CATTLE:—About the usual Saturday conditions prevailed today in the cattle yards, which means that there was not enough on sale to make a test of the market. For the week receipts have been about 1.500 head heavier than they were last week, but as compared with the same week of last year there is a decrease of about 5.000 head.

The market on beef steers has been rather irregular this week, fluctuated up and down at a rapid rate. At the close of the week, however, prices are in just about the same notches they were a week ago. Some salesmen are calling the commoner kinds a trifle lower for the week, but in the majority of cases the change is too small to be worthy of attention. Good to choice steers are quotable from \$5 to \$5.75, fair to good from \$4.50 to \$5 and common to fair tree \$5.50 to \$4.40.

The cow market has also been rather un-1.018

The cow market has also been rather uneven this week owing to the rapid changes from the week owing prices on the more desirable grades are generally steady with those in torce a week ago. By the sell above \$1. Those that go under the \$3 mark are a little lower, the commoner the quality the greater the decline. Canners have been the hardest to sell of all and are fully \$5c lower for the week. Common cutters have suffered almost as much, so that the market on the common to medium grades of cows may be quoted from 10c to 52c lower. Canners and cutters sell largely from \$1.75 to \$2.50, fair to good cows from \$2.50 to \$3.75 and good to choice from \$3.25 to \$4.35. A prime nunch of helfers would probably bring a little more than that.

Bulls are a nittle lower than they were a week ago, the bulk of them selling from \$2.50 to \$3.75. Veal calves are lower, prices ranging from \$1 to \$5.75.

The stockers and feeders market was not quite so brisk this week as last and as a result the tendency of prices has been downward. The choicest grades are not far from steady, but anything on the common in ght cattle are safely leased lower. Good to choice grades may be quoted from \$4 to \$4.65, fair to good from \$5.50 to \$4 and common to fair from \$2.50 to \$3.40. Hepresentative sales:

liogs—There was a moderate run of hogs in signt this morning, even for a Saturday, and with a fairly good demand the market here was 56, 2c nignor. Tracing was fairly active from start to finise, so that with the exception of about eight cars, which did not arrive until a late hour, everything was imposed of in short order. The long string went at \$5.15, with the built of the butcher and medium weights from \$6.12\street{s}\$ to \$5.17\street{s}\$. The light and common stuff went from \$5.10 down. Choice heavies sold as high as \$5.22\street{s}\$. This advance carries the market to the highest point of the season, being about 2c higher than on Tuesday of this week, which was the previous high point. The extreme close today was not quite as strong as the early market.

Prices have fluctuated back and forth quite rapidly this week, but as compared with the close of last week the market is 10\$15c higher. The cause for this advance is not found in light receipts, as there is an increase over last week amounting to about \$1.500 head. Representative sales: HOGS-There was a moderate run of hogs

The lambs that were not fat enough killers met with ready sale this week to feeder huyers at good, strong prices where the quality was satisfactory. Common kinds lacking in flesh were, of course, hard to move, as feeder buyers all wanted good stuff.

Morel Market.

NEW YORK, March 25.—WOOL—Firm domestic fleece, 316,34c.

BOSTON, March 25.—WOOL—The Commercial Bulletin today says of the wool market. There is little trading in domestic confined to small lots of fleece, pulled, scoured and territory, at full market values Odd lots are being closed out preparatory to the new cilp movement. The improvement in London, where prices at the auction sales closed strong, after declining early, has helped the local situation. Manufacturers are getting their bearings and can now see a basis to figure on. Fat sheep wool is arriving and there has been some samples received of the new idaho cilp. The condition is good and reports from all over the west say that wools are lighter and better. The shipments of wool from Boston to date from December 29, 1904, according to the same authority, are \$8,323,392 pounds, against \$6,614,621 pounds at the same time last year. The receipts to date are \$2,183,200 pounds, against \$2,634,519 pounds for the same period lust year.

LONDON, March 25.—WOOL—The arrivals of wool for the third series of auction sales amount to 124,594 bales, including \$3,000 forwarded direct to splinners. The rivals of wool for the third series of auction sales amount to 124.524 bales, including 53,000 forwarded direct to spinners. NEW YORK STOCKS AND BONDS

Tendency Toward Depression Contested by Large Buying of Few Stocks.

