able on any of the roads in the state be-tween localities on such road, and hence the maximum rate fixed by this bill may not be reasonable and just between the different localities on any road; and it must be very evident to all that they would naturally not be uniform as among the different roads, and for these reasons it seems to me that the law proposed by this bill could not be held constitutional. Reapportionment Bill Killed.

The McAllister reapportionment bill was defeated in the house by a vote of 39 to 33. McAllister made an attempt to nonconcur in the report of the committee of the whole to indefinitely postpone the bill, but his motion was lost by a vote of 24 to 37. Both Caldwell and Bedford made similar attempts to raise their bills from the committee's report, but failed.

The McAllister bill would have given Beghtol, Omaha an addition on joint vote in the senate and house of five and one-half members, making one float district with Saunders county. McAllister had made this bill the one purpose of his career this term Bressee, Cady, and two years ago and went down to defeat fighting with unyielding tenacity. He was aided at the last by Clarke of Douglas. Harah Voter of Cedar and McLeod of Stanton, all of whom made urgent and eloquent pleas.

All the speakers for the bill insisted that the bill was drawn in the best interests of state at large upon the basis of the 1900 census and that it was only a matter of right and justice that it should be passed. Nevertheless it had been charged that the measure was in the interest of R. B. Schneider's candidacy for United States senator two years hence, and Mr. Schneider had a hand in drafting the bill. This statement finds emphatic denial by McAllister and others.

At all events it was the first time this session in either house when the north and south Platte lines have been rigidly drawn on any bill. While there were exceptions this alignment was plainly evident.

Incidentally, Thomas of Douglas moved to indefinitely postpone the bill.

Mockett of Lancaster deserves credit for killing this measure, for this afternoon he moved to recommit the bill to the committee of the whole. The amendment he proposed was to prohibit newspapers from accepting transportation from railroad companies for advertising or for protended advertising. In support of his motion Mockett took a shot at the press in his usual style. Sheldon, Cady and others protested to the motion to recommit and Cady said it was impossible for the legislature to make a law to prohibit a newspaper from making contracts for advertising. Other members recognized the motion of Mockett as a smooth scheme to defeat the bill, but the motion carried as it had been planned to follows:

The senate resolved itself into a committee of the whole with Dimery of York in the chair. Giffin at once made a motion to prohibit railroads from giving transportation to any person.

Wall, in opposing the bill, said to pass it would be to admit the pass prejudiced the members in favor of the railroads. He was not ready to admit that, he said. He recited that he had ridden on a pass and had twice been elected over a man who carried no pass and who advocated the abolishment of passes.

Meserve, in speaking for the bill, said the beat government resulted when the people had confidence in their officers. The people were in favor of the bill, he said, and rather than have their confidence the least bit shaken in their officers it should become a

"I have no pass," exclaimed Jackson, "but I would take one tomorrow if I wanted it. I am against this bill." He then told how he had been in public

As for the newspapers abusing the members of the legislature as it has been stated they have done. Jackson said he kept his conscience clear and the newspapers did not affect him.

STATE PAYING FOR LOBBYISTS Vouchers on File at Lincoln Tell

Interesting Story. (From a Staff Correspondent.)

LINCOLN, March 24 .- (Special.)-Out of the funds paid into the state treasury by the taxpayers of the state of Nebraska a lobby has been maintained in Lincoln to force through the legislature appropriation bills which will have to be paid by the taxpayers. In other words, the taxpayers are taxing themselves to phy for the passage of appropriation bills. It has just come to light that this was done at the last legislature and probably is being done at this time. According to the wouchers on file in the office of the state auditor the

beneficiaries under this system are T. J. Majors and W. A. Clark, the latter formerly superintendent of the Peru Normal school and the other a member of the Normal board. A voucher filed with the state auditor March 31, 1933, at the close of the last legislature by Tom Majors is as
