 cars and Kansas City 356 cars. This leaves only Chicago with more cars, 2,687. When the rates are restored the receipts at Chicago will fall off sharply, for before the rate slashing they were nowhere nearly so large as they have been since. Omaha seems to be holding its own on receipts of corn and oats with Kansas City, which has had a market for a number of years.

CABBAGE HOLDS THE STAGE New Heads Are Scarce, but the Older Ones Come Easy at Lower

Figures.

Some of the Colorado potatoes that are noted for their plainsman's eyes have been sent out to rubber for the new California cabbages, but there is nothing coming in from that quarter yet. The young cabbage ball susually roll in about this time and are expected any minute. An immense amount of old cabbage is on the market. They were buried on the Wisconsin farms and are now being dug up and forwarded to destination. The regulation boiled post mortem being performed at the boarding houses is by no means the expensive and highfalutin affair it was a year ago. The cabbage is cheaper than it has been for years—the jobbing price being 11/2 cents a pound now, against the 31/2 to 4 cents reached at one time last year. The cabbages nevertheless seem to sell slowly. They are mostly the sort grown from the Holland seed and are great sauerkraut stock. The kraut, by the way, has been little slow this winter itself, selling with seeming reluctance.

The vegetable and fruit market is expected to loosen up in about a week. Next Wednesday ought to see a little of the succulent green here. The spring vegetables have been writing on now for several days to secure rooms, and it is believed the effect of the cold wave is about to wear off. The young New Orleans beets have been here for some time and have been received in a very warm manner. The tomatoes are doing the best they can-but that is not too much. They come here from Florida via Chicago and have a certain air of being chilled and sore about something.

Nothing seems to matter with the imported garlic. It is jobbed at 10 or 125 cents the year around. The impression that it grows in braided strings on the trees is erroneous. But it is always tidled up that way before being imported for this market. It is a warranted cure for a cold, but it does not seem to have done the other vegetables any good. The domestic garlic sells at 5 or 6 cents less a pound than does the imported. The artistic and finished odor of foreign-grown vegetable is heavily taxed in the customs house.

This Week's Skating. The coming week will be a busy one at the Auditorium. There will be skating every afternoon and evening except Friday and on Tuesday and Thursday evenings there will be exciting races. Ladles will be admitted free every afternoon. There will be band music for the skaters every night and on Thursday afternoon for

ALL SAINTS BUILDING PLANS New Parish House Stimulates Activity in Direction of New Church

for Parish.

All Saints Episcopal church, at Twentysixth and Dewey avenue, has a new \$15,000 parish house and is considering whether or not to go on and build a new church. The parish house is to be known as the Wattles Memorial, and the announcement has just been made of its donation to the parish by Mr. and Mrs. G. W. Wattles. For its erection the old church will have to be moved.

The parish lately finished the completion of a \$19,000 rectory south of the church to replace one burned. The house now donated by Mr. and Mrs. Wattles will be built of light pressed brick and Bedford stone trimmings, to correspond to the architecture of the rectory. It will be 40x60 feet in ground area and will stand two stories in height. The parish house will be a home for the various church clubs and auxiliaries and for other meet-

ngs. The memorial house is to be built where is now the chancel of the church, at the northeast corner of the lot. The architect is now making plans for the structure and it will be put up as soon as possible. In order to make room for the new building the present church, which is a long frame building, without any architectural pretensions, will be swung to the rear or west end of the lot and placed so it will stand facing north. The people of the parish have for a long time looked forward to was in Fort Riley, Kan, at the maneuvers. the building of a new church and the sentiment is now strong for it. A committee consisting of J. S. Brady, A. C. Smith and C. J. Ernst has been appointed to look over the situation and see what can army officers finally dismissed the woman be done. They will consult with the architect and report to the vestry as soon as possible. The idea is for the three buildings to stand so that they may be seen from Farnam, with the tower of the new church at the center of the picture.

BUILDING BOOM OPENS OUT Issuance of Permits Portends a Real Busy Season for Omaha

Builders.

Like the buds on the trees the 1906 building boom is bursting forth and the city has issued nearly fifty permits already in March for new houses. Belle King is Saved from Suicide by Prompt Action of a Doctor.

Miss Belle King, who rooms at the Mar-

tin flats, 1702 Weyster street, became tired of life Friday, and about 7:30 in the evening drank a quantity of a mixture con- various other concerns. taining chloroform and laudanum. She had bought the medicine for toothache in the afternoon, and at the supper hour, being left alone in her room, she drank it. Dr. Cummings was called in as soon as her condition was discovered and her life was saved by the stomach pump. Miss King is 16 years of age. She left the home of her parents at 1602 Burt street, about two weeks ago, and they did not know where she was until notified of her attempt at suicide. The parents came to the room while she was recovering from the effects of the poison and said that they would induce her to return home.

The motion for a new trial in the case of Sherman Ennis and Edward Luikhart, convicted of conspiracy in the sale of liquor to Indians while engaged in the sale of liquor to Indians while engaged in the sale on business at Homer, Neb, has been filed by their attorneys in the United States district court. The arguments on the motion will be made Monday. March 13. Assistant United States District Attorney Rush appearing for the government. W. S. Summers, attorney for the convicted saleonists, will argue the motion for a new trial.