London's Disposition to Take Profits is the Main Factor in the Heavy Tone Early in the Day.

NEW YORK, March 35 -Some tendency NEW TORK, March 35.—Some tendency of depression had to be contested in today's tock market and this was effected by the arge buying of a few individual stocks, totably Ontario & Western, which was valied up in the final dealings to 51%. This id not prevent an irregular tone for the losing. Union Pacific was rather heavy broughout, rising only a small fraction

realed up in the final denings to SPs. This did not prevent an irregular tone for the closing. Union Pacific was rather heavy throughout, rising only a small fraction over last night at any time, and this had a sentimental influence on the whole market. New York Central was another strong feature and it was supposed to be associated with Ontario & Western. A number of the industrials made advances.

London's disposition to take profits was the main factor in the heavy tone of the first hour and after this influence was overcome there was another reaction due to apprehension of an unfavorable bank statement. The \$18,00,000 loan contraction disclosed by the statement helped to effect such a reduction in deposits as to relieve the reserve requirement to the extent of nearly \$8,000,000, so that in spite of the loss in cash of \$4,318,000, which was considerably in excess of expectation, the margin of the surplus was expanded to the extent of \$1,33,430.

The events of the week afford ground for confidence that even with a further loan contraction by the banks, resources will be found in the foreign exchange market and in trust company offerings to meet loan requirements. It is suggested that the present heavy outward movement to foreign markets of securities represents holdings accumulated in the early stage of the market advance by foreigners, and which have been held since with the proceeds of leans in this market. These loans are now being paid off and the securities taken abroad to be held in cheaper foreign markets. It is said by authorities in the exchange market that this process of delayed payment on foreign purchases of securities is the principal factor in the present sharp downward tendency of the fact of local soles. Foreign Financial.

Foreign Financial.

LONDON, March 25.—Money was not abundant in the market today and the demand was good. Discounts were firm, the weaker Paris exchange and prospective large money requirements next week having a strongthening effect. On the Stock exchange the usual week end quietude prevailed, the operators preparing for the mining carryover. Consols were firm early, but ensed later. Americans opened firm at slightly over parity, improved further on local support and Amsterdam buying moderately, reacted slightly in anticipation of a poor New York bank statement and closed quiet. Foreigners were quietly steady Russians were harder. The new Japanese loan was in keen demand and touched 24 percent premium. Imperial Japanese government 6s of 1984 were quoted 166. The announcement that negotiations in regard to the proposed new Russian loan had been resumed had a good effect on the continentsis.

BERLIN, March 25.—Trading on the

nentals.

BERLIN, March 25.—Trading on the Bourse today was quiet and the transactions limited.

PARIS, March 25.—Trading on the Bourse today was active and prices were firm owing to rumors that the movement for peace in the far cust was making headway. Russian finperial is were quoted \$8.85, and Russian bonds of 1904 at 5.05. The private rate of discount was 2 per cent.

**COMMISSION DISAGREES ON OREGON WHEAT** 

Present Rate of Consumption and of Export and Crop Shortages Elsewhere Expected to Bring Fancy Corn Prices.

OMAHA, March 35, 1905.

The week closed with an upward tendency in wheat and corn. The May wheat ranged between \$13.135 and \$1.14, whereas Friday it went from \$1.125, to \$1.145. Liverpool closed with an advance of from 'qu'acc, at ip went around Friday that May wheat was to be put to \$1.30 or above before the end of May. Gates was in Chicago Friday and conferred with the leading speculators. The \$1.800,000 bushels the sustormers are supposed to hold is said to be more than the bears can deliver. The long interest, however, it is believed, cannot dump its holdings without causing a serious break, and a market for the entire line will have to be created. The Illinois railroad and warehouse commissioners met Friday, but were unable to agree on any ruling for Oregon red wheat. Broomhall estimates the world's shipments of wheat at 10.00,000 bushels. The Australian shipments are 284,000 bushels, against \$40,000 bushels the preceding week and \$72,000 bushels last year. The primary receipts are 251,000 bushels, against \$24,000 bushels, and the shipments are 231,000 bushels, and the shipments are 231,000 bushels, and the shipments are 231,000 bushels, against 234,000 bushels, against 335,000 bushels, against 234,000 bushels, against 335,000 bushels, against 234,000 bushels, against 335,000 bushels, and the shipments are 522,000 bus OMAHA, March 38, 1968.

