BUSINESS CHANCE.

We want to hear from small investors who are desirous of taking an interest in a legitimate enterprise which will yield 30 per cent on the investment. We do not wish anyone to purchase a large interest, but, on the contrary, would prefer to divide the stock on the basis of ten men taking \$100 each rather than for one man to take \$1,000. Our preference is due solely to the fact that as the business grows we can increase the capitalization much easier with a number of shareholders than we could with a few. All stock sold will be issued in the form of a profit sharing certificate bearing six per cent annuality and also entitling the holder to a pro rata share of the net profits. Every profit sharing certificate will be protected by 20-year 6 per cent gold bonds deposited with a large trust company in New York, and such bonds are a first lien on the company's entire property and assets.

The proposition is one which will strongly appeal to the man of moderate means who cannot afford to run a risk in investing his earnings. Space prevents our going into details here. The fullest investigation is courted and we would ask that you send for a prospectus, which is free, and satisfy yourself that this is the greatest opportunity ever offered to the mail investor.

You cannot possibly lose, but, on the other hand, have a chance to make 30 per cent on your money. Write us today, as the amount is limited and stock is being issued in the order that applications are received. BUSINESS CHANCE.