Isaac B. Robinson, a commission broker of Lincoin, Neb., has filed his voluntary petition in bankruptcy in the United States district court. He schedules his liabilities at \$2,29.68, and his assets at \$1,080.31. Federal Court Notes.

KIRKMAN AND MRS. CHANDLER Relations Between the Two No toriously Scandalous According to Stories Now Being Told.

The refusal of the War department au thorities to accept the resignation of Captain Kirkman, implicated in the recent suicide in Omaha of Mrs. Bessie Chandler, the wife of a fellow officer, promises to bring out fuller facts bearing on the unfortunate affair which have thus far been covered up. Captain Kirkman is now under trial by court-martial, the hearing having been interrupted to await evidence from the Philippines. Some of the testimony already given is gradually coming out from Valentine and Fort Niobrara, where the court-martial sat. The condition of affairs revealed became notorious last August, while Lieutenant Chandler Witnesses testified that in his absence Captain Kirkman and Mrs. Chandler were together a great many times under circumstances so flagrantly improper that the from the fort.

Captain Kirkman secured a leave of absence, followed her to Omaha and there secured another extension of time. They went to New York together and registered at the Fifth Avenue hotel as Mr. and Mrs Chandler. There Kirkman overstayed his leave thirty days, was placed in a hospital for treatment for excessive alcoholic drinking, and it was there that Lieutenant Chandler discovered his wife. After an interview in her room at the hotel he sent to Valentine, where he started divorce pro-

ceedings. Kirkman came back in arrest, though not in custody, after having been examined den are leading in the advance and have Fort Jay, Brooklyn. It was thought he just taken out permits for four new houses might be insane, but the commission reand promise several more next week for turned papers showing him to be in his a new addition they have opened just right mind. When he reached Fort Nio-January 7, in arrest he was dibrara.

from him. His plea has been insanity. He was allowed his freedom to gather such testimony nue; Hastings & Heyden, \$3,000 frame as he may in his defense. The reason the court-martial did not decide on his case two \$3,000 frame dwellings at Twentieth and was that he wanttd depositions from two Miami; one \$2,500 frame dwelling at Twen- physicians in the Philippines, one of them ty-fourth and Maple; J. P. White, \$1,600 Dr. Schocke, who treated him several years rame dwelling at Twenty-ninth and ago for excessive use of liquor. These depositions probably will be on hand for

the resumption of the trial May 10. Kirkman's relations with Mrs. Chandler are not the only charges against his conduct as an officer. It was testified that he had passed many checks which were protested, but many of which were later paid. One was a check on a Remington typewriter agency, a saloon or two in Omaha, the Her Grand hotel, a photographer, the Wells-Fargo bank of San Francisco and

REED GOES TO SIOUX CITY First Assistant at Omaha Become Chief of the Weather Bureau Station There.

Charles H. Reed, who has been chief assistant in the office of the Omaha weather bureau at the federal building for the last five years, has been promoted to the position of chief observer at the weather bureau station at Sloux City. The change will probably take place about May 1 or earlier. Mr. Reed came to the Omaha office in 1900 from Columbus, O., having previously been on duty at the Pittsburg (Pa.) station. He is spoken of in the highest terms by his chief, Forecaster L. A. Welsh, who regards Mr. Reed as very efficient

and trustworthy. The Sioux City station is regarded as one of the important ones in the west, and Mr. Reed will have one assistant at that post. The successor of Mr. Reed in the Omaha office has not yet been definitely decided upon. Mr. Millard B. Robbins will now become first assistant in the office for the present and until Mr. Reed's permanent successor is announced. Mr. Robbins has been connected with the weather bureau

SOLOMON GOES IN AS DEPUTY

Force in County Auditor's Office Completed by Election of Two More Employes.

At its meeting Saturday morning the Board of County Commissioners passed a resolution, offered by Commissioner Trainor, naming Emmet Solomon as deputy county auditor and A. B. Farrar of South Omaha as clerk in the same office. Tho matter of salary was not touched upon in the resolution, but it is understood that

this will be satisfactorily adjusted later. The board, after an executive session in what is queerly called "committee of the We wish to announce to those who at- whole," passed a resolution in opposition to House Roll No. 35, which would give to an official known as state engineer the supervision of bridge plans and specifications. At the same time the board approved Senate File No. 8, which gives to the county surveyor, as county engineer the right to approve or disapprove plans and specifications for new bridge structures easy selection. We will be better prepared The Douglas county board is for home rule to attend to your wants in every way. A in this matter, such as has prevailed in Douglas county for the last two or three years.

From the committee on roads and bridges came the report that lumber is on the ground for repairing and putting into shape the washed out spans of the pile bridge at Valley. It is planned to start work or these repairs Monday and get the bridge in shape for travel as soon as possible.

Rip-rapping has been started at Elk City to save the approach to the \$13,000 bridge at that point, the most expensive structure of the kind in the county. The river has been threatening to put this bridge off on an island all by its lonesomeness-to sort of Chadwick a costly steel bridge-and the commissioners have determined to use Marshal Oyama's tactics and outflank the