# Week Closes with Bullish Tendency in Wheat and Corn. GOLDFIELD

(NEVADA)

## The Scene of the Wildest Excitement

## A Rush of Men Mad With Gold Greed Is Heading for the Mines

(From Our Own Correspondent.)

of the wildfire that will sweep over Nevada this spring, if one may judge from he astounding sale of tickets in the east. ity men are selling their homes to get movement in from the south is marked by thin clouds of dust down the descri valley as far as the eye can reach, signifying slow plodding freighters with bacon, beans, lumber and groceries.

seekers, hot with the lust for gold, often straight from the ratiroad and raw from the east. The gold craze started for above Tonopah, tipped over the bills into Goldfield, slipped down to Thorpe's Well and into Bullfrog-and heaven knows where it will tring up.

These boomers make one think of children on a sen beach; one finds a pretty shell and they all run for it, shricking with excitement until some one discovers another, when they all drop the first and rush away in the new direction. The fact is, gray old Nevada is whispering secrets Surface treasure glitters so dazzingly that bewildered fortune humers lack the nerve to settle down and dig. Here are seen raw "tenderfeet"

pectors in derby hate, who wouldn't know gold from anthracite coal, racing with old mining men. The writer saw salcon keepers with groggeries piled upon wagons, ofling tediously forward, throwing the alkall dust of their teams onto hotel keepers with their complete hostelries piled upon other wagons-they themselves sitting on top of the heaps, craning their necks for the first sight of the promised land. Besides these classes of boomers there are representatives of the riffraff of all

These boomers are the first hot sparks portion cheating its way west on employ ment agency transportation, ostensibly as railroad laborers. Gold mining, like politics, makes strange bedfellows. For instance, a college youth and an old man who lost a fortune in Spokane in 1895 in the bank panic-who, in his youth, had fought the Sioux and Cheyennes in the Black Hills and came out of it all with fewer interesting reminiscences

than the sophomore got out of a "halfback" rush and his great feat of having kissed a girl from Louisville who, it seems was very particular as to whom she kissed At dinner the guests were typical "rush-One was a New Yorker with big teeth and a golf cap, who said it was better living in the desert than a brown stone front, but despite his blase air of elegance. his appearance seemed to belte any cless acquaintance with brown stone fronts. Auother was a beady-eyed individual with an air of mystery, who said he would rather be in San Quentin prison than Nevada. "Tried both" suggested the college youth. The man flushed furiously and never took his eyes from the boy's face all through

There was a German student taking kodak pictures, while the rest were rough and ready fellows one sees in the ranks of the army.

The people who will make millions out of Goldfield, however, are none of these fools who are looking for piles of gold dollars already coined and marked with their names and addresses, but experienced mining men, who go in calmly prepared to work and spend money in developing their properties, OR THOSE WHO INVEST IN THE SHARES OF REPUTABLE MINING COMPANIES THAT OWN CLAIMS AND HAVE FA-CILITIES AT THEIR COMMAND FOR creation. Goldfield is getting a liberal sup-ply of the scum of the earth-a large pre-ALONG INTELLIGENT LINES. PUSHING DEVELOPMENT WORK

#### THE GOLDFIELD-GLADIATOR MINING CO. controls three claims-the Washoe, Stranger and Tucson-consisting of sixty acres of

rich ore land lying well within the great treasure zone of Goldfield, which is almost certain to yield vast fortunes for all who have the foresight to get in on the ground floor, and, by investing small sums, assist the management in developing the properties, all of which show the most flattering surface indications of containing vast beds of virgin gold.

#### **INCORPORATED FOR \$1.500.000**

The Goldfield-Gladlator Mining company is incorporated for One Million Five Hundred Thousand-the par value of each share being \$1.00, fully paid and nonassessable-and in order to push development work forward with the greatest possible speed the company offers for sale a small block of its treasury stock at the nominal price of Five Cents a Share.

Before undertaking to finance the Goldfield-Gladistor Mining company we had our mining engineer at Goldfield, Mr. W. B. Roberts, make a thorough investigation of the properties. Mr. Roberts' reports are so promising that we are enthusiastic in recommending our clients and the general public to invest in Goldfield-Gladiator shares, and our reputation is too well founded for us to offer any other than giltedge securities.
