CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

CHICAGG, March 24.—Liberal shipments from Argentina and constantly brightening prospects of a bumper crop in the United States caused weakness in the wheat market here today. At the close wheat for May delivery was down &c. July was unchanged and provisions are up &c.

From the outset the wheat market was under the influence of increased shipments from Argentina and continued excellent weather conditions in the United States. May wheat opened 14676c down at \$1.126. July was off 4676c down at \$1.126. July was off 4676c down at \$1.126. July was off 4676c at \$124,524.5c. On the initial break a fair demand developed for the July delivery, causing an advance to \$2. Trading in May wheat, however, was duit Large receipts in the northwest and extreme weakness at Minneapolis accounted for the inactivity of May. As trading progressed sentiment in the pit became more bearish. The main consideration apparently was a growing belief that the fall-sown crop of wheat would prove of vast proportions. Advices from various section of the winter wheat beit reterated reports of favorable progress in the growth of the piant. A St. Louis trade paper's weekly report on cop progress was construed especially bearish. The condition of the crop, according to this report, is excellent for this time of the year, there being few indications of damage. A feature of the report was a reference to the fact that the plant is growing where there has been failure to germinate earlier in the season. The bulls found no encouragement in primary receipts, arrivals today being considerably in excess of the total for the corresponding day a year ago. With practically no support, prices steadily declined until May had touched \$1.11%. July sold off to \$30c cars, against 208 last week and \$36.0c. Clearances of wheat and flour were causil to 178,900 bushels. Exports for the was wheat receipts of 300 cars, against 208 last week and \$36.0c. Clearances of wheat and flour were dual to 178,900 bushels. Exports for the open and the inference drawn by many traders

Wool Market.

BOSTON, March 24.—WOOL—The Commercial Bulletin tomorrow will say of the wool market; here is little trading in domestic, confined to small lots of fleeds, pulled, scoured and territory, at full ingrises values. Odd lots are being closed out preparatory to the new clip movement. The improvement in London, where prices at the auction sales closed strop 8. after declining early, has helped the local situation. Manufacturers are getting their bearings and can now see a basiz to figure on. Fat sheep wool is arriving, and there has been some samples received of the new Idaho clip. The condition is good and reports from all over the west say that wools are lighter and better. The shipments of wool from Bost on to date from December 29, 1904 according to the same authority, are 55,223,222 pounds, against 56,64,521 pounds at the same time last year. The receipts to date are E.183,220 pounds, against 42,64,522 pounds for the same period last year.

ST. LOUIS. March 24.—WOOL—Dull; medium grades, combing and clothing 220, 25; light time, 18 220,451.

NEW YORK STOCKS AND BONDS

Market is Firm on Account of Closing Up Short Contract.

TREND OF PRICES GENERALLY HIGHER

More Talk of Consolidation of New York Central, Northwestern and Union Pacific Causes Rise in These Issues.

NEW YORK, March M-There was a pronounced upturn in the course of prices on the Stock exchange again today, which was undoubtedly due in part to the closing up of short contracts put out on the decline during the week. Yesterday's market already showed symptoms that the decline had run to a point where effective resistance was encountered and sufficient new buying demand was met to support prices. Bears with uncovered short contracts accorded this warning and bought to cover

Boars with uncovered short contracts accepted this warning and bought to cover very generally today. There was at the same time a marked revival in the circulation of rumors of the same class and for the most part identical in form with those which have already served many times to excite a demand for stocks.

The associated strength of New York Central, Union Pacific and Northwestern was a notable case in point. The information disseminated on the break yesterday was that control of Union Pacific had passed from its present hands. Today the information as renewed that the buying of the best character, namely; in the interest of persons already in control, was conspicuous in both New York Central and Union Pacific. News of rumors of this character are of as great effect in the excitement to speculation as the most explicit announcement of plans affecting the control or operation of a property. The southern iron combination was another project which was paraded before the imagination of speculators, which proved effective, as shown by the wide movement in stocks of that group. The long time reports of a merger of lead interests was another effective instrument in the upward movement of prices. Old and new dividend rumors also played their part, stocks in the rubber industry being especially affected. The Metropolitan stocks had the benefits of hopes of success in securing contracts for further subways in the efforts making on behalf of those interests. Colorado Fuel was still in demand on the strength of its subscription rights to the execurities. A glance over the list will show the important part played in the recovery by stocks thus specified as under individual influences.

The reversal of sentiment on the general market situation was attributed to subsidence of fears of stringent money. The change was the principal factor in the change of sentiment. The indications thus given of the freedom with which foreign individual influences.

The reversal of sentiment on the general market situation was attributed as

HOGS The supply of hogs in sight was moderate at all points this morning and as a result the tendency of prices was upward. The market here opened about a lickel higher and as the demand proved to be of

SHEEP-There was only a small run of sheep and lambs here this morning, and with a fairly good demand from local market ruled active an steady with yesterday. As buyers started out in good season it did not take long for everything in sight to change hands. As high as \$5.56 was paid for ewes, which is the highest price paid in some little time. Some wethers and yearlings mixed brought

the highest price paid in some little time. Some wethers and yearlings mixed brought \$5.80.

The lamb market could probably be quoted steady, but \$1.87e were no choice fat lambs on sale. Some feeders, though, sold at what looked to be good steady prices.

For the week the market on both sheep and lambs may be quoted a little stronger, the advance amounting in the majority of cases to about 10c and 15c.

Quovations for fed stock. Good to choice yearlings, \$6.0026.40; good to choice wethers, \$5.0025.57; fair to good yearlings, \$6.0026.40; good to choice ewes, \$4.5025.00; common to fair ewes, \$4.50, good to choice lambs, \$7.0027.25; fair to good lambs, \$6.7547.00; feeder lambs, \$6.006.50.

NEW YORK, March M.—COFFEE—The market for futures opened steady at a deciline of 5@10 points following lower European cables. Offerings were very light and later in the session a moderate demand from local buils and importers was sufficient to partially rally prices. The close was quiet and unchanged at a deciline of 5 points. Sales. 35.750 bags. including May at 6.40c; July. 6.55c; September. 6.75c; December, 6.75c. Spot, quiet; No. 7 Rio, 7%c.

Dry Goods Market.

NEW YORK, March 24.—DRY GOODS—While no marked enlargement to buying is in progress in the dry goods market, the attitude of the seller is one of special firmness and of optimism, in view of the statistical position which exists with regard to so many lines. Jobbing trade locally is less active, but belief in a continuance of moderate activity for some time to come is entertained.

entertained. Toledo Seed Market. TOLEDO. March 24.—SEEDS—Clover. cash. \$7.85; March. \$7.85; April. \$7.80; October. \$5.90; prime alsike, \$7.75; timothy, March. \$1.40.

On the Roof of the World. One who went with Colonel Younghus-band to Lhazea wrote of the hardships enountered as follows: "Despite the protection of almost Arctic clothing, one shivers until the sun rises over the eastern hill at 16 o'clock, and shivers again when it sinks behind the opposite one at 3 o'clock. Icy winds sweep the valley and hurricanes of

dust invade one's tent. Against this cold one clothes one's self in flannel vest and shirt, sweater, flannel-lined coat, poshteen or cashmere sheepskin, wool-lined Gilgit boots and fur or woollen cap with flaps meeting under the chin. The general effect is barbaric and picturesque." REAL ESTATE TRANSFERS.
