the question of whether the city shall grant a franchise to the Council Biuffs Independent Telephone company is to be decided by the vote of the people at the special election to be held today. Much interest has been taken in the question and consequently a large vote is looked for when compared with the two former special elections held in this city since the law went into effect requiring the granting of ing, but it would not respond. This comfranchises to be submitted to the vote of the people

That the proposition will meet with considerable opposition is conceded and the contest at the polls today is expected to be an interesting one. The retail merchants are practically solid against the granting of the franchise, as they argue they will derive little or no benefit from a second telephone exchange in the city, but on the other hand will be subjected to considerable annoyance and extra expense thereby. The retail merchants, however, are not the only ones opposed to the proposition of two telephone systems in the city. In the ranks of the opposition will be found many who have telephones in their places of business There is little more than the width of two or homes who fall to see how they will be benefited by the establishment of a second telephone system, especially one which building became exceedingly hot at times. will be unable to furnish them connection with Omaha or many of the adjacent towns in the neighborhood of \$40,000, as follows: in this state and Nebraska.

Judge Thornell will hold a night session tonight of the Doyle-Burns suit in order that the motion of the defense that judgment insofar as the shares of the stock received from the sale of the Devil's Own claim be entered for Burns, may be argued.

Motion for judgment is made on the grounds that the jury at the former trial found that Doyle had no interest in the Devil's Own and this finding was not rerersed or altered by the supreme court. The court's ruling on this motion will be important, as if it is sustained it will reduce Doyle's claim about \$300,000. Charles J. Hughes, jr., arrived from Den-
