GAS FOR STREET LIGHTING

City Can Buy from Company and Save Money on Contract.

ZIMMAN MAKES SOME CALCULATIONS

Experience of Omaha and Other Cities Shows that Local Price for Lamp is Far Too High Now.

Acting Mayor Zimman is still pursuing his investigations regarding the gas lighting problem and what the service should rightly cost the city of Omaha. He has not yet made up his mind on the point, but he has almost reached the conclusion that the city can buy gas from the company at the regular commercial rates charged to small consumers and still get the present results at least one-third cheaper than now obtained.

"The Welsbach burners used on the lamps in this city make the hourly consumption of gas in each light from two and one-half to three cubic feet an hour. This means, at 4,000 hours a year, which is the time the lamps burn, a total consumption of gas for each lamp per year 12,000 feet at the outside. Figured on a flat rate of $1 per 1,000 feet, which the gas company uses in furnishing the service to city buildings, the cost would be $12 a year, or, figuring at the commercial rate of $1.35, $16.20. This, you understand, is for the gas alone.

For Mantles and Boys.

"It costs the city of Chicago $1.800 a year to obtain and care for the mantles, or burners, in each lamp. A great quantity is used there and Omaha might not be able to secure them so cheaply. But figure this in at $3 and the cost for lighting by boys, with the city using six where the gas company uses four, and paying them double the salary, or $30 a month, and you bring the cost of maintenance to a maximum figure of $6 a year.

"The city owns the poles and fixtures, having paid $12 for each one. It will be seen from the figures I have given that the city can maintain its own gas lamps at $17 a year or less provided a $1 rate for gas is obtained and which is reasonable, or $21.20 a lamp, if we have to pay the full price for gas."

The acting mayor is still busy getting facts and figures on the gas proposition in order to have them ready when the subject of extending the present contract for five years at $28 a lamp is brought up in the council.

LOVE DIES.

Mrs. Ella Wheeler Wilcox says there comes a time in the course of married love when "the thrill goes out of the handclasp and the kiss at times, and it is then that husband and wife may be susceptible to other magnetic personalities." The reason for this condition of affairs is often the fault of the husband, but how often is it not due to the wife's nervousness and irritability due to some trouble with the organs peculiarly feminine—the wife under such circumstances feels languid and spiritless—she suffers perhaps from headache and sleeplessness.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

A great deal of sickness may be saved by keeping on hand a copy of Dr. Pierce's thousand-page illustrated book, "The Common Sense Medical Adviser." Sent free, paper-bound, for twenty-one one-cent stamps, to pay cost of mailing *only;* or cloth-bound for thirty-one stamps. Address, World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

Constipation and a bilious attack go hand-in-hand. Dr. Pierce's Pleasant Pellets are a sure and speedy cure for both. Tiny, sugar-coated granules. One little "Pellet" is a gentle laxative and two a mild cathartic. They never gripe. Nothing else is "just as good."

PERSONAL PARAGRAPHS.

AFFAIRS AT SOUTH OMAHA

Qualifications for Voters at the Coming Election Made Plain.

WOMEN MAY VOTE FOR SCHOOL BOARD

Must Be Over Twenty-One Years of Age, Have Children of School Age or Own Property in Order to Ballot.

Considerable talk is heard on the streets about the qualifications of voters at the coming election. City Attorney Lambert was asked for an opinion and he sent a note to the city offices as follows:

"To vote at the April election one must have lived in the state six months and sixty days prior to a municipal election in the city of South Omaha. As for women voting, the statement is made that women who desire to vote on school board members must be 21 years of age, have children of school age or taxable property. Such real or personal property must have been taxed at the last annual assessment. Women will not be required to register under the election laws, but must be sworn when they cast their ballots. Members of the election board will be instructed to pay particular attention to the voting of women and see to it that each takes the oath provided in the statutes."

On account of the park and city hall bonds being declared void by the courts recently particular attention will be paid to those who vote on these propositions this spring. It appears to be the intention of the city officials to do everything possible to have the election regular in every way so that there will be no flaws to be found should a contest be made.

Those who intend voting must remember that a residence of six months in the state and sixty days in South Omaha will be required before a vote can be accepted.

There seems to be so little interest in the election now that it would not be surprising if not more than 1,200 or 1,500 votes were cast. The council does not seem inclined to permit the people to select a site for a city hall building, and unless this is done the chances of the city hall bonds carrying are decidedly slim. Taking street talk as a criterion there seems to be but a few in favor of the park bonds.

Official Opening Friday.

On Friday evening of this week the South Omaha High school building will be officially opened with appropriate ceremonies. For the most part the program will consist of musical selections." An address will be delivered by J. H. Van Dusen, and it is possible that some of the members of the Board of Education and Superintendent McLean and N. M. Graham, principal of the high school, will be called upon for a few remarks. The statue of Minerva, which has a place in the lobby of the building, will be unveiled.

All of the decorations in the auditorium of the building have been completed. Workmen are now engaged in putting the opera chairs together and setting them in place. For two nights the men placing the 960 chairs have worked until 10 p. m., in order to have the auditorium in shape for the official opening. There are 200 incandescent lights in the auditorium. The big chandelier carries thirty-six lights. Then all around the room lights are placed. Over the stage twenty-five lights have been placed and the footlights number fifty. Those who have visited the building are enthusiastic over the construction and the accommodations afforded to teachers and pupils.

