And every experienced mother answers-" Yes." "I unbesitatingly advise expectant mothers to use Doctor Pierce's Favorite Prescription," writes Mrs. Stephens. The reason for this advice is that Dr. Pierce's Favorite Prescription is the best preparative for the maternal function. - No matter how healthy and strong a woman may be, she cannot use "Favorite Prescription" as a preparative for maternity without gain of health and comfort. But it is the women who are not strong who best

It has in many cases reduced days of suffering to a few brief hours. It has changed the period of anxiety and struggle into a time of case and comfort.
