Remedies

THIS WEEK

Mme. Yale has been here and gone, but she has left behind her a wealth of beauty that every woman may possess by following her scientific methods. The beautiful object lesson Mme. Yale presents on the occasions of her personal visits is both convincing and inspiring.

BEAUTY BARGAINS

Mme. Yale has most graciously sent us a generous supply of "Skin Food" for free distribution to those who purchase her remedies during this present week. A sample jar containing \$1 worth of the original and only genuine "Skin Food" will be given with each '90 purchase.

WONDER OF WONDERS

The wonderful things that Mme. Yale's scientific discoveries have done and are constantly doing for women is beyond belief. Whenever Mme. Yale's system is well established in a community pretty girls and beautiful women invariably predominate by a large majority. We shall continue carrying a full line of Mme. Yale's remedies for the benefit and accommodation of our worthy patrons. Mme. Yale's specialties are so great in number it would take too much newspaper space to publish the descriptive matter concerning them all, therefore we shall confine our remarks to a few of the leaders.

Mme. Yale's Almond Blossom Complexion Cream

A skin luxury that nothing has equaled or can ever eclipse, dainty as a delicate illy, sweet as a fragrant rose. Its most precious value lies in the glorious results from its use. Mme. Yale's Almond Blossom Cream restores normal childlike beauty to the skin. A trial will convince even the most specifical. Now is an opportune time to use it. March winds and chilly bleak weather plays havoc with the skin. Mme. Yale's Cream cures chapped, rough skin over night. Use it and see the lilles and roses bloom on your faces. Two sizes; price 46c, 79c.

Mme. Yale's Hair Tonic

This extraordinary hair tonic promotes the most luxuriant growth of hair possible consistent with the laws of nature. We certainly have good and sufficient reasons for recommending it. Mms. Yale's Hair Tonic supplies the hair and scalp with their lacking elements, stimulates circulation of blood and live coloring matter, awakens new life throughout the capillary structure.

CURES DANDRUFF-STOPS HAIR FALLING

Mme. Yale's Hair Tonic cures dandruff, that deadly, filthy scalp disease that the majority of people tolerate. A few applications of Mme. Yale's Hair Tonic stops hair from falling, the rapidity of its action is simply wonderful.

Greatest Hair Grower

The marvelous increase of hair from the use of Mme. Yale's Hair Tonic is one of its strongest characteristics. Men, women and children alike may share in its glorious benefits. Pure as morning dew, clean and clear as crystal. Does not stain or cause any discomfort, is not greasy nor sticky, 3 sizes, 23c, 43c, 79c.

Mme. Yale's Skin Food

This wonderful skin specific is Mme. Yale's treatment for rejuvenating the countenance and for the removal of wrinkles. It softens and nourishes dry, harsh skin, supplies the sebacious giands and tiesues with sustaining nourishing food. It tones weak facial nerves, strengthens drooping muscles and brings about a complete revolution to the torpid condition, eliminates from the countenance all disfiguring grimaces produced by age and facial abuse. Two sizes; price \$1.25, \$2.00.

C. VINCENT. Commander-in-Chief Coming

Commander-in-Chief Wilmon W. Blackmar of the Grand Army of the Republic of Boston, Mass., has sent out the announcement that he will be present at the department encampment of the Grand Army of the Republic of Nebraska at Grand Island in May.

An effort will be made by the three Grand Army posts of Omaha to have the national commander stop in Omaha enroute to Grand Island. Following the department encampment at Grand Island, National Commander Blackmar will make a tour of the west, visiting department and district Grand Army gatherings to waken up the

proper enthusiasm for the national encamp-ment at Denver in August.

Board of Trade Dividend.

At a meeting of the directors of the Omaha Board of Trade yesterday a dividend of \$12.50 a share was declared, payable April 1. This is the second dividend this year, the first, on January 1, being \$20. Aside from declaring the dividend the directors transacted no business of importance.

There is a reason, and the best kind of a reason, why Ayer's Hair Vigor makes the hair grow long and heavy.

It is a hair-food. It feeds the hair and makes it healthy and strong.

Vicious Dog Ordinance Passed and Quite a Bit of Other Interesting Business Disposed of at

Meeting.

The city council last night did a lot of routine business and adjourned until the next regular meeting night, March 30. Mayor Koutsky presided and all members

were present. There were two bidders for the laying of permanent sidewalks for the ensuing year. Gus Hammell and Parks, Johnson & Parks. The Omaha contractor bid, 14 cents per square foot for artificial stone and 111/2 cents for brick. The Parks bid was a cent higher on stone and I cents higher on brick and the contract was awarded to the Omaha man. This means the laying of sidewalk which private property owners do not put down after due notice and which the city attends to. It will mean several thousand dollars during the coming year.

Ordinance 1342, known as the vicious dog ordinance, was passed. This ordinance is sweeping, as applying to the restraint and disposition of vicious dogs. It provides a penalty against the owner of such-animals and makes their harboring a misdemeaner. It also provides for the muzzling and shooting of such dogs under certain circum-

Frank Clark, August Turner and John Johns all had personal damage claims against the city. The Johns claim was reported adversely. The same was done with the claim of Hans Limburg. Later on, it was decided to give Johns \$25 to pay for his board while he was laid up.