Do Not Like Change.

In making out the list of registration and voting places the voting place in the First precinct of the Fifth ward has been changed from the Bradford lumber yard to 720 North Twenty-seventh street. This change was made for the reason that the mud at the lumber yard is about a foot in depth and that it is out of the way. The present voting place is located where everyone can reach it readily and with but little more walk than to the lumber yard. Some of the voters in the Fifth ward are complaining about the distance to walk to vote, but as the new location seems to be preferable to the old one there is no chance for making a change on account of the complaints of a few.

Will Complete Bridge Soon.

The steel work on the new Burlington bridge at Thirty-eighth and L streets is nearing completion. All of the steel spans across the tracks are in position and the flooring is now being put down. It is expected that by April 1 this bridge will be thrown open to the public and the grade crossing closed. As soon as this is done the Burlington will commence laying additional sidetracks and switches in order to increase the car capacity of the yards in this section of the city.

Postmaster Wants Bids.

Postmaster Etter is advertising in The Omaha Bee for bids for fuel, lights, water, ice, laundry work, hauling ashes and sprinkling streets for the fiscal year ending June 30, 1906. All bids must be sealed and sent to the postmaster by 2 p. m. on March 30. The government reserves the right to reject any or all bids.

Contractor Hammell Notified.

Wednesday afternoon City Clerk Gillin notified Gus Hammell to commence at once the laying of permanent sidewalks. Quite a list of walks to be laid was sent the contractor. At the city engineer's office the statement is made that the present force is kept busy setting stakes for walks that property owners are willing to lay just as soon as the contractor gets his force in working order. In some instances the council has overlooked a number of walks in the downtown residence portion that should have been laid last year. This matter is to be taken up at once and more permanent walks will be laid this year than for several years past.

Eagles' Entertainment Friday Night.

On Friday night of this week the Dress club of the local lodge of Eagles will give a musical and athletic entertainment. The athletic portion of the entertainment is designated as a rare card and it is expected that all South Omaha Eagles will attend. Frank Dorsey of Cincinnati and Robert Tythill of Chicago will give an exhibition at boxing. Next on the program will be Guy Buckles, a popular South Omaha athlete, and Frank Green of Sioux City. Clarence English and Peter Loch of Omaha will box for points. Refreshments will be served and those who attend are promised an enjoyable evening in the way of sports.

Wants Ground Filled.

A short time ago complaint was made to the city officials about an alleged nuisance at Thirty-third and L streets. It was alleged that the Cudahy and Omaha Packing companies were dumping refuse on this ground, much to the annoyance of those residing in the vicinity. Sanitary Inspector Jones was directed to make an investigation. Yesterday Inspector Jones filed a report on the conditions. He declares that the refuse dumped on this property is salt, fuller's earth, sawdust and some manure. The inspector states that there is little odor arising from this dump. Notices have been served on the Cudahy company and the Omaha Packing company not to use this ground for dumping purposes until further notice. Manager Urquhart of the Omaha Packing company stated to Inspector Jones that he wanted the hole filled so as to be suitable for building purposes.

Magic City Gossip.

M. P. Hinchey left last night for Excelsior Springs, to be gone a week or ten days.

A bad washout in the street is reported on F street, between Twenty-second and Twenty-third streets.

The graders on C and D streets were compelled to lay off yesterday afternoon on account of the rain.

The Jetter Brewing company has taken out a building permit for a brick building to be constructed at Twenty-sixth and O streets.

Julius Adrian, 258 H street, reports the birth of a daughter.

John H. Burns has gone to Willow Springs, Mo., for a few days.

Some boys set fire to a bale of hay in Charles Sweringer's barn yesterday afternoon and three hose companies were called. The loss was confined to the bale of hay.

Some of the paved streets in the business portion of the city are being flushed by the firemen and city street force.

Free Lecture on Vitosophy.

Vitosophy will be the subject of a lecture to be given Sunday night at Washington hall by Prof. William Windsor, LL. B., Ph. D., the eminent phrenologist. He claims that poverty is a disease and can be cured. But the fact that it is not regarded as a disease and no attention is paid to its proper remedy, has filled the world with financial wrecks. Vitosophy sets everything right by surveying the mental capacity of each individual and putting him in his proper place and vocation, besides indicating the limit of his financial responsibilities. This work is accomplished by the use of a machine called the phrenometer, a late invention of Prof. Windsor's for examining the head, and he will each evening at his lecture make public examinations of prominent citizens selected by the audience.

His lectures are also illustrated by the use of the illuminator, a stereopticon machine by means of which portraits and other effects are produced without darkening the room. As these lectures are free, no doubt the professor will have a large audience to greet him.

Ladies of the Maccabees Dance.

The Ladies of the Modern Maccabees, Omaha hive No. 952, gave their first annual ball last evening at the Labor temple. It was certainly a grand success from every point of view. There was a large crowd present and everybody appeared to be having a good time. The hive will hold its regular meeting next Wednesday evening and all members are requested to be present, as there is important business to be transacted.

LOCAL BREVITIES

The scavenger tax sale for Thursday commences at Patterson Park subdivision and continues to Prospect Place.
