it is stated by those present at the secret meeting of the water board last week that it is the unanimous sentiment of that body that acion shall be taken toward reducing the water rates. Member Howell had prepared a resolution providing for general cuts in all charges ranging from 25 to 35 per cent, but did not introduce it, saying that he wished to have its contents discussed first to find out whether or not the reductions he proposed were satisfactory to the other members. In the talk that no definite conclusions were reached, and a committee composed of Members Coad, Barlow and Howell was named to investigate the question of what are reasonable rates and report at another

meeting to be held soon. City Attorney Breen was called into the conference and an effort made to induce him to advise concerning the wisdom of cutting rates, but Mr. Breen politely refused to be committed, saying that the new water law plainly gives the board the right to increase or decrease rates to private consumers, but that action under the section is clearly a matter of policy and not of law. He did not think it came within his official capapity to advise for or against

Matters to Be Determined. "There seems to be no doubt but that the water board will attempt to lower the rates," said the city attorney. "The only questions are what the reductions shall be and whether they should take effect in the middle of the year, when the flat-rate rents become due or at once; or, again, if it would not be best to give the appraisers several months more to make a report before taking action. In case the rates were cut now, to be effective at once, I do not think anything could be recovered by consumers who have paid flat rates in advance for the first half of the year. But from

Stomach Paralysis

Dyspepsia or Indigestion, properly

named, is Paralysis of the Stomach. When you have water-brash, feel sick at the stomach, have gas or wind on it, or feel as though you had a ball or heavy weight in the pit of the stomach after eating, and the nerves and muscles of that organ cease to act and digest your food, that stoppage in the process of digestion, to call it properly, is Paralysis of the Stomach, and should be treated as such. It is perfect folly to assist the stomach with dyspepsia remedies and stimulants to dissolve the undigested food. You may get relief, but at the next meal you suffer again. The proper treatment is to build up the worn out muscles and nerves of the stomach so that it can do its own work without assistance, and not only digest the food you eat to-day but tomorrow and forever after; as is done, by the use of Dr. Chase's Blood and Nerve Food and Liver Food, which have an immediate action on the nerves and muscles, that control digestion. The price of the Blood and Nerve Food, 50 cents; the Liver Food 25 cents. Book free. Sold and guaranteed by Myers-Dil-lon Drug Co., Omaha, Neb.

Punishment.

Judge Howard Kennedy, jr., talking of the juvenile court law and its bearing on the possible trial of juvenile killers, said, with relation to a news item in The Bee of Thursday afternoon:

"I do not pretend to have examined the law closely at all, any more than any other judge has, but I find in it a paragraph specifically excepting from its provisions" report sent from north of Aurora reads:

As our special approaches a town farmers can be seen driving in from all directions in spite of the threatening weather. We were met at Burwell by over 300 people, many continued that a paragraph specifically excepting from a radius of twenty miles. At Elyria we picked up a good delegation, carried them to Ord, returning them on the evening train. wy Dear Mr. Chase—I took advantage of the opportunity of being on the ground last night to go in and hear the opening performance of the Metropolitan Grand Opera company in "Lucia." I understand that this is one of the operas to be given by this same company in Omaha a few days prior to our festival. Surely the whole of Omaha ought to turn out in big force, and they doubtiess will, to hear what I consider one of the greatest productions of this very beautiful opera I have ever seen. The house was packed to the doors, and I do not think that I ever saw a more brilliant audience anywhere. Sembrich was the Lucia and Caruso the Edgardo, and they fairly lifted the audience off its feet several times during the evening. The ovation which followed the giving of the famous sextette was the occasion for a scene of enthusiasm which I have never seen excelled. The house fairly rose at them and, in fact, stopped the further performance of the opera-for some twelve or fifteen minutes until the piece had been given once more. Caruso is probably the greatest living tenor. At any rate, his performance last night seemed to me to justify that claim, but Sembrich's mad scene and the triumph which she achieved in it made it difficult to decide as to which is the greater artist.

The orchestra is a fine one and its playing alone is worth one's going many miles to hear. The Omaha performance of this opera should be and doubtless will be the occasion of an audience that will tax the occasion of even your fine Auditorium With regards. My Dear Mr. Chase-I took advantage

racing and other events will lend muscular eclat to an athletic bill replete with good things. There is only one little source of disappointment for this most joyous occasion. The Young Men's Christian association gymnasium only holds \$50 people and there are over 500 high school students, to say nothing of the legion of friends and admirers. But, alas, so 'tis, and the powers that be have been compelled to make a rule that only 350 tickets may be sold. A very wise provision, by the way. But it will occasion some tail hustling to secure tickets. The feminine portion of Omaha's famous seat of learning will be well represented, for the gallantry of the youthful disciples is like unto that of the knights of old.

to Omahn Y. M. C. A.