On the strength of a petition filed against the maintenance of the alleged nulsance known as the "dump" near the Omaha Packing company, north of Q street, Member Klewit sprung a resolution having for its purpose the abolition of the dump or the prosecution of those responsible for it. The contract for the curbing of Missouri avenue as let to J. C. McGowan a week ago was approved as signed by the contractor.

At a recent meeting of the executive comnittee of the lowa Federation of Women's ident, Mrs. T. J. Fletcher at Marshalltown, new boundaries were established for the district federations. In the past the congressional divisions were used, but this proved too unequal a division of club interests, and at the executive meeting held last September the districts were made to conform to those recently adopted by the State Bankers' association. But this plan is scarcel, more satisfactory than the original one and at the Marshalltown meeting the state was redistricted as follows according to counties with a view to better equalizing the strength of the districts and the Waterloo convention will be asked to ratify the change:

OTHER WORLDS.

Our sole knowledge of the peo-ple on other worlds and how far the people there differ from our inhabitants, can only be guessed by comparison with animal nature on this small sphere of ours. More important to us is a knowledge of ourselves. "Know Thysill.?" was an old Greek thought. How to take care of one's own body is not so simple as some think; the human mechanism is a wonderful thing and requires watching.

One man who has done more to teach the American people how to care for their bodies than almost any other, is Dr. R. V. Pierce, of Buffalo, N. V., the Author of the "Common Sense Medical Adviser." He says: It is not the quantity of the food eaten which produces strength and health (for some people can keep strong on a very meagre diet), but it is how much food is absorbed and assimilated by the blood and meagre diet), but it is how much food is absorbed and assimilated by the blood and carried to nourish every organ of the body. It is, therefore, vitally necessary for the body that the stomach be in a healthy state. If disease if the stomach, or what is called "stomach trouble," prevents proper nutrition then the heart, liver, lungs, and kidneys do not get proper food—they are not fed on rich red blood, and in consequence, begin to show signs of distress. Outwardly these signs may be pimples and eruptions on skin, pale face, sleepless nights, tired, languid feelings, or, by reason of the nerves not being fed on pure blood, they become starved, and we receive a marning in the pain we call neuralgia. Rheumatism, too, is a blood disease. After years of practice and study Dr. Pierce found that an Alterative Extract, which he named "Dr. Pierce's Golden Medical Discovery," made from the extracts of several plants, invariably produced a tonic effect upon the system. It helped the process of the blood, as well as eliminated the poisons from the system. the blood, as well from the system.

PLANS ARE' FULLY DECIDED UPON NOW

Catholics of the Omaha Diocese to Have Structure that Will Be Unique Among Its Kind in United States.

The foundations for the new Catholic cathedral to stand at Fortieth and Burt streets will be put in this summer. Bids will be called for in a short time by Architect Thomas R. Kimball, who has been instructed to prepare the specifications and to call for bids. The bids will be for the excavating and the stone work, which will both be done by the firm getting the con tract. Work is to be begun in the latter part of April. The contracts now to be let will bring the foundations up to the level of the floor, but no further.

The beginning of work was authorized at a recent meeting at which Bishop Scannell presided and Father Colaneri, Count Creighton, Frank Burkley, T. C. Byrne and C. J. Smyth were present. The committee after careful examination of the plans approved the general drawings. The cathedral will be a unique structure in this part of the United States, and it is probable no building of as high a type of eccleciastical architecture has been attempted between Chicago and the Pacific coast.

True to Type. "The general drawings for the cathedral, which have been the object of continual study for three years, have been approved. said Mr. Kimball. "In regard to the building little has not already been published in the papers. For the benefit of those who Ordinance is Amended to Allow the catine, Scott.

Completely surrounding this portion of the building is a wide ambulatorium joined by means of the narthex at the west entrance. The vistas presented by the long side aisles are closed with altars toward the east. A secondary entrance gives access to the church on the north side from Burt street at the point usually occupied by one arm of a transept. From this entrance one reaches a large chapel which will be built as part of the main ties, under which will be placed, temporarily at least, the heating apparatus.

Stone for Structure. "Of materials the same idea prevails as formerly, making the cathedral present a strictly stone masonry. The stone to be used will probably be colltic limestone from Ohio or Indiana, although considera tion will be given to some western sandstones before a decision is made. The floors are to be of wood pulp paste in simple mosaic resting on a masonry support. The whole building will be practically fireproof and built with a view to absolute dura-

His return shows that he has seized thirty-six head of cattle and delivered them to Joseph Butenschoen, the plaintiff, who has given a bond in a sum three times as large as the amount involved, pending a final determination of the issues.

On application of Orville J. Nave, Judge Sears has set April 20 as the date for hearing a petition for permission to sell nine lots belonging to the estate of Helen M. Nave, deceased. The lots are located in the city of University Place. Lancaster county, and the reason for wanting to sell them is to pay \$300, the cost of administration of the estate, and to also pay certain legacies which the personal property did not serve to discharge.

Joseph Houska, in a suit filed in the county court, avers that he sold and delivered to James Griffith meat and fish to the fair value of \$60.40. Of this amount he claims that there has been paid on account the sum of \$1.75, and Houska therefore asks he be given judgment for the amount of \$60.74. This is the first suit with a Lepten flavor filed since the season of fast and abstinence came in, and Judge Vinsonhaler will likely make an effort to dispose of it during the Lenten term.
