HEADS OF THE ROCK ISLAND

Executive Officers of the Line Out on Inspection Tour.

TAKE LUNCH AT THE COMMERCIAL CLUB

President Winchell and Party Stop Several Hours in City, Looking Over the Situation and Consulting Business Men.

A pasty of Rock Island railroad officials spent a few hours in the city yesterday afternoon, this being one of the stopping points of the party, which is on a general our of inspection of the Rock Island system. The party left Chicago last Thursday in a special train of five private cars and is taking in the branch lines along the way. A committee from the Omaha Commercial club met the railroad officials at Union station and escorted them to the Commercial club rooms for lunch. In the Rock Island party are: Robert Mather of New York, chairman of the executive committee; B. L. Winchell, president; J. F. Stevens, second vice president; W. B. Biddle, third vice president; J. F. Holden, freight traffic manager; L. M. Allen, gen-eral passenger agent; W. W. Hobbs, general superintendent of transportation; J. B. Smally, superintendent; A. B. Holt, divi-

Asked whether the visit of himself and fellow officials would result in anything of local interest, President Winchell replied that it would not so far as he now could

"We are just out over the line on a general tour. There is nothing of any moment that I could tell you at present," continued Mr. Winchell.

President Winchell said there is absolutely no truth in the report that the Rock Island road is to be divided into two grand operating departments, with the Missouri river as a dividing line and offices at Chi-"There is nothing in the rumor," emphatically answered the offi-

cars of the chairman of the executive committee, president, second and third vice presidents and general superintendent of transportation. The officials are accompanied by their private secretaries.

Next Monday night Innes and his famous band, assisted by the Omaha Festival chorus, consisting of 300 trained voices, will open a musical festival in the Auditorium. The festival will continue until Sunday night, April 9. There will be two concerts every day with the exception of Monday, and the programs will be diversified in such a manner as to cover almost every class of popular and classical music.

Mr. Innes will open on Monday night with a choice program calculated to satisfy the most critical and arouse the enthusiasm of every body. His soloists this year are Mrs. Partridge, soprano; Mr. Rowdon, basso; Mr. Huttmann, tenor; Mr. Kryl. cornetist; Mr. Williams, harpist. Tuesday night will be oratorio night, with Mendelssohn's great choral work, "The Hymn of Praise." On Wednesday night his great production, "War and Peace," will be presented. Thursday night will be given over to "Parsifal." Friday night to Wagner. Saturday night will be grand opera, popular music and concert dance. Sunday will be sacred and home music, both

CITY COUNCIL PROCEEDINGS

Oratory Engendered by an Application from Cudahy Company.

EXTENSION OF AREAWAY STARTS TALK

Resolution Lost, but Recovered and Adopted After Hard Work on Part of Acting Mayor Zimman.

A resolution proposing to authorize the Cudahy Packing company to construct an areaway ten feet in the street in order to secure a driveway down the side and to the rear of a new building at Fourteenth and Jones streets caused more language to flow at the city council meeting last night than any other piece of business. After being lost the resolution was reconsidered and adopted by dint of a speech by Acting Mayor Zimman, who came down on the floor of the council chamber to urge the necessity of the matter. Mr. Zimman among other things, said that "ordinances should be enforced as far as possible, but the council should use judgment, particularly in matters affecting the improvement of the city.

Councilman Hoye opposed the resolution because it conflicts with an ordinance saying areaways shall not extend more than four feet and he was against trying to upersede an ordinance with a resolution. Attorney Breen backed him up, saying the city had already enough damage suits to defend on account of unprotected area-Wilbur Sears, speaking for the Ways. packing company, assured the council that graduated incline would be run down the area for teams and that the company is willing to guarantee protection to the city against accidents of any kind, as the work will be done property.

Snow Ordinance Killed. Councilman Hoye made a gallant fight to get his ordinance compelling the street railway company to level off snow thrown in ridges off its tracks by sweepers, but failed to muster sufficient votes to do so. The bid directed \$1 to be added for every \$100 to pay for the bond, but it was discovered later that this was overestimated. As the bids had been inspected by the legal department, Attorney Breen was asked for advice and recommended against approving the contract until the bonds for the nouse had been sold. He said it was unwise to make the contract before this was done. The matter was therefore referred to a ommittee. REFERENDUM TAKEN BY COMMERCIAL CLUB

Local Sentiment Slightly Favors Fishback Bill, but is Overwhelmingly Against the Sheldon Measure or Modification.

The business men of Omaha favor the Fishback bill, which was introduced at Lincoln for the purpose of forcing the Neraska Telephone company to connect with the independent wires when they are brought to the city limits and to deliver the independent messages within the city on a pro rata basis equal to one-fourth of the toll. The business men of this city however, do not favor having two telephone systems here and do not favor the Sheldon bill, which would allow the independencompanies to establish booths in this city though not to enter houses. These opinions are the result of a postal card vote taken by the commercial club. The result or the Fishback bill is 203 in favor and 147 against that measure; for the Sheldon bill, 28 for and 290 against, and on the proposition of two systems in the city, 47 for and 289 against.

The Douglas county delegation at Linoln some time ago asked the Commercial club for some information as to the desire of the Omaha business men on these questions, and two weeks ago representatives of the Nebraska Telephone company and of the independent lines appeared be fore the executive committee of the club and presented arguments for and against any change. To learn the opinion of a and tissue in the body can be renewed in large and representative portion of the business interests a circular card was sent out asking for an expression of preference The intention of the Fishback bill is to provide for an interchange of business and dependent companies. The objection on the part of the Nebraska Telephone company is that the Fishback bill makes an infringement on private rights and a confiscation of private property; that it has at large expense built up and developed an extensive business and that its Omaha terminals are expensive to maintain and heavily taxed. and that to divide its business with a competitor would reduce its earnings.