Omaha's Young Men's Christian association basket ball team is feeling and evincing a pardonable pride in its record of Thursday afternoon against the traveling cracks from Wheaton, Ill. The latter team, in a recent tournament, tied for second place to the champion Chlcago Centrals, and in the play-off won third place. So much notoriety did the Wheaton players gain that they are now en route to Selt Lake City to play an exhibition game next Saturday evening.

The Illinois lads, having a few hours to spend in Omaha, expressed a desire to meet the local Young Men's Christian association players. They were accommodated, and at 1 o'clock Friday afternoon the two teams met at the Young Men's Christian association rooms. The first twenty-minute, half was a tie, 21 to 21. In the second half the local players cut loose for a winning, and at the close of the seconthalf the Omahas had to their credit 55, while the best the Wheaton athletes could count was 31. The Omaha players were brought in on the spur of the moment, and the result has pleased their friends immensely. They won without practice particularly, and simply on form and team work.

DATE FOR GAME WITH MICHIGAN

Booth's Pupils Meet Those of Yost or October 21.

October 21.

LINCOLN, March 23.—Official announcement has been made by the athletic authorities at the University of Nebraska that Saturday. October Zi, is the date agreed upon for the foot ball game between the Cornhuskers and the Michigan Wolverines. Ann Arbor is to be the scene of the struggle between the proteges of Booth and Yost.

Confirmation of the statement that Nebraska will play both Michigan and Minnesota, the acknowledged leaders in 'big nine' foot ball, with the added assurance that Illinois university is to play Nebraska in Lincoln on Thanksgiving day, will give the Cornhuskers the best foot ball schedule ever promulgated by a Nebraska athletic board in the history of the institution.

November 4 and Il are still open on the Nebraska schedule. Negotiations are now in progress with Colorado university for one of these dates, the game to be played in Lincoln.

SPRINGFIELD, Ill., March 23.—Governor Deneen today notified Sheriff Ben Brainerd of Sangamon county, to stop the six-round prize fight scheduled for tonight in Springfield, between Harry Forbes of Chicago and "Dummy" Powers, a local boy. "It is too near the state capital," the governor explained.

The governor refused to make any statement of his attitude toward fighting in general throughout the state.

WITH THE BOWLERS.

The Storz Blue Ribbon team lived up to its reputation for "killing the leaders" last night when they took the Onimods into camp for three straight games. The shoe men seemed to have that tired feeling, but they made lots of noise and took their defeat good-naturedly. The result of last night's contest gives the Omahas clear sailing for the pennant, barring accidents, and brings three teams into an even race for second place. Fritscher was in his olditime form and led the men with 655. Elliott broke into the 600 class and Gjerde also topped the coveted mark.

GOOD BLOOD

TELLS ITS OWN STORY And tells it eloquently in the bright eye, the supple, elastic movement, the smooth, soft skin, glowing with health, a body sound and well, an active brain, good appetite and digestion, refreshing sleep, energy to per-

form the duties and capacity to enjoy the pleasures of life. The blood is the most vital part of the body; every organ, muscle, tissue, nerve, sinew and bone is dependent on it for nourishment and strength, and as it circulates through the system, pure and strong, it furnishes to these different parts all the healthful qualities nature intended. When, from any cause, the blood becomes impure or diseased, it tells a different story, quite as forceful in its way. Itching, burning skin diseases, muddy, sallow complexions, disfiguring sores, boils, carbuncles, etc., show the presence, in the blood, of some foreign matter or poison. Rheumatism, Catarrh, Contagious Blood Poison and Scrofula, are effects of a deeply poisoned blood circulation. These may either be inherited or ac-

quired, but the seat of trouble is the same-the blood. S. S. S., a purely vegetable blood remedy, cleanses and purifies the circulation and makes it strong and clean. Under its purifying and tonic effects all poisons and impurities are expelled from the blood, the general health is built up, all disfiguring eruptions and blemishes disappear, the skin becomes soft and smooth and robust health blesses life. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison and all diseases of the blood are cured by S. S. S. Book on the blood and any medical advice, free of charge.
